About the Product

The Staff Names In/Out notice board is produced from a robust, high impact, vacuum-formed polystyrene. The board comes with a choice of either 10 or 20 names, which all come with in/out sliders showcasing who's in the office at any given time. The board also has a drywipe message area for the purpose of leaving messages for staff members. Also supplied with the board is a wall fixing kit. These boards can be removed from the wall in the event of an emergency so the whereabouts of staff and personnel can be tracked safely.

Delivery
