

## PURE ELEGANCE FOR GUESTS

The holistic furnishing concept of KEUCO PLAN now offers sensual functionality even in the smallest of bathrooms – the cloakroom. Developed by Tesseraux+Partner design agency from Potsdam, the small-scale washbasin ensemble comprising of a ceramic washbasin, high quality vanity unit, and high LED light mirror impresses with its aesthetic unity – and is perfect for small and narrow rooms.

Coordinated in width and colour, the washbasin ensemble forms a single harmonious unit. Available in five colours each piece of furniture is convincing with its straight yet unobtrusive design. For a stylish upgrade of the narrow vanity unit, there is also a modern version with legs in the same colour. Whilst the LED light mirrors are strong in presence, they exude an almost cautious calm. And with their luxurious surface finishes, they exactly match the colour of the chosen furniture.

**But PLAN is not just available for the cloakroom.**
