PRODUCT OVERVIEW 70-105

All products in this brochure come with a 5-year guarantee. KEUCO guarantees the availability of PLAN products until 2030.

A FASCINATION FOR THE BATHROOM

Hartmut Dalheimer, Managing Director

Engelbert Himrich, Managing Partner

Sensuousness and sensibility – KEUCO's passion for the bathroom runs through its veins, and this is evident in our products. A KEUCO bathroom awakens the emotions. It is an intimate place of well-being. It conveys elegance and luxury, and it combines aesthetics, ergonomics and functionality.

In no other room is this challenge more exciting and demanding than the bathroom. That is why this fascination still drives us forward. Since its founding in the year 1953, our company, which is still family-run today, has undergone a rapid and sustained transformation. From market leader for high quality bathroom accessories, KEUCO has evolved into the brand for the bathroom, with a wide assortment of furniture, fittings, accessories and mirror cabinets and from our early days we focused on offering concepts of complete bathroom furnishings.

Important factors contributing to our success are the contemporary, technically innovative products, the highest standard of quality, a clear orientation towards design, and state-of-the-art manufacturing facilities. Today, KEUCO products are sold around the world, and are market leaders in many areas. They are the result of intensive development work, the use of the best materials, and the most careful workmanship. We combine high-tech manufacturing and involved hand craftsmanship to achieve optimum results. KEUCO quality sets standards: Our products will convince you by their immaculate surfaces, maximum longevity, and perfect functionality. Each article is examined individually before being shipped out.

At KEUCO, the subject of design already played a pivotal role long before it even became a general topic of conversation. Our understanding of design involves striving to achieve classic-modern aesthetics that retain their contemporary feel, even after many years of use. Whether designed in-house or in cooperation with internationally recognized designers – KEUCO products are regularly distinguished by renowned awards.

Longevity has another definition when it comes to KEUCO products. Getting older brings a higher level of comfort desired for in the bathroom. When it comes to design, KEUCO is a leader for barrier free bathroom solutions which harmoniously combine functionality, ergonomics and aesthetics into one putting the human being into the centre point.

But timeless design and long-lasting product quality are only two aspects of our sustainability philosophy. Equally important are responsible company management, and resource-saving production – with the help of our own water conditioning system for our electroplating plant, for example. We view the label "Made in Germany" as commitment to the kind of company management that aims to secure jobs in the long term.

KEUCO products are made in our own production plants in Hemer, Gütersloh and Bünde. Inland production provides us with a close proximity that is essential, so that we can develop and utilize the know-how of our employees on a long term basis, and so achieve seamless quality management. And that makes "Made in Germany" a promise of quality.

PLAN

THE EVOLUTION OF COMFORT

TIMELESSLY MODERN AND INCREDIBLY VERSATILE

With 450 individual products, PLAN is one of the most extensive bathroom collections in the world. PLAN is as varied as the lifestyles of today and the breadth and depth of its large assortment enables individual, tailored solutions to be found. PLAN leaves nothing to be desired – not from an aesthetic or an ergonomic point of view, as the main focus of the PLAN care range offers an additional wide collection of barrier-free products to choose from.

EYECATCHER IN EVERY BATHROOM

The wide range of surface variants multiplies the diversity of PLAN even more. Choose from chrome-plated, aluminium and stainless steel.

On the left you can see the PLAN blue fitting with a swivel spout – perfectly suited for the private and project area. Either as a one hand mixer or pillar tap, PLAN blue convinces with a slim design and precise language of shape. PLAN blue fittings are available with 3 different spout lengths and therefore match different washbasins fulfilling individual needs – this offers more freedom of movement when washing. The XL version is particularly suited for top-mounted washbasins or is a perfect solution for washing your hair in the washbasin. PLAN blue fittings offer high energy efficiency and a low flow rate of 6 l/min and is WELL certified.

Manufacturer:	KEUCO
Product category:	Wash basin valve
Type:	Single lever valve
Model:	Plan Blue
Registration number:	WA10006-20100816

HIGH QUALITY, CONVENIENT, BEAUTIFUL AND SAFE

The 45 mm wide PLAN CARE tip-up seat with the ergonomic foam soft-seat meets the requirements of DIN 18040-1 and is suitable for public sanitary rooms. The PLAN rail system not only serves the purpose of a shower rail and towel holder but at the same time offers a stable grab bar.

A corner solution for the shower that leaves nothing wanting. The rail system serves as a shower rail, a stable grab rail as well as a holder for a mountable tip-up shower seat. The matching sponge basket for corner installation rounds everything off.

