

## A Range of easy to use Conex Push-Fit fittings

### Features and Benefits:

- Suitable for hot and cold drinking water, heating and chilled water systems.
- Dezincification resistant (DZR) body in natural brass finish.
- Only two internal components: High grade EPDM O-Ring and Stainless Steel grab ring.
- Precision machined body with inbuilt tube stabiliser.
- Connects multiple tubes: copper, carbon steel, stainless steel, PB, PE-X.
- Professional tool for demounting, fittings can then be reused.
- Unique grab ring ensures the fitting is firmly orientated but not fixed, allowing turning for system alignment.
- Patented design.
- Maintains electrical continuity on metallic pipe systems.
- Stylish slim-line design for tight corners and exposed pipework.
- Fast and easy to install.
- Available in sizes 10, 12, 15, 18, 22 and 28mm.
- Flame free installation.
- One fitting for many tubes reduces toolbox weight and inventory costs.
- Conforms to normal operating parameters for metallic tubes: maximum working pressure of 16 bar at 30°C and 6 bar 95°C.
- Fitting can be recycled at end of life.
- 25 years guarantee.
