

# DEVlink CC

The DEVlink CC (Central Controller) is the central brain in the DEVlink system, which includes several wireless DEVlink units installed around the building. The idea of the DEVlink System is to link together your heating system wirelessly and control it from one central point.

The DEVlink CC communicates wirelessly with all other DEVlink units in the installation. A single DEVlink CC can control up to 30 rooms and be connected up to totally 50 devices

- Central control of the entire house
- Minimise energy consumption
- Vacation mode
- Controlling of ON/OFF devices
- Weekly heating schedule
- Frost protection
- Personalized settings
- Touchscreen
- Wi-fi to connect to home network and remote access through the DEVlink App

Technical Specification	
Operation voltage:	15 V DC $\pm 10\%$
Standby power consumption	Max. 2 W
Screen	3.5" TFT colour w. touch
Ambient temperature	-10 to +40 °C
Storage temperature	-20 to +65 °C
Ball pressure test temperature	75 °C
Pollution degree	2 (domestic use)
Transmission frequency	868.42 MHz
Transmission range	Up to 30 m
Max. repeaters in a chain	3
Transmission power	Max. 1 mW
Software class	A
IP class	21
Dimensions	125 x 107 x 25 mm
Weight	179g

## Stock Code

140F1135

## Product Name

DEVlink CC
