# With the **DallFlex** system we have set a new benchmark

*1 drain body,  
9 shower channels, more than 100 possible variations*

At the start of the Millenium Dallmer rocked the bathroom drainage world by showing a shower waste could be beautiful as well as functional. It was called 'Design'. 7 years later, CeraLine showed bathroom designers and their discerning clients that a channel need not look 'industrial' to drain a shower effectively.

And now, the DallFlex system has once again caught the mood of the moment with another cutting edge creation - or, rather, 9 different creations.

Two central points have since changed the bathroom: firstly, DallFlex has made cleaning the shower channel very simple – a major plus for hygiene and comfort. The channel is simply wiped clean and any dirt

in the fully removable trap insert can be quickly rinsed off without any fuss. And secondly, DallFlex has pioneered the option of a single platform able to accommodate a wide range of shower channels, so that options can be tailored to individual taste and budget.

No other drainage system currently offers the same level of versatility and flexibility.

So let your imagination run wild and take a closer look at the many advantages our system offers. And should you have any further queries, please feel free to call us on +49 2932 96160 or our British specialist team on +44 1787 248244.

# The **DallFlex** system at a glance

DIN 18534  
compliant

## Key features of the DallFlex system family:

- Very simple cleaning for optimum hygiene
- Functional and elegant, thanks to customisable precision-fit option
- Reliable waterproofing with tool-free click-in DallFlex sealing sleeve
- Subtle product details, such as subsequent fine-positioning in all horizontal directions
- Multi-award-winning design

**CeraNiveau**

**CeraFrame Individual**

# DallFlex drain body

## Key features of the DallFlex drain body:

- Installation in the screed, can be freely positioned against the wall or in the floor, depending on preference
- Universal drain body with removable trap insert and unique click-in sealing sleeve
- For installation with CeraFloor Select, CeraFloor Individual, CeraFloor Pure, CeraWall Select, CeraWall Individual, CeraWall Pure, Zentrix, CeraNiveau and CeraFrame Individual shower channels

Flexible sealing sleeve for bonded waterproofing as per DIN 18534

Asymmetrical interchangeable frame for adaptation to various wall covering thicknesses from 12 – 32 mm, even after installation in the screed

Easy-to-remove trap insert for quick cleaning; easy access to wastewater pipe

Tool-free positioning of drain outlet on three sides, moving ball joint for stress-free connection to the wastewater pipe

Mounting stands for acoustic decoupling and height adjustment

Also available with vertical outlet

## Technical information

Build-in heights: 45 mm (vertical), 65 mm or 90 mm  
Drainage rates: 0.5 l/s – 2.35 l/s \*  
Certified sound insulation in accordance with DIN 4109 and VDI 4100

\* depending on the drain version and connection type

**CeraFloor Select.** The exclusive premium solid stainless steel shower channel for floor and wall alike

# CeraFloor Select

## CeraFloor Select, the innovation

Modern bathrooms can be tailored to the individual demands and aspirations of the user. These days, open and generously sized level-access showers are considered the epitome of luxury and good taste, which is why we designed the CeraFloor Select shower channel, a system that develops its full effect over the surface area.

or

DallFlex Wall shower underlay

**CeraWall Select.** The accented premium solid stainless steel shower channel for the wall

CeraWall Select, shown in matt PVD-coated brass

# CeraWall Select

## CeraWall Select brings out the design of the bathroom

CeraWall Select visually accentuates the integrated drainage in level-access showers. Nothing is hidden away; even the functionality is emphasised through the use of high-quality materials. The shower area is defined by a sharp edge which also creates a visual link to the wall. Water is drained away reliably via an integral cross slope.

No other drainage system is as easy to clean.  
Look at the unique advantages:

- 1 The trap insert can be removed completely for easy and thorough cleaning
- 2 Easy and direct access to the drain area
- 3 No concealed dirt-traps thanks to the flush-mount and exposed water path

The benefits of the DallFlex system,  
demonstrated here using CeraFloor Select

# Drain body DallFlex

## DALLMER drain body DallFlex

conforming to DIN EN 1253

for installation with shower channels CeraFloor, CeraWall, CeraFrame, Zentrix and CeraNiveau.

