**waterproofing**  
quality roof systems

Your **roofing and waterproofing** partner

**SOPREMA** has been an independent family group since 1908. Today, we install millions of square metres of waterproofing and roofing systems across the world.

**SOPREMA has 4410 employees worldwide. Our products are distributed in 90 countries and we have sales and manufacturing facilities across the globe, with a total of 19 manufacturing plants.**

**A pioneering company recognised for over a century in the waterproofing sector, SOPREMA has progressively widened its area of competence and expertise to offer a more global range of roofing and waterproofing solutions.**

#### SOPREMA Bituminous Membranes

The bituminous membranes manufactured by SOPREMA are continually evolving and optimised by the R&D departments. SOPREMA bituminous membranes today, reach outstanding levels of performance: strength, reliability and longevity.

SOPREMA specialise in manufacturing expertly blended SBS elastomeric bitumen waterproofing, with SBS content ranging from 12-16%. The performance and attributes of SOPREMA membranes perfectly meet industry requirements, designs and applications.

#### Flag Single Ply Membranes

In 2007 SOPREMA acquired Flag, a worldwide specialist in manufacturing synthetic waterproofing for the building industry, civil engineering, hydraulics works and swimming pools.

The product range consists of Industry leading PVC and TPO single layer waterproofing systems. Flag provides innovative solutions capable of meeting architectural ambitions and also the many and varied technical constraints of the market. Flag membranes are light weight and fully recyclable at the end of their service life.

#### Alsan Liquid Waterproofing

The Alsan liquid waterproofing systems are becoming increasingly popular with specifiers due to their versatility and performance. Alsan liquid waterproofing systems benefit from flame-free application, exceptional adherence, attractive finishes and 100% compatibility with SOPREMA bituminous membranes.

The Alsan range of products is recognised and overwhelmingly approved by professionals world wide for roofing, car parks, bridges, wet rooms, balconies and stadiums.

#### Duoflex Structural Waterproofing

The Duoflex structural waterproofing system is a hot melt system, that provides a strong, durable, flexible, light weight and self-healing, monolithic barrier to the transmission of water and water vapour. Duoflex can be installed at zero falls, for fast track construction.

Designed to last the lifetime of the structure to which it is applied, it eliminates future maintenance and gives rise to particularly low life cycle costs.

#### Sustainable Roofs

SOPREMA design products with the aim of reducing the use of solvents and harmful chemicals, improving user friendliness and safety, and utilising our planet's natural resources - water, sun and wind.

From thermo-reflective waterproofing, green roofs to CO2 absorbing membranes and non penetrative photovoltaic fixing systems, SOPREMA have a wide range of sustainable roofing and waterproofing solutions to meet the demands of sustainable construction. Our use of recycled material and sustainable manufacturing means that you can be sure you are specifying the very best for your building and the environment.

## Specify **SOPREMA** for:

#### Superior Performance

Providing high quality, durable waterproofing solutions that extend the lifetime of building constructions.

#### Customer Satisfaction

Major areas of research are aimed at offering efficient solutions, and also developing products that protect the environment and users alike. Quality, safety and environmental protection are priorities under company policy.

#### International Experience

SOPREMA products have been used across the world for more than 100 years, from northern Canada to the heat of Arabia and tropical areas. On roofs, roof gardens, basements, reservoirs, tunnels and bridges.

#### Service

With outstanding technical support, marketing and distribution facilities, assistance is readily available to specifiers and contractors.

#### Approved Contractor Network

Roofing contractors are closely evaluated before being authorised to install SOPREMA products. Close partnerships are maintained to ensure the highest standards are maintained.

#### Aesthetic Appeal

SOPREMA roofing and waterproofing products are designed to fit with the surrounding architectural design. With innovation in mind, SOPREMA have developed a number of unique waterproofing systems to address the needs of specifiers today.

#### Solutions for a Sustainable Future

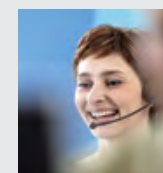

SOPREMA continues to invest millions of Euros in sustainable development. In the domains of treatment of atmospheric emissions, limiting of water use, waste recycling and the reduction of energy consumption and primary resources.

#### Hybrid Systems for Complex Applications

SOPREMA offer a number of hybrid waterproofing systems that combine multiple types of waterproofing in order to achieve even the most complex designs.

### Fully insured and accredited products

SOPREMA's waterproofing membranes and accessories benefit from **extensive guarantees** provided by Europe's largest insurance companies. We also have British Board of Agrément, BREEAM, WRAS, ISO 9001 and ISO 14001 accreditations, to bring you peace of mind for your project.

### Technical support

SOPREMA provide support through Technical Continued Professional Development seminars, site visits and inspections, product installation training and detailed specifications. **For further details contact:**
