

# Square Fixed Bollard 900mm Above Ground 50mm - 80mm Square Galvanised

The galvanised mild steel range of 900mm tall square fixed bollards are suitable for a range of applications and are ideal as a complement to the Autopa ranges of square Parking Posts, RemovaPosts and RetractaPosts.

The bollards are available in 50mm - 150mm square tube and come with a welded flat steel cap.

The Fixed Post is available with extended legs for casting into concrete or a flange plate for bolting down.

Removable and colour coated versions also available.

Part Number	Diameter and Fixing Detail
138 121 864	50 x 50mm (Concrete In)

## Product details

- 900mm tall
- Cast in posts 300mm below ground
- Reflective bands available
- Colour coated options available extra
- Larger diameter versions available

## Installation & use

Bolt Down Fixed Posts require bolting to a suitable concrete surface (no less than 300mm cube) by means of three M12 bolts. Concrete In Fixed Posts are supplied with welded fixing spikes to ensure firm ground anchorage. Concrete In Fixed Posts require an excavated hole (no less than 300mm deep) for installation. This product is guaranteed for 12 months (if installed and used correctly).