The accessories combine functionality and aesthetics thanks to their diverse options and sophisticated design. Numerous shower seat options in different colours round the extensive range off. Choose between tip-up seats with or without a back rest. What they all have in common is an ergonomically shaped seat.

Ergonomic, aesthetic, resilient: The PLAN foldable support grab bar is not only nice in its shape but is just as stable.

You make the plans and PLAN will accompany you – the shower curtain rail sets offer possibilities for every eventuality. One of many examples for ideal usage: The wall fixing with cover plate can be adapted for different slanted ceilings from 10° to 80° inclination. The PLAN shower curtains are just simply nice – and to that they are anti-bacterial, fungicidal, shower tight and anti-static. A special PLAN shower curtain for bathrooms which underlie strict fire protection requirements is also available – “highly inflammable”. In addition to that you can choose from different colours.

In the WC area it is plain to see that with PLAN, design and accessibility merge into an integrated unit: Uncompromising functionality with many intelligent details combine with ease into an autonomous, elegant aesthetic. The PLAN pivoted supporting rail for WC is also available as variation with an electronic remote controlled flush system (see picture above).

Thanks to the restricted mechanic the PLAN CARE foldable support grab bar smoothly folds downwards. The WC back rest is hung into the wall rail and stands in a stable upright position by means of a wall distance spacer.

CLEAR LANGUAGE OF FORM

The PLAN INTEGRAL wall integration modules for wash-basin and WC are extremely well-suited for heavily frequented public sanitary facilities. Not only do they convince through their advantages such as easy cleaning, sturdiness and easy refilling, but they also come in an elegantly discreet design.

IXMO

LESS CAN DO
MORE

MINIMALISM IN THE SHOWER

With the new member of the IXMO family, the motto “less can do more” has never been so true. IXMO SOLO is truly a functional wonder: The impressive thing about this little module is its intelligent combination of innovative technology and minimalist design.

The result is a fitting that uniquely combines a single-lever mixer and hose connection. Minimum installation work, maximum convenience – because only IXMO SOLO and no further water-conducting elements is all that is required for a complete shower solution.

The IXMO SOLO product design is so consistent and small that a picture of perfection is produced in every shower. And with the round or rectangular decor disc options, IXMO SOLO also perfectly matches all other KEUCO lines.

WATER WILL FIND ITS WAY

For planners and architects, the IXMO concept isn't just about minimalist design, it is especially about maximum design freedom. Because, with the existing IXMO components and the new IXMO SOLO single-lever mixer, different installation types can now be impressively realised for the private household, the multi-family unit or the hotel branch.

The **one-way installation** with IXMO SOLO reduces the installation work to one water-conducting element on the wall.

For the **two-way solution** with two outlets, just two proven IXMO modules are required on the wall.

For the **three-way installation**, only two elements are needed on the wall, thanks to the 3-way stop and diverter valve.

IXMO

COMPRESSED FUNCTIONS: 3 BECOME 1

The central concept behind the IXMO fittings for the shower is the concentration of functionality. An IXMO single-lever mixer or thermostat is always combined with multifunctional IXMO elements which, in addition to connections for one, two or three water channels, also compactly unite other functions such as a hose connection, hand shower bracket, stop cock, or selector. This allows the number of products on the wall to be reduced, and enhances the appearance at the same time. Since the individual fitting units can be freely positioned, IXMO offers a high standard of design freedom.

With the IXMO fittings for the shower, KEUCO once again demonstrates its high standard of innovation in design and technology.

A QUESTION OF COMBINATION

Design for multiple styles: Another special benefit offered by IXMO bath fittings is the formal lightness and the clear, geometric contours. They integrate well in a diverse array of furnishing styles. Thanks to the multifunctional features of the modules, IXMO celebrates a fusion between design and function, pointing the way to the future.

IXMO

IXMO GOES WASHBASIN

If it works impressively in the shower, it will be perfect for the washbasin, too. As such, we have now transferred the IXMO principle to an integrated washbasin fitting. When the wall spout and the single-lever mixer are combined in only one fitting element, as shown here, planning freedom benefits. The in-wall fitting comes with either a round or square decor disc and lends a luxurious, tidy feel to the wash area.

Minimal also aptly describes the installation work involved for all IXMO modules. HVAC pros only need to install one in-wall base structure. With the clever depth-compensation feature, the already shallow installation depth of the washbasin fitting can be flexibly varied anywhere from 70 to 100 mm. Maximum installation intelligence.

IXMO fittings are also available with chrome-plated, stainless steel or aluminium finishes.

