

Plumbing Coupling Displays

The Flexseal black plumbing couplings are a universal fit to any pipe material within their size range. Clearly labelled and barcoded, the product is an ideal emergency repair solution which the contractor can stock ready for when it's required.

The displays are ideal for counter tops or shelving and are designed to influence impulse purchases. Order two displays with fast moving products under one product code. Displays arrive to you made up with products in, meaning they can be displayed in branch immediately.

Features & Benefits

- Universal products (for any pipe material)
- Fast moving products
- Regular van filler
- Low cost purchase, high margin sale

For 32mm pipes

The display contains 38-38 black plumbing couplings (x18).

For 40mm pipes

The display contains 45-45 black plumbing couplings (x15).
