

Design your **DekGlo**[®]
garden solution in 5 easy steps

- 1 Decide which DekGlo[®] product you would like
- 2 Decide which colourway, green or blue
- 3 For maximum effect, we suggest one disc or square every 300mm and strips every 500mm
- 4 Place your order at www.dekglo.co.uk
- 5 Install your DekGlo[®] garden solution

For squares and strips, simply take out of the box, apply a weatherproof flexible adhesive and leave to cure and dry.

For discs please use a 50mm drill bit (available from www.dekglo.co.uk) bore for 10mm depth and use the same adhesive process above. Full installation instructions visit www.dekglo.co.uk

For further help or information please visit www.dekglo.co.uk or call for technical assistance on +44(0) 1978 667 857
