

The VELOPA Harbledown Cycle Shelter

The Harbledown shelter is a free-standing cycle shelter designed for on site assembly, constructed from galvanised steel and PET sheet. The frame is made entirely from galvanised mild steel; the uprights are 76mm round tube and the roof frame is 50mm square tube. The roof is 4mm clear sheet.

A variation of the classic VELOPA Canterbury style shelter, the Harbledown shelter provides a core element of a compliant cycle parking solution.

Options

Order Code	Description	Weight
138 204 361	2m Main Bay (Flanged)	216.0kg
138 204 351	3m Main Bay (Flanged)	262.0kg

138 101 012	Pack of 24 16mm Expanding anchor bolts (for fixing 6-8m)
138 101 014	Pack of 32 16mm Expanding anchor bolts (for fixing 9-10m)

Product details

Height: 2,400mm
Depth: 2,800mm
Width: 2m-10m
76mm round and 50mm square galvanised steel tube
4mm clear PET sheet

Installation & use

Cycle shelters should always be installed in a safe, well-lit location. Where possible, shelters should be installed against a wall or fence.

Cycle shelters should only be used for their intended purpose, they are not suitable for use as a walkway.

Appropriate signage should be installed to warn pedestrians of the cycle shelter's location.

Each shelter leg requires bolting down to a suitable concrete surface (not less than 1,600mm x 500mm x 400mm) by means of eight 16mm anchor bolts.

The area surrounding the installation must be flat and level with no nearby surface irregularities or gradient changes.

On-site assembly requires construction skill.

This product is guaranteed for 12 months (*if installed and used correctly*).
