NIFTY SHADE OF GREY

With the trend for anthracite grey windows and bi-folding doors, Kestrel is now offering installers a smooth solution in trims.

The manufacturer of fascias, soffits and cladding is launching a Smooth Anthracite Grey range of window trims offering a strong and long-lasting trims that works with aluminium as well as PVC-UE.

These new trims are smooth rather than grained but we have gone for a foiled finish to ensure greater colour longevity.

As with other Kestrel foiled products, the new Smooth Anthracite Grey window trim range comes with a 10-year manufacturer's guarantee.
