

THE CLARK-DRAIN D400 HINGED COVER

**QUICK, EASY AND
SAFE ACCESS
TO ROAD
SERVICES**

TODAY'S ROADS REQUIRE REGULAR CHECKING AND MAINTENANCE OF STRUCTURES AND UNDERGROUND SERVICES TO KEEP THE NETWORK SAFE, SERVICEABLE AND RELIABLE. MAKING THIS AS ROUTINE AS POSSIBLE CAN SAVE OPERATORS UNNECESSARY LOST TIME AND COST.

The Clark-Drain D400 hinged cover has been specifically developed to offer enhanced manual handling and health and safety benefits. The hinged design provides quick, easy and safe access to below ground utilities and complies with the requirements of Highways Agency HA104/09 (Low risk areas). Its D400 load transfer structure is Kitemark Certified to BS EN 124:1994, making it suitable for highways.

Made from ductile iron, the D400 hinged cover and frame provides significant benefits in terms of:

- Performance
- Frame rigidity
- Durability
- Stability
- Manual handling

THE CLARK-DRAIN D400 HINGED COVER

QUICK, EASY AND SAFE ACCESS TO ROAD SERVICES

Safe operation

Hinge design reduces the effort required to lift the covers and the risk of manual handling injuries

Integral hinge stop at 90° when in open position prevents accidental closing

Each cover opens to 105° for optimum access

Hinge is designed for easy cover removal when moved to the 90° position

Improved bedding performance

Offset cover design distributes the load away from the corners onto the side of the frame

Durable installation

Three point suspension for non-rock stability and quietness in busy traffic

Safe product supply

Banding locators provide stability when palletised

Exceeds the BS EN 124 loading requirement

D400 loading is Kitemark certified to 44 tonne test load.

Product code	Clear opening (mm)	Loading class	Overall size (mm)	Frame depth	Overall weight (kg)	Cover weight (kg)
CD 1660H KMD	675 x 675	D400	813 x 813	100	80	25

Available as a locking version