ELEGANCE

VARIETY AS PRINCIPLE

THE DESIGN CLASSIC WITH PROFILE

Initially begun in 1967 purely as line of accessories, ELEGANCE established itself internationally over the decades and became the biggest selling bathroom series in the world. Today, ELEGANCE offers a comprehensive assortment with a wide array of models. The demand for ELEGANCE products still remains steady today thanks among other things to its timelessly modern design.

.molldesign
Reiner Moll

EFFUSIVE FLEXIBILITY

Different ways of combining à la carte: ELEGANCE shower solutions can be flexibly matched to every room constellation and of course to suit personal preferences. Hand shower or head shower, on-wall or in-wall – the choice is yours.

Right angles and straight lines, coupled with vibrant curves. As in the entire collection, ELEGANCE fittings convince by their striking, classic-modern design.

THOUGHT-OUT ERGONOMICS

Das ELEGANCE rail system can be combined as needed with the existing bathroom furnishings.

ELEGANCE stands for longevity in every sense. This range has had a timeless beauty for centuries which is consequently reflected in the matching accessories.

SHOWER EXPERIENCE FOR THE SENSES

SOOTHING AND REFRESHING SHOWERS

The element of water has always fascinated people. It is particularly fascinating when it takes the form of a waterfall. The aesthetic meTime_spa dousing shower can bring this experience into your own bathroom. The feeling of taking a shower under a waterfall – of allowing the primal power of water act on you – is relaxing for your mind and soul, too. The water treatments inspired by Sebastian Kneipp are perfect for allowing the soothing and relaying effects of water fall on your skin and muscles. With the SPA hose, you can experience the health-promoting alternating hot and cold showers in the privacy of your own bathroom at home and at your leisure.

Shower curtain PLAN 60°
100% Trevira, 80 g/m², vertical seams,
reinforced stainless steel eyelets,
distance between the eyelets approx. 20 cm,
roll hem stainless steel weighted, 50 g per metre,
shower-proof, fungicidal, anti-bacterial, anti-static,
washable at 60 °C, shrinkage rate 1-2%,
tested for harmful substances according to
OEKO-Tex Standard 100
Colour: white
Full length: 1800, 2000 mm
Width: 1400, 2000, 3000 mm

14943 / 14944
Shower curtain PLAN Flame CS*
highly flame resistant according to DIN 4102/B1
100% Trevira, 80 g/m², shower-proof, fungicidal,
anti-bacterial, anti-static, washable at 30 °C,
can be disinfected at 60 °C (shrinkage rate 1-2%),
ironing possible (shrinkage 1-3%), tested for harmful
substances according to OEKO-Tex Standard 100
Colour: off-white
Full length: 1800, 2000 mm
Width: 1400, 2000, 3000 mm

14946 / 14947 / 34948
Shower curtain PLAN maxx*
100% polyester, 75 g/m², shower-proof, fungicidal,
anti-bacterial, washable at 30 °C
(Shrinkage rate 3%), ironing possible
(shrinkage 1-3%), tested for harmful substances
according to OEKO-Tex Standard 100
Colour: white
Full length: 670, 1800, 2000 mm
Width: 1400, 1800, 2000, 3000 mm

14945
Shower curtain PLAN*
all sizes are custom made.
Please specify: material, colour,
full length and width

***Notes on production characteristics:**
Vertical seams, reinforced stainless steel eyelets,
distance between the eyelets approx. 20 cm,
roll hem stainless steel weighted, 50 g per metre,
complete with curtain rings, white.

Notes on sizes: The sizes indicated are the sizes
of the finished curtain. To prevent the curtain from
touching the ground we recommend a distance from
curtain to floor of approx. 30 mm. Distance between
the middle of the curtain rod and the upper edge of
the curtain approx. 40 mm. The width of the curtain
should be approx. 1.3 to 1.5 times the length of the
shower curtain rod.

 suitable for rough part no. 59970 (Flexx Boxx) (Flexx Boxx to be ordered separately)

51686/51689
Head shower with ceiling outlet DN 15
 Ø 180 mm, with shower head rail, restricted flow rate 15 l/min.
 Projection: 100, 300 mm

51686/51688
Overhead shower with wall outlet DN 15
 Ø 180 mm, with shower head rail, restricted flow rate 15 l/min.
 Projection: 300, 450 mm

51680
Hand shower
 with anti limescale device
 Functions:
 – normal jet
 – soft jet

54995
Shower hose DN 15
 both ends fitted with conical nut and twist-protection
 1250, 1600, 2000 mm

31606
Angle bar 90°
for use as shower rail
complete with shower bracket
usable as shower rail on left or right
Dimensions (w x h): 400 x 1100 mm