Outlet DN 50 or BS 2" horizontal, can be positioned on three sides without tools, with ball-joint, adjustable 0 – 15 degrees

### SPECIFICATION

- integrated anchors for extra grip in the screed
- flexible sealing collar for secure bonding of under-tile waterproofing (conforming to DIN 18534)
- accessories for sound insulated installation
- sound absorbing and height adjustable levelling legs
- removable trap insert, 50 mm water seal (conforming to DIN EN 1253)
- temporary blanking plate

### MATERIAL

polypropylene

# Shower underlay DallFlex Floor

## DALLMER shower underlay DallFlex Floor

With drain point positioned near the wall for installation with CeraFloor shower channels.  
Outlet DN 50 horizontal, can be positioned on three sides without tools,  
with ball-joint, adjustable 0 – 15 degrees

### SPECIFICATION

- DallFlex drain body system as per DIN EN 1253
- flexible sealing collar for secure bonding of under-tile waterproofing (conforming to DIN 18534)
- removable trap insert, 50 mm water seal (conforming to DIN EN 1253)
- temporary blanking plate
- suitable for wheelchairs if tile size > 5 x 5 cm

### MATERIAL

expanded polystyrene (EPS), top side reinforced with glass fibre fabric and lined with waterproof fleece; drain body made of highly impact-resistant polypropylene

#### FLOW RATE TESTED TO DIN EN 1253 (with 10/20 mm water over cover plate)

	Required	Dallmer

with ball-joint, adjustable 0 – 15 degrees

### SPECIFICATION

- DallFlex drain body system as per DIN EN 1253
- flexible sealing collar for secure bonding of under-tile waterproofing (conforming to DIN 18534)
- removable trap insert, 50 mm water seal (conforming to DIN EN 1253)
- temporary blanking plate
- suitable for wheelchairs if tile size > 5 x 5 cm

### MATERIAL

expanded polystyrene (EPS), top side reinforced with glass fibre fabric and lined with waterproof fleece; drain body made of highly impact-resistant polypropylene

FLOW RATE TESTED TO DIN EN 1253  
(with 10/20 mm water over cover plate)

	Required	Dallmer
DN 50	0,8 l/s	0,74/0,8 l/s

# Shower underlay DallFlex Wall

## DALLMER sound-insulating shower underlay DallFlex Wall

With drain point positioned against the wall for installation with CeraWall and CeraFloor shower channels.

If installed as per test report, suitable to meet increased sound insulation requirements in accordance with DIN 4109 and VDI 4100.

Outlet DN 50 horizontal, can be positioned on three sides without tools, with ball-joint, adjustable 0 – 15 degrees

### SPECIFICATION

- DallFlex drain body system as per DIN EN 1253
- flexible sealing collar for secure bonding of under-tile waterproofing (conforming to DIN 18534)
- removable trap insert, 50 mm water seal (conforming to DIN EN 1253)
- temporary blanking plate
- suitable for wheelchairs if tile size > 5 x 5 cm

### MATERIAL

expanded polystyrene (EPS), top side reinforced with glass fibre fabric and lined with waterproof fleece; drain body made of highly impact-resistant polypropylene, outlet polyethylene, weldable

#### FLOW RATE TESTED TO DIN EN 1253 (with 10/20 mm water over cover plate)

## DALLMER shower underlay DallFlex Wall Plan

With drain point positioned against the wall for installation with CeraWall and CeraFloor shower channels.

Outlet DN 40 horizontal, can be positioned on three sides without tools, with ball-joint, adjustable 0 – 15 degrees

### SPECIFICATION

- DallFlex Plan drain body system
- flexible sealing collar for secure bonding of under-tile waterproofing (conforming to DIN 18534)
- removable trap insert, 30 mm water seal (deviating to DIN EN 1253)
- temporary blanking plate
- suitable for wheelchairs if tile size > 5 x 5 cm

### MATERIAL

expanded polystyrene (EPS), top side reinforced with glass fibre fabric and lined with waterproof fleece; drain body made of highly impact-resistant polypropylene, outlet polyethylene, weldable

#### FLOW RATE TESTED TO DIN EN 1253 TAB. 3, (with 10/20 mm water over cover plate) conforming to DIN EN 274

# The Dallmer seal concept

*All Dallmer drainage systems for mounting bonded waterproofing comply with DIN 18534*

DIN 18534  
compliant

drain body DallFlex

For the DallFlex system family, we provide a general appraisal certificate on the compatibility with the liquid seals and sheet seals from a number of manufacturers

Dallmer has been a key driver of the technical development that is now reflected in the new standard. The required flange width for shower channels and floor drains of at least 50 mm, for example, has been a standard at Dallmer for years. This is just one of the reasons why the installation and waterproofing of Dallmer products is so straightforward.

Assembly of the DallFlex drain body retains the clear separation of tasks so valued by practitioners: the plumber installs the drain on the unfinished floor and connects it directly to the drainpipe. The sealing sleeve with the required width is then just

clipped into the housing prior to application of the bonded waterproofing.

If the drain is being fitted in an area with water exposure class W3-I – such as public in-line showers – the flange width and overlapping must meet more stringent requirements. Yet the DallFlex drains still comply with the standards as the width of the sealing sleeve around the drain is generally 100 mm.
