

AUTOPA Open Spaces Anti-Trap Bow Top Fencing Rail

AUTOPA's Anti-Trap Bow Top Fencing Rail is BS EN 1176-1 compliant and ideal for play areas and parks. The Anti-Trap Bow Top Rail features tighter bows and additional infill bars to prevent infants from getting stuck in the railings when playing in the area.

AUTOPA's Anti-Trap Bow Top fencing rail is available 1000mm or 1200mm above ground with a choice of panel widths. The fence panels are supplied galvanised as standard and can be colour coated if required. RAL numbers must be specified at time of order. All posts are supplied with the necessary brackets and fixings for ease of installation.