59991
Wall bracket for hand shower
for shower hoses with conical nuts,
with adjustable tilt angle 20-65°
Projection: 97 mm

54991
Wall bracket for hand shower
for shower hoses with conical nuts

31614
Rail system
complete with shower bracket
shower rail flexible positioning of
sliding rail prior to final installation
Dimensions (w x h):
600 x 1100 mm
800 x 1100 mm
1000 x 1100 mm

54941
Exposed part for angle valve DN 15/DN 20
complete with: handle, sleeve, rosette
and adjustable extension
(Angle valve DN 15/DN 20
to be ordered separately)

54947
Wall outlet for shower hose DN 15
suitable for all concealed fittings

51685
Hand shower sliding rail
consisting of:
– wall rail, 900 mm
– sliding bracket for shower head
– height adjustment via handle,
tilting angle adjustable
– spacer disc (5 mm)

51687
Hand shower sliding rail set
consisting of:
– rail with sliding bracket, 900 mm
– height adjustment via handle,
tilting angle adjustable
– spacer disc (5 mm)
– hand shower with normal jet and soft jet
– shower hose, 1600 mm

11601
Towel rail
400, 600, 800, 1000 mm

31606
Angle bar 90°
optionally left and right version
Dimensions (w x h):
300 x 600 mm
400 x 800 mm

11618/11620
Towel holder
2-arms, swivelling
Projection: 340, 450 mm

11607
Grab bar/Towel rail (USA)
300 mm

11610
Shelf
with crystal or crystalline glass shelf
Dimensions (w x h x d):
360 x 131 x 10 mm
600 x 131 x 10 mm
700 x 131 x 10 mm
950 x 131 x 10 mm

11621
Towel ring
Projection: 95 mm

31601
Grab bar/Towel rail (USA)
400, 500, 600, 700, 800, 900, 1000, 1100 mm

56161
Shower and bathtub board with thermostat battery DN20
 Finish set for the regulation of 1 user handles as desired left or right
 complete with:
 – Mounting frame
 – Panel made of ESG glass, with frame and one shelf made of aluminium
 – Knob for thermostat with safety cut-off at 38 °C
 – Shut-off handle
 Dimensions (w x h): 800 x 200 mm
 (essential for installation: rough part article no. 56161 000071 to be ordered separately)

56164
Shower board with thermostat battery DN20
 Finish set for the regulation of 1 user handles right,
 complete with:
 – Mounting frame
 – Panel made of ESG glass, with frame and three shelves made of aluminium
 – Knob for thermostat with safety cut-off at 38 °C
 – Shut-off handle
 Dimensions (w x h): 420 x 950 mm
 (essential for installation: rough part article no. 56161 000071 to be ordered separately)

56162
Shower and bathtub board with thermostat battery DN20
 Finish set for the regulation of 2 users handles as desired left or right with/without safety device
 complete with:
 – Mounting frame
 – Panel made of ESG glass, with frame and one shelf made of aluminium
 – Knob for thermostat with safety cut-off at 38 °C
 – Shut-off and adjustment handle
 Dimensions (w x h): 800 x 200 mm
 (essential for installation: rough part article no. 56162 000072 to be ordered separately)

56165
Shower board with thermostat battery DN20
 Finish set for the regulation of 2 users handles right,
 complete with:
 – Mounting frame
 – Panel made of ESG glass, with frame and three shelves made of aluminium
 – Knob for thermostat with safety cut-off at 38 °C
 – Shut-off and adjustment handle
 Dimensions (w x h): 420 x 950 mm
 (essential for installation: rough part article no. 56162 000072 to be ordered separately)

56163
Shower and bathtub board with thermostat battery DN20
 Finish set for the regulation of 3 users handles as desired left or right
 complete with:
 – Mounting frame
 – Panel made of ESG glass, with frame and one shelf made of aluminium
 – Knob for thermostat with safety cut-off at 38 °C
 – Shut-off handle
 – Adjustment grip
 Dimensions (w x h): 800 x 200 mm
 (essential for installation: rough part article no. 56163 000073 to be ordered separately)

56166
Shower board with thermostat battery DN20
 Finish set for the regulation of 3 users handles right,
 complete with:
 – Mounting frame
 – Panel made of ESG glass, with frame and three shelves made of aluminium
 – Knob for thermostat with safety cut-off at 38 °C
 – Shut-off handle
 – Adjustment grip
 Dimensions (w x h): 420 x 950 mm
 (essential for installation: rough part article no. 56163 000073 to be ordered separately)
