

AUTOPA Open Spaces Drayton Range

Robust and aesthetically striking, the Drayton Bench (without a back) and Seat (with a back) are both designed for use in high traffic areas such as schools, parks and town centres. The simple design will complement all architectural styles and will continue to look good for many years with only minimal maintenance.

Manufactured in the UK, the Drayton range is available in both galvanised mild steel and grade 304 stainless steel. All galvanised products can be coated in any BS or RAL colour (codes must be specified at time of order). Available ragged only

 Drayton Bench: 500mm x 450mm x 1800mm (h x w x l)
 Seat height: 500mm
 400mm below ground

Installation & use

Supplied fully welded for easy installation on site.
 Ragged versions require a hole of 400mm³ for each leg for casting into concrete.
 Clean off any concrete splashes after installation. Always allow sufficient time for concrete to cure before usage.
 These products are guaranteed for 12 months (if installed and used correctly).
