

UTILITIES AND INFRASTRUCTURE NEW TEAMS

Saint-Gobain PAM UK has implemented a new Sector based external sales structure for its **Pressure Pipeline and Municipal Castings** product ranges.

The new structure will better align our resources with our business imperative of exceeding customer's expectations.

The responsibilities of each team will be as follows;

UTILITY TEAM

- Water Companies, their main contractors, consultants and logistic providers
- Water Pipeline Projects

INFRASTRUCTURE TEAM

- Local Authorities, their contractors and consultants
- Highway projects and other major non-water related infrastructure projects
- Distributor Partners

UTILITIES TEAM

Saint-Gobain PAM UK

With a long and proud UK heritage, Saint-Gobain PAM UK, part of the worldwide Saint-Gobain Group, is the market leader in the supply of innovative ductile and cast iron products to the water, construction and utilities industries. Products include:

- **Ductile iron water and sewer pipes, fittings, valves, couplings and adaptors**
- **Ductile iron access covers and gratings**
- **Cast iron soil and drainage and rainwater systems**

Saint-Gobain PAM UK is committed to sustainable and ethical development in all aspects of their business. Made from greater than 80% recycled material and 100% recyclable at the end of their long life, both ductile and cast iron provide a cost effective solution whilst protecting the environment.
