

Rotating Felt/Whiteboard

- Aluminium frame
- 3 sided, each 1200 x 560mm wide
- Whiteboard of combination felt/whiteboard
- Rotates 360 degrees
- Sturdy steel pole and base

About the Product

The call centre board is ideal for a busy office and call centres where space is limited. This three sided notice board is an excellent use of space and rotates 360 degrees on a sturdy base. The top of the unit is approximately 2 metres in height and each side is 1200mm high x 56mm wide. There is a choice of all magnetic whiteboard surface on all three sides or a combination of felt pinboard and whiteboard.

This triple sided board is mounted on a metal triangular plate for rigidity and is secured at the top by a lock nut. To prevent any sway or instability the boards are mounted on a sturdy 5cm steel pole welded to a joining bracket on a 600mm circular x 80mm thick steel base.
