KEUCO

Tesseraux + Partner – Dominik Tesseraux

“ROYAL 60 is a pure and architectural design. The emphasis of the furniture lies on its thin side panels which gives the collection a sense of purity. The washbasin has a classic shape and offers generous storage space around it – an ideal platform for personal belongings”.

Tesseraux + Partner designed ROYAL 60

ARCHITECTURALLY ORIENTATED INTERIOR DESIGN

Clear, linear and minimalist – that is the new concept of KEUCO's ROYAL 60 collection. The sleek design, so full of lightness, comes to the fore thanks to its restraint – for your own personal vision of modern bathroom design. Its formal reduction creates calmness and accentuates the geometry of the room. This design relies on understatement that is beyond time and fashion trends. ROYAL 60 – the bathroom concept for minimalist aesthetes.

AESTHETIC SOLUTIONS WITH AN INDIVIDUAL CHARACTER

WHY NOT SPREAD YOURSELF OUT? WHY NOT COMBINE?

A classic rectangular shape, the ceramic washbasin stands out in particular thanks to its precision, high-quality workmanship and flat design. With generous storage space around the washbasin in three options in dimensions of 700, 1050 and 1400 mm, it offers individual and creative planning potential for bathrooms of all sizes. Together with the vanity unit, which, with its thin side panels takes up the filigree design style of the washbasin, this ensemble is a special gem in every bathroom. When combined with the fittings and accessories of EDITION 11 and EDITION 300 series, a large and diverse range of possibilities in bathroom architecture open up.

A DIFFERENT TYPE OF INTERIOR DESIGN

The inside of the vanity unit also has an impressive amount of storage space and a flexible system of dividers. The superior quality solid beech wood boxes inside the pull-out guarantee the best of order. The boxes prevent items stored inside from falling when opening or closing the drawer and can be adjusted or removed depending on personal needs; this gives the possibility of putting them where you need your bathroom utensils.

CRAFTSMANSHIP MEETS DESIGN

At a first glance, the ROYAL 60 bathroom range exudes superior quality. The facileness of the design is underlined by the thin side panels of the furniture. At second glance, one's gaze falls on the high precision of the workmanship, in every detail. Thus the perfectly straight handle of the furniture only reveals its little secret when used: An ergonomic recessed grip underneath. Particularly high quality with subtle charisma – is evident in the surfaces of the wide range of furniture comprising of a tall unit, middle unit and base unit. In the fashionable colour of cashmere or in classic colours such as white or anthracite, the superior decorative surfaces range from velvety matte to glossy, offering the right solution for every style or taste.

ROYAL 60

CHARISMATIC GLIMMERS

The architecturally orientated collection also offers a wide selection of products relating to light and mirrors. Besides attractive illuminated mirrors and mirror cabinets for plenty of storage space ROYAL 60 provides a further highlight: A built-in mirror cabinet with side lighting with clear and linear design. Installed concise with the wall, it is that "certain something" of upscale interior design. Of course the interior of the cabinet is equipped with the typical KEUCO comfort: Complete interior rear wall mirrored, sockets and many more features.
