Cast Architectural Metalwork to Traditional and Contemporary Designs

THE PRODUCT

Decorative cast metalwork adds character and warmth to both contemporary and traditional styles of architecture.

We have patterns for numerous designs, including balustrades and railing finials.

Large multiple orders, single items and parts cast from existing originals are undertaken.

We can also cast to new specifications, which can be designed to order in-house.

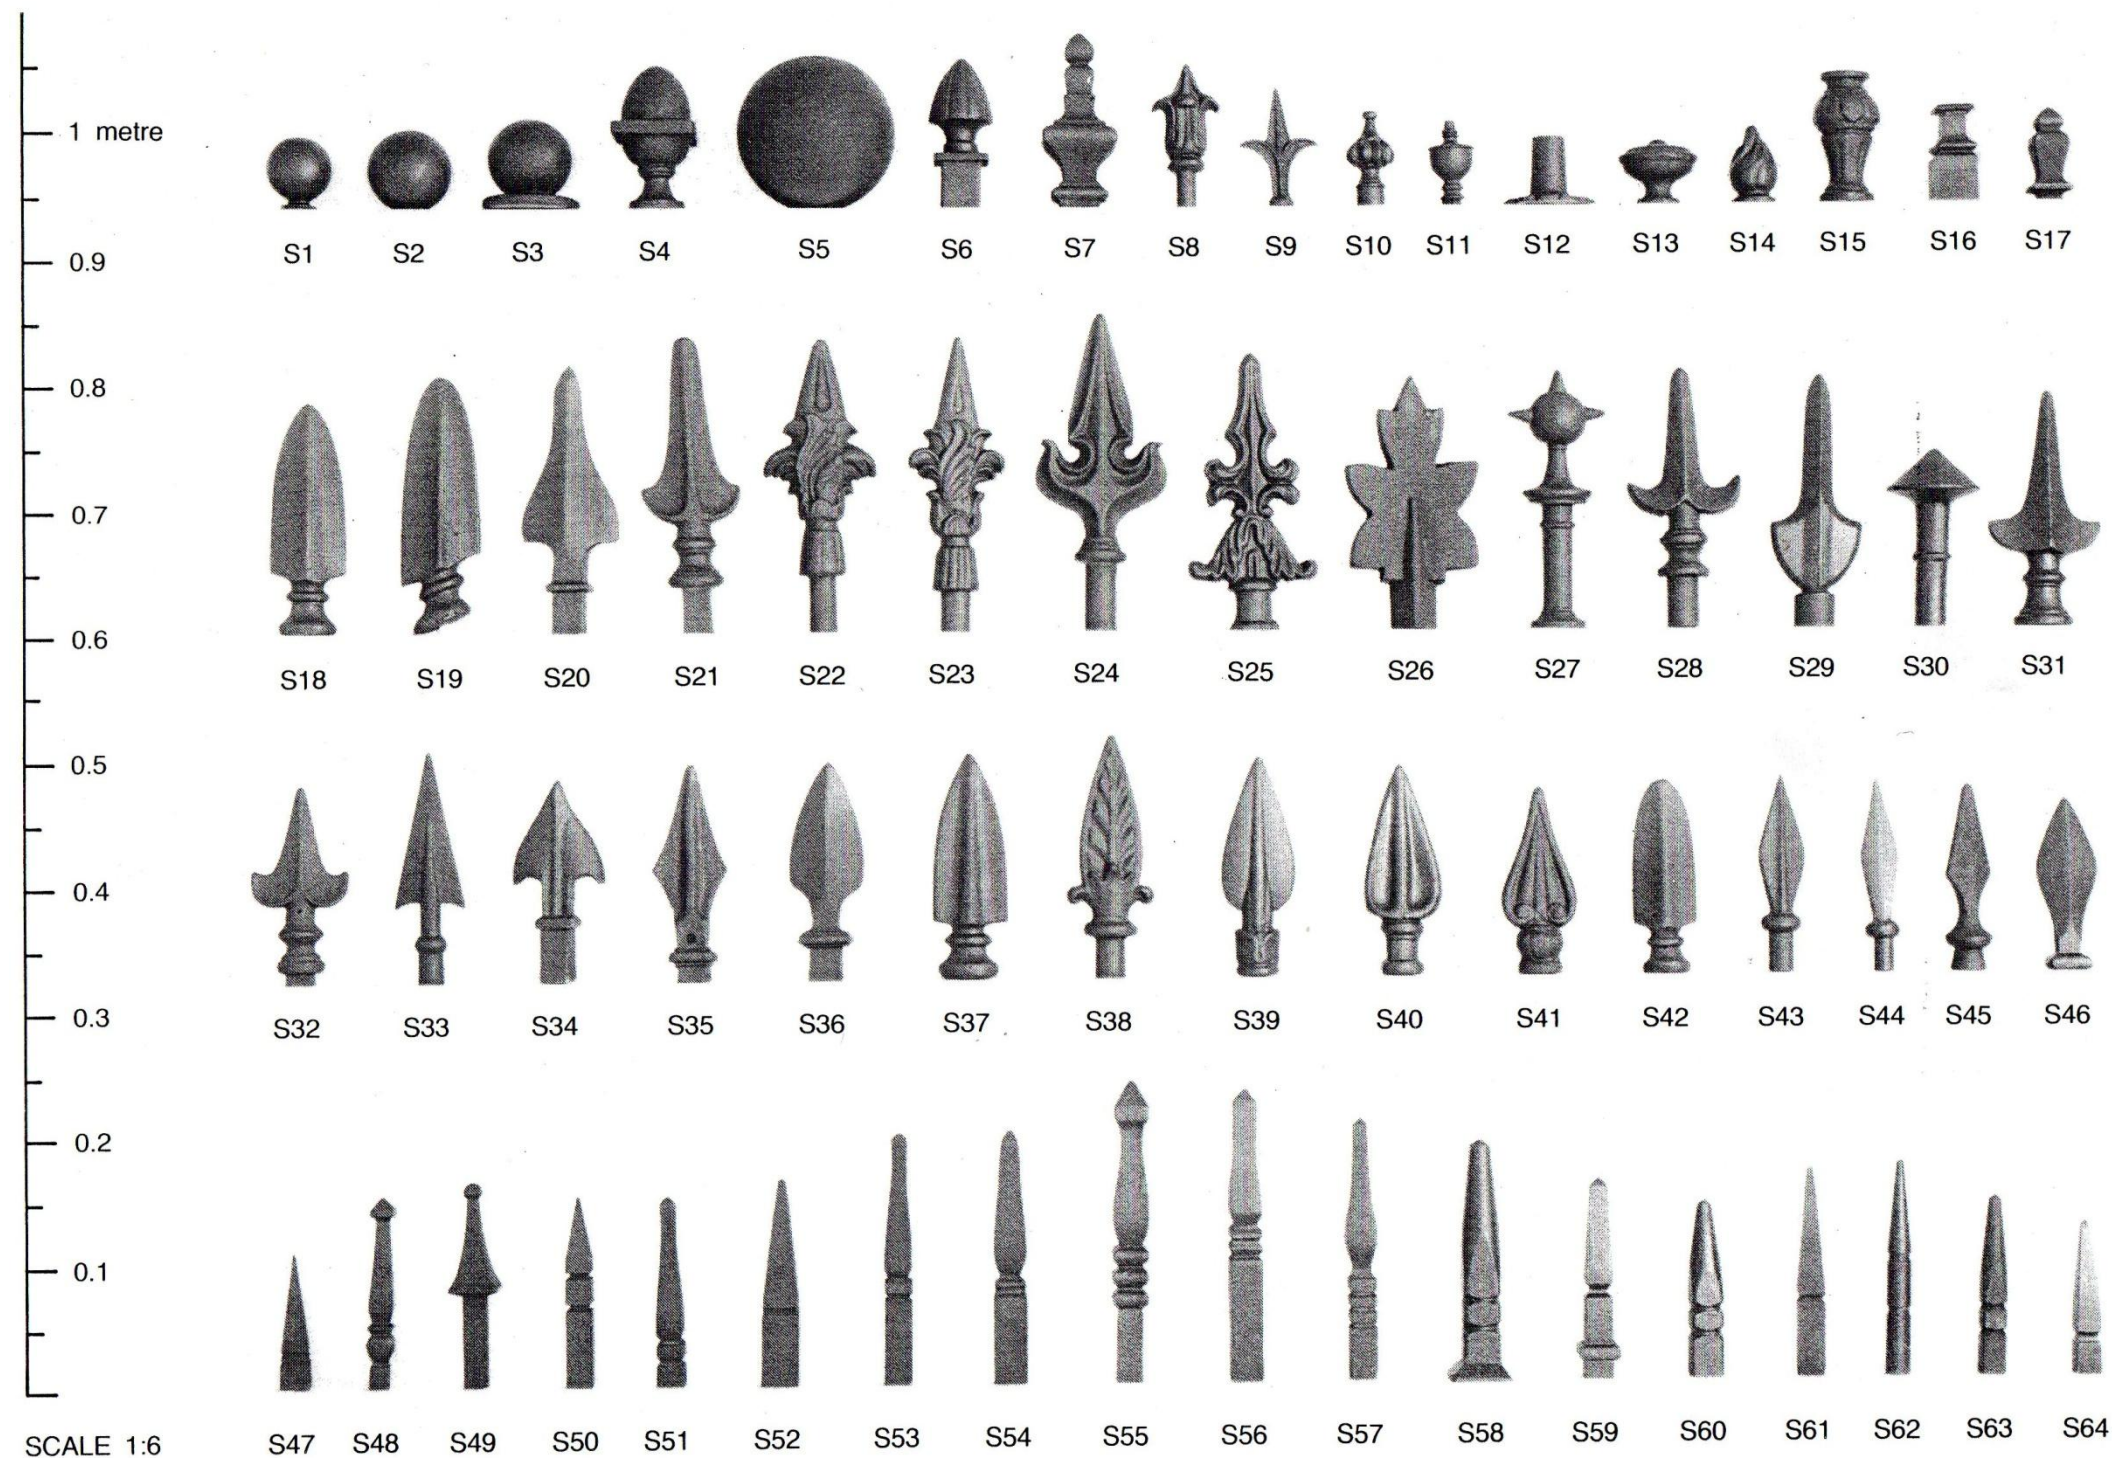

