

Astralux 3000 roller blind systems

CI/SfB	(76.7)	X
--------	--------	---

DESCRIPTION

The Astralux 3000 roller blind system is available in an extensive range of flame retardant fabrics including:

- Anti-microbial
- Black-out
- Dim-out
- Glare control
- Energy saving
- Heat reflective
- Metallised
- Screen

CONTROL OPTIONS

- Gearbox operation with fixed or removable handle to prevent unauthorised use. Inherently child safe
- Spring operation with slow rise so blind retracts at a constant speed. Inherently child safe
- Side chain where blind is raised or lowered by a continuous chain located on one side of the blind. Child safety devices available
- Motorised - hard wired, radio controlled and BMS systems. Inherently child safe

PRODUCT OPTIONS

- Powder coated hardware to match glazing frames or decor
- Side guide wires to prevent excessive movement of the blind
- Fascia and cassette systems to conceal roller barrel for a neater appearance
- Side channels to guide the blind and permit natural ventilation
- Shaped blinds
- Linked operation so one operating mechanism controls a number of blinds
- Pre-set stop position to ensure all blinds line up for elevational consistency
- Screen printing on fabrics
