

Stainless Steel Barrier

Highly versatile, the stainless steel barriers from AUTOPA can be used to form trolley bays, protect vulnerable door entrances, and protect your site from vehicle access. A more aesthetic alternative to traditional fencing, our barriers are manufactured from grade 304 stainless steel and have a flawless brushed finish.

Available ragged and flanged, the AUTOPA Stainless Steel Barrier is supplied in both 1500mm and 1200mm lengths as required.

Product Details

138 205 100	800 x 1250mm Barrier (ragged)	11.7kg
138 205 105	800 x 1500mm Barrier (ragged)	12.6kg

Product Specs

- 800mm above ground
- 300mm below ground
- 48mm diameter tube

Installation Instructions

Ragged versions require setting with concrete into a hole of at least 300mm x 300mm x 450mm (length x width x depth)
Ragged barriers are supplied with welded fixing spikes to ensure firm ground anchorage.
This product is guaranteed for 12 months (if installed and used correctly).