THE SERVICE

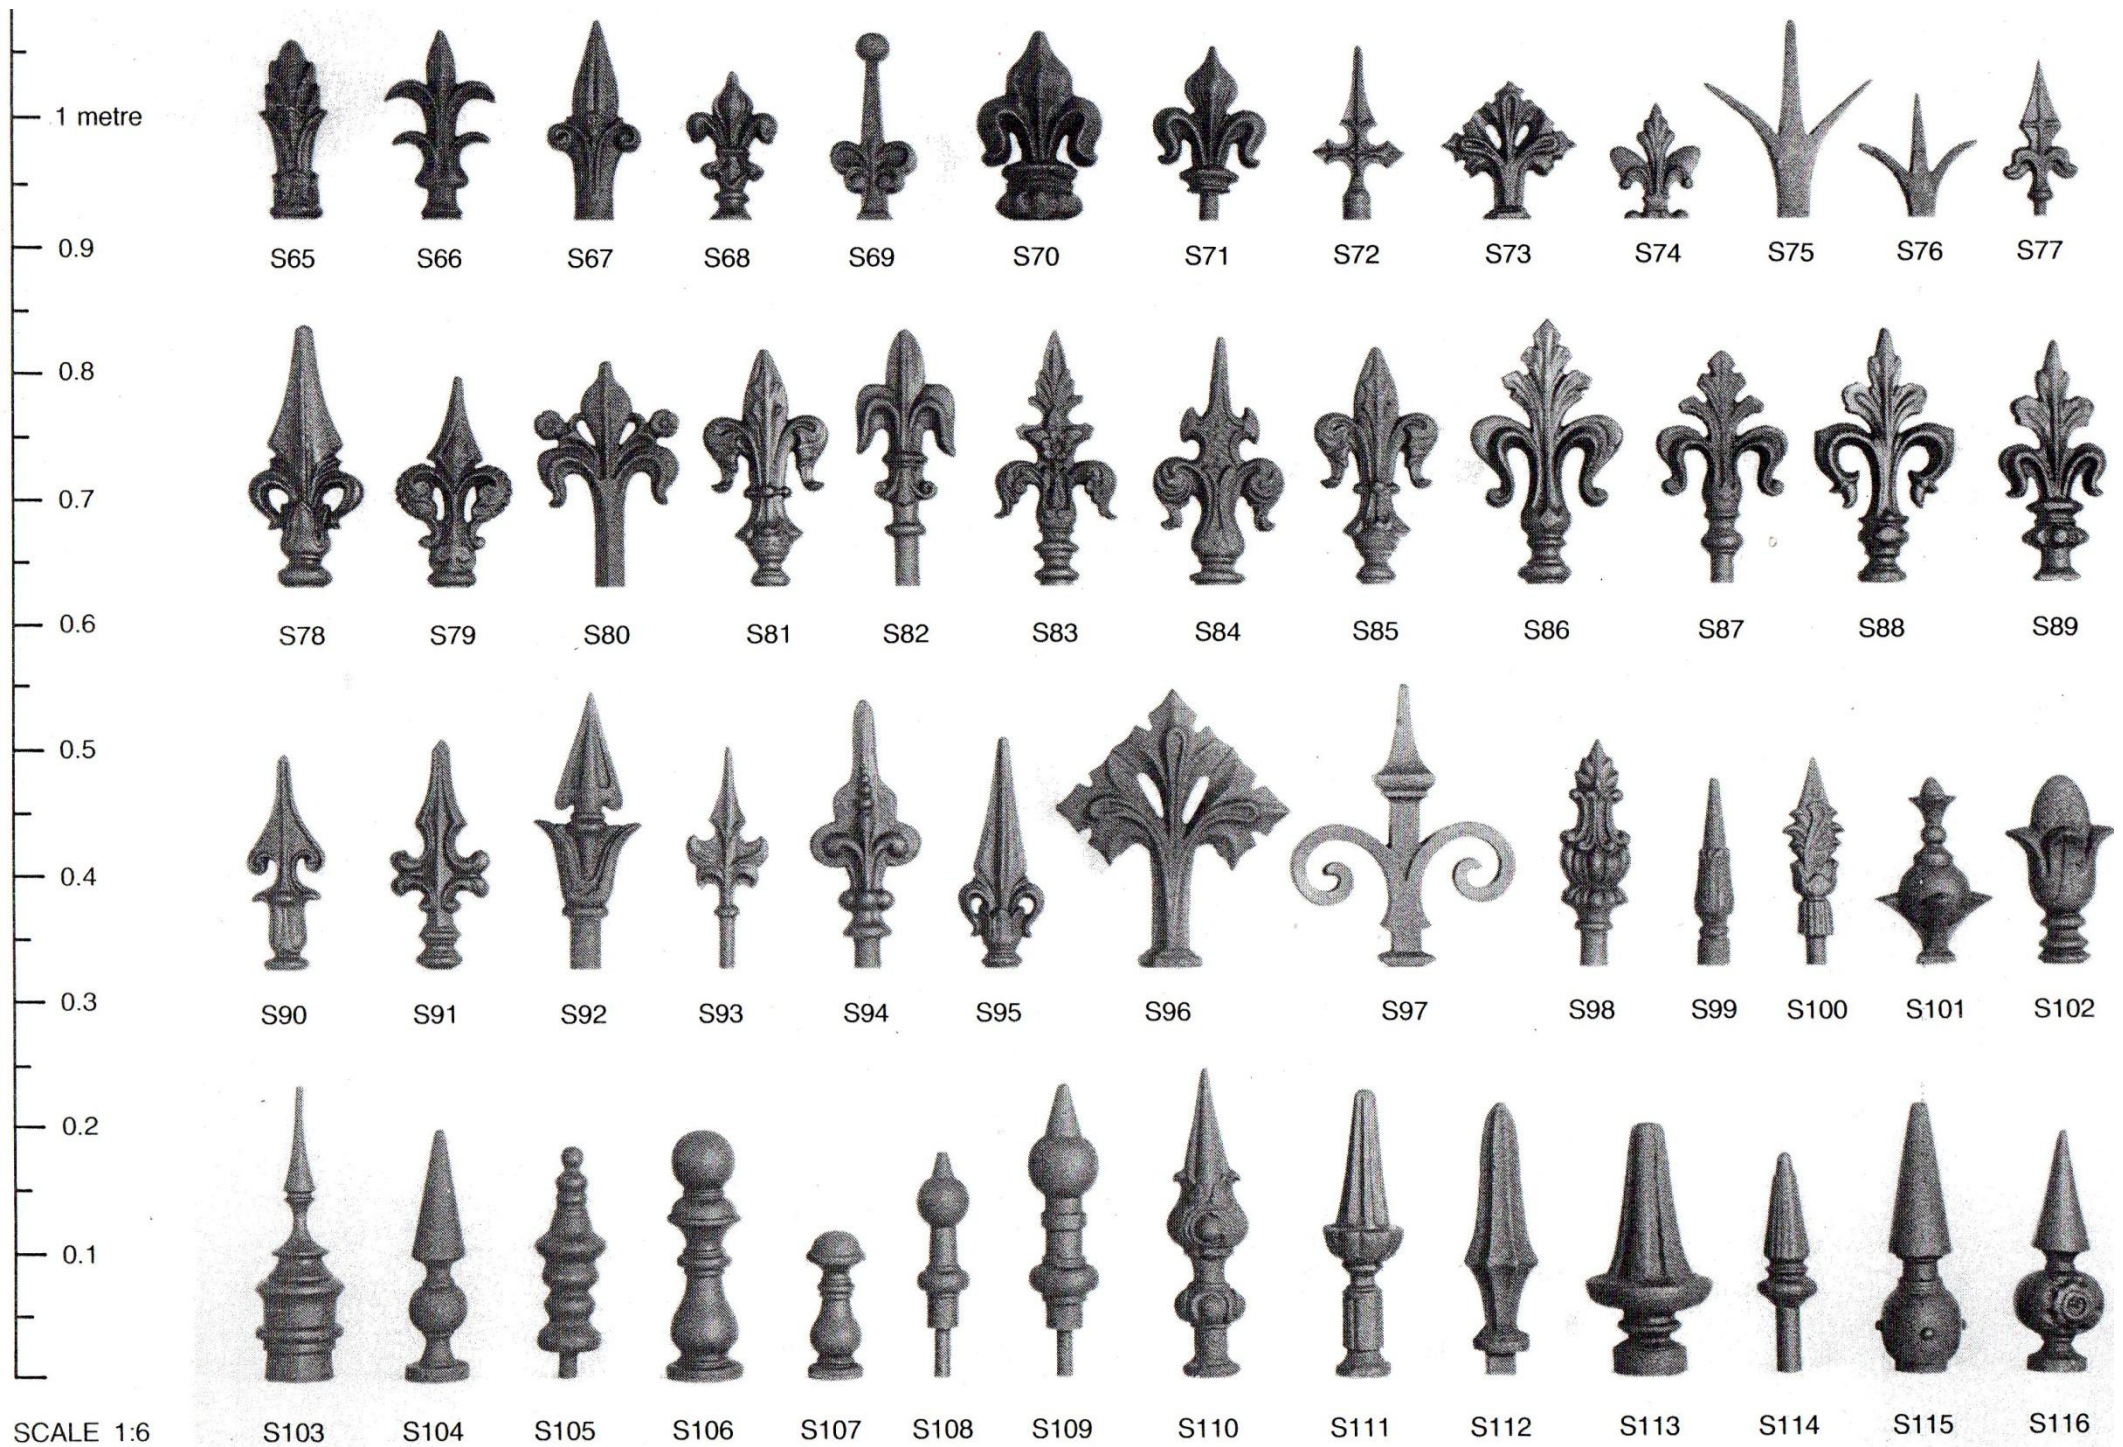

Our Architectural section is the decorative metalwork part of our privately-owned foundry company.

The company benefits from in-house expertise in many areas, including: design, original pattern making, casting, metallurgy, engineering, surface treatment and finishing.

