FAST INSTALLATION.

Dependable and extremely easy.

The robust RAUTOOL system tools enable simple and convenient installation of the compression sleeve jointing system.

The original:

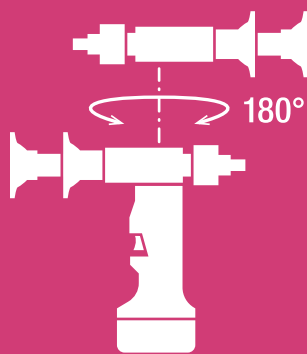

For 30 years, the compression sleeve jointing system from REHAU has ensured hygienic, cavity-free and secure connections. It is immediately able to handle pressure loads and is tightly sealed – without O-rings.

Diverse range of applications:

- drinking water and heating installations with RAUTITAN
- underfloor heating and cooling with RAUTHERM
- industrial applications with RAUPEX for compressed air, cooling water and more
- district and local heating with RAUTHERMEX and RAUVITHERM

TURN, CHANGE, CARRY ON.

With RAUTOOL system tools.

Installation with a twist:

The RAUTOOL A-light2 Kombi tool optimises work on construction sites. The switch from expanding to sliding on is done with a simple twist of the tool head – without re-tooling and without needing to take the tool out of your hand.

Equipped for anything:

The modular tool concept with various power types has the right solution for every requirement. Powerful cordless tools ensure long service lives. The manual RAUTOOL tools are independent of the power supply, maintenance-free and tried and tested in the rough and tumble of construction work.

Unparalleled variety:

No other manufacturer offers such an extensive range of tools. See for yourself:
www.rehau.uk

From small to big:

RAUTOOL system tools cover the dimension range from 10 to 160 mm.

Just a
 $\frac{1}{4}$ turn –
done

OPTIMAL INSTALLATION.

For maximum efficiency on the construction site.

The professional tools of the RAUTOOL range make the compression sleeve joining system a snap.

**Permanently sealed in just
3 steps:**

No need for deburring and calibrating the pipes. Even before the pressure test, a simple visual inspection is enough to verify a proper connection.

1 Expand pipe end

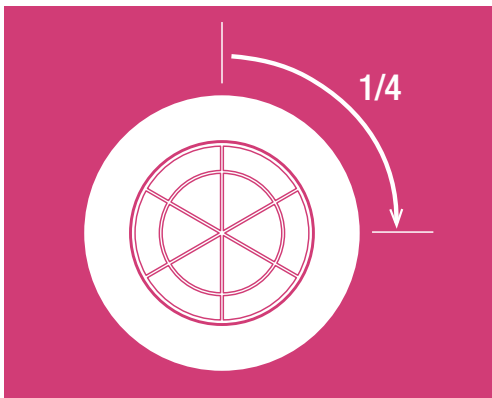

2 Insert fitting

3 Apply compression sleeve

EXPAND, SLIDE ON, SEALED.

With RAUTOOL system tools.

Quick Change®: Faster changing of expander heads

With the patented Quick Change system, attaching and removing expander heads is reduced to a single quarter turn. With conventional threaded connectors, by contrast, four complete turns are required.

Far and wide:

To date, over 650 million REHAU compression sleeve joints have been installed. To keep this success story rolling, we continuously develop new innovations that make RAUTOOL system tools even simpler and faster.

3 dimensions:
1 tool

CONVENIENT INSTALLATION.

Even in demanding situations.

Powerful tools, optimal accessories and hands-on, professional expertise:
RAUTOOL and REHAU partner advantages!

Ideal: RAUTOOL accessories

Genuine RAUTOOL accessories – even for extraordinary requirements: Double and triple compression jaws, inner spiral springs for RAUTITAN stabil pipes, expander heads and more.

Powerful: RAUTOOL batteries

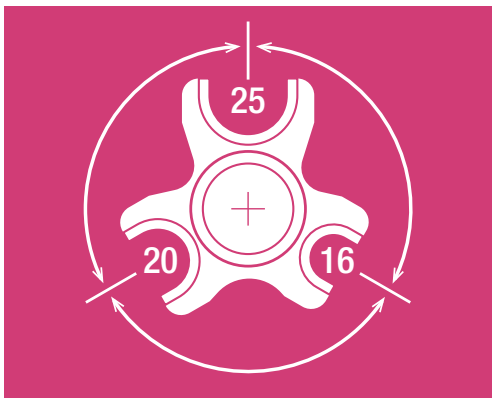

The latest-generation Li-Ion batteries ensure extended use with short charging times.

Optimal: RAUTOOL service

Construction site instruction, tool hire and professional training courses: Take advantage of the REHAU added-value services!

MASTER OVERHEAD JOBS WITH EASE.

With RAUTOOL
system tools.

Turning instead of re-tooling:

With the triple compression jaw, dimension adjustments are fast and easy. The dimensions 16, 20 and 25 can be processed with a single tool. A simple twist does the trick.

Fast and handy in every situation:

Whether it's an overhead installation, in a tight shaft or other tricky construction situations, the light and compact design of our cordless tools makes installation a snap.

Equipped for anything:

In dark work areas, the integrated LED workspace lamp provides sufficient light.

RAUTOOL: THE TOOL.

RAUTOOL A-LIGHT2 KOMBI

Combo tool

Dimensions 16 – 40 mm
