

Hooped Perimeter Barrier 90mm Diameter Galvanised, Concrete In

Perimeter Barriers are designed to help secure site perimeters and provide a permanent obstacle to vehicle access, to mark boundaries, define trolley parks and protect vulnerable door entrances and exits.

Suited to sites where aesthetics and security are equally important, perimeter barriers are commonly found outside car showrooms acting as protection for the cars on the forecourt without impeding a customer's view of the vehicles.

Available in a variety of heights and widths, available as concrete in, bolt down or removable for occasional access.

Available as galvanised as standard. Stainless steel, galvanised and colour coated available extra. Tube diameters 48mm, 60mm, 76mm & 90mm available.

Part Number	Description, Height above ground x overall width
138 178 950	500 x 750 (Concrete in)
138 178 951	500 x 1000 (Concrete in)
138 178 956	500 x 1500 (Concrete in)
138 178 962	500 x 2000 (Concrete in)
138 178 966	750 x 1000 (Concrete in)
138 178 972	750 x 1500 (Concrete in)
138 178 978	750 x 2000 (Concrete in)
138 178 981	1000 x 1000 (Concrete in)
138 178 987	1000 x 1500 (Concrete in)
138 178 993	1000 x 2000 (Concrete in)

Product details

- Concrete in, 300mm below ground
- 90mm Diameter Galvanised Steel Tube

Installation & use

Each leg of the barrier requires a hole of approximately 400mm³ and then concreted in for installation.
This product is guaranteed for 12 months (*if installed and used correctly*)