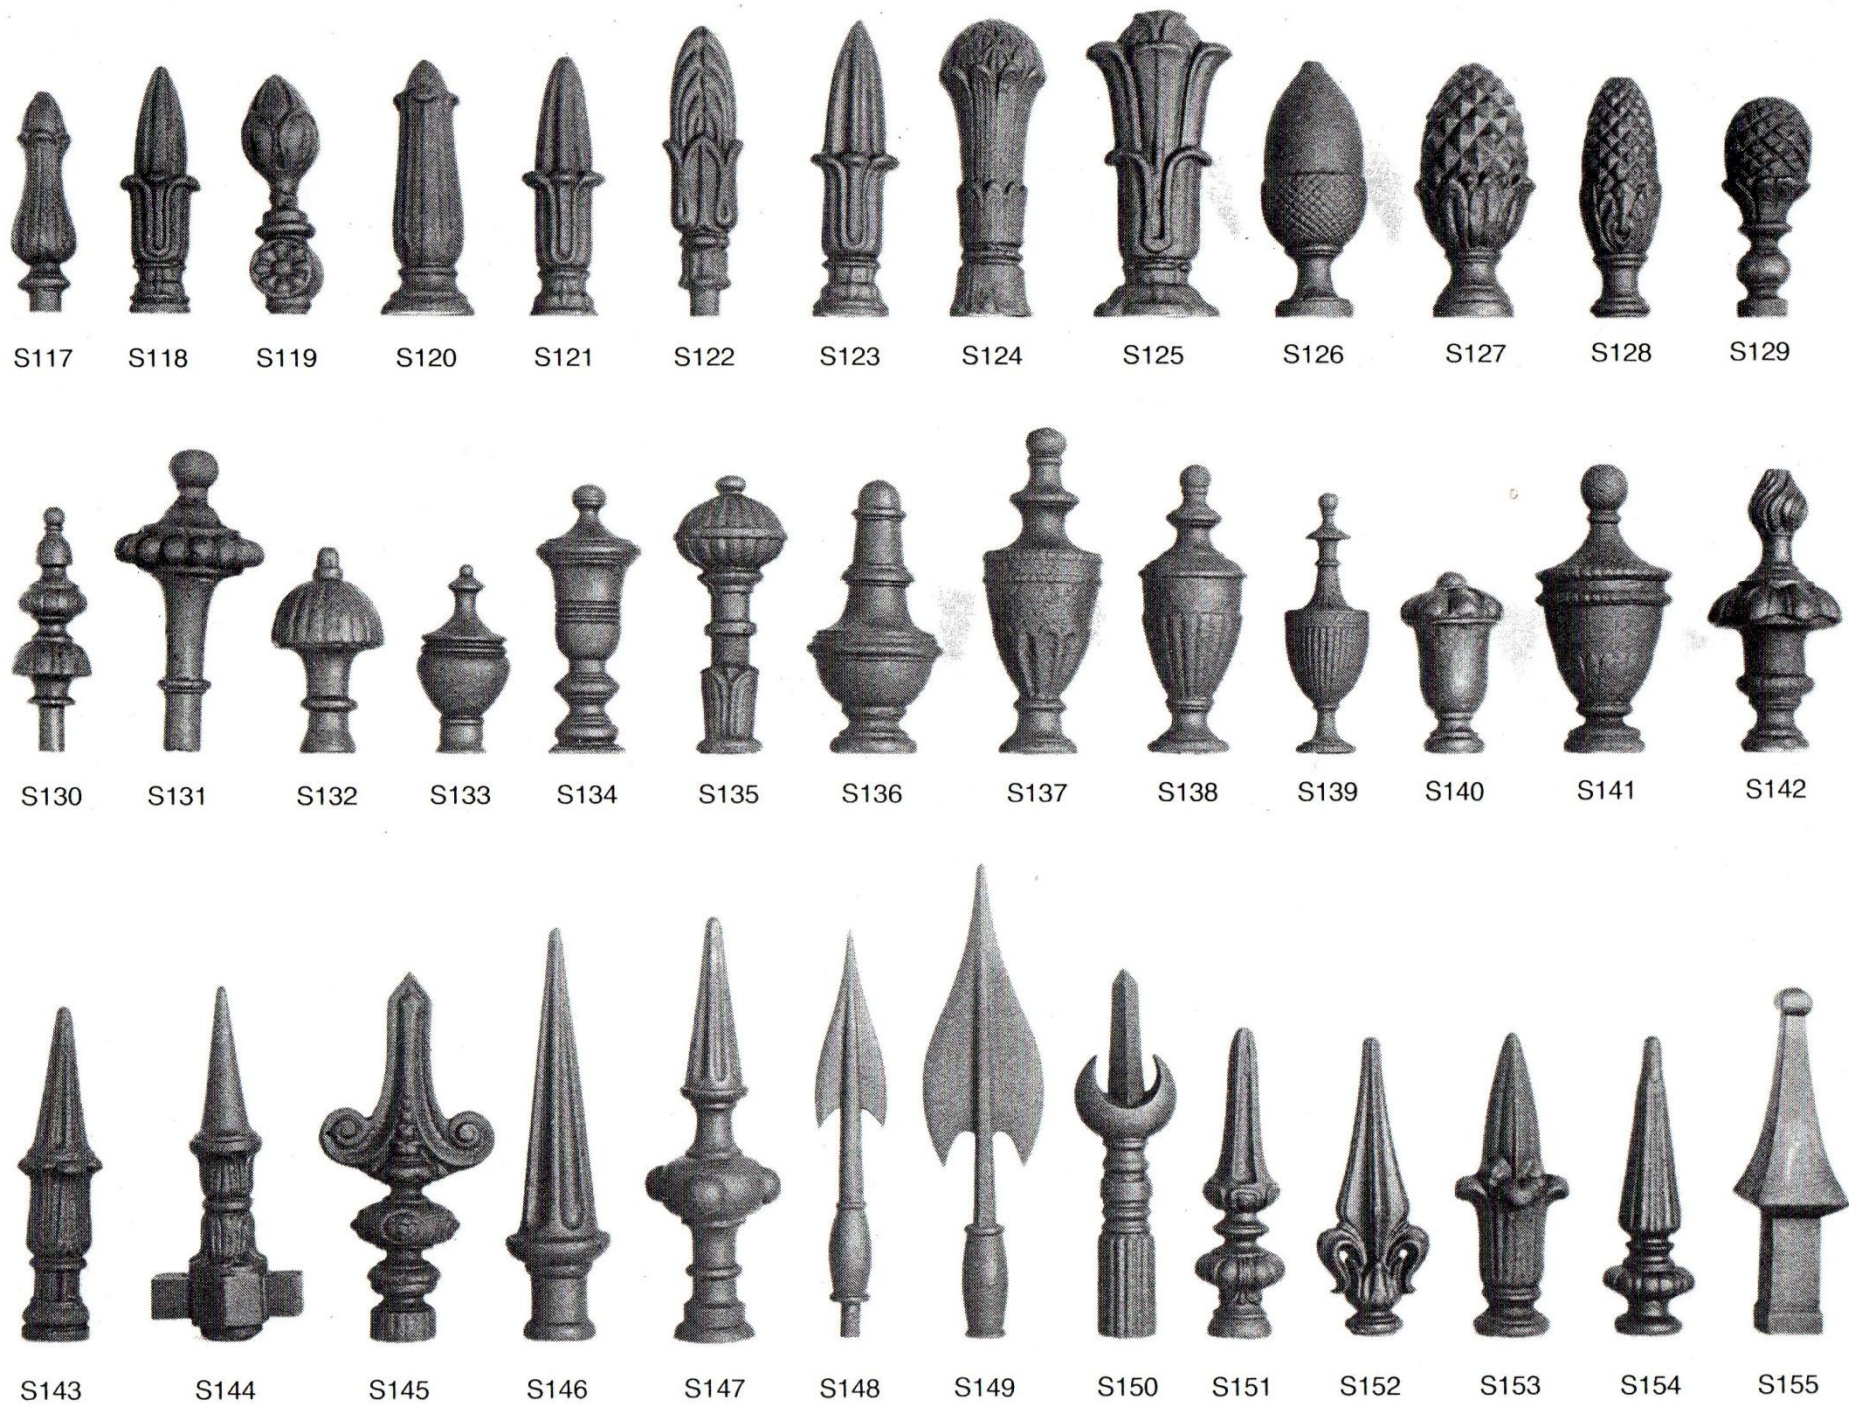

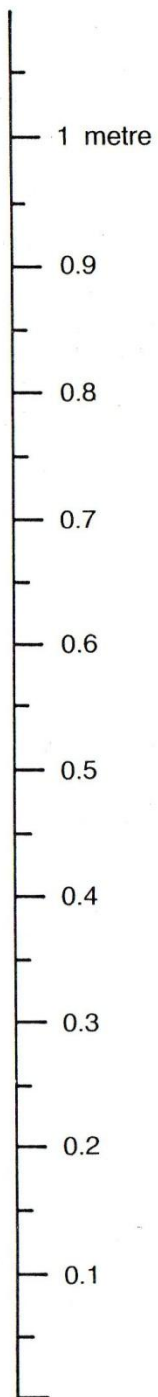

Our company can also solve a wide range of problems in the sphere of architectural metalwork, resulting in a reliable, cost-effective and individual service.
