

For this purpose, **Schlüter®-KERDI-BOARD** offers the following properties:

- Even, impact resistant and rigid
- Waterproof and temperature resistant
- Functional bonded waterproofing assembly
- Vapour retardant
- Thermally insulating
- Fleece webbing for easy anchoring in thin-bed mortar
- Quick and easy to install
- Lightweight, easy to handle and transport
- Contains no cement or fibreglass
- Easy to handle
- Dust free and easy to cut (with a utility knife)
- Printed gridlines for precise cutting
- Suitable for use on any kind of background substrate
- Suitable for free standing partition walls, shelves, coverings and similar structures
- Preformed and sealed niches available

**Note:**

Many substrates encountered in new buildings and renovation projects are unsuitable for tile installation, especially in areas with high moisture. This can require comprehensive additional work and waterproofing measures.

**Schlüter®-KERDI-BOARD** makes it easy to create an instant substrate for tile installation over substrates as diverse as masonry, stud frame constructions of wood or metal and mixed/existing substrates in renovation projects.

Dimensions and packaging data of  
**Schlüter®-KERDI-BOARD**

Panel thickness	Packaging unit (PU)	Pallet content	Size 125 x 62.5 cm m² / pallet kg / panel	Size 260 x 62.5 cm m² / pallet kg / panel
5 mm	10 panels	14 PU 140 panels	109.20 0.64	226.80 1.34
9 mm	10 panels	8 PU 80 panels	62.40 0.77	129.60 1.60
12.5 mm	10 panels	6 PU 60 panels	46.80 0.79	97.20 1.65
19 mm	6 panels	7 PU 42 panels	32.76 0.94	68.04 1.95
28 mm	4 panels	7 PU 28 panels	21.84 1.20	45.36 2.50
38 mm	3 panels	7 PU 21 panels	16.38 1.44	34.02 3.00
50 mm	3 panels	5 PU 15 panels	11.70 1.75	24.30 3.65

**Schlüter®-KERDI-BOARD**

SUBSTRATE, STRUCTURAL PANEL,  
BONDED WATERPROOFING

PROFILE OF INNOVATION

## Schlüter®-KERDI-BOARD

### The universal substrate for tiles

#### Perfect Covering

No matter whether you work with mosaics or large format pavers, an absolutely level substrate with straight and precisely angled inside and outside corners is essential for a perfect tile covering...

... which tile installers can now create on their own, using **Schlüter®-KERDI-BOARD**.

Those who assume responsibility (and warranty) for the tile covering also have to be responsible for the substrate. Developers, architects, and designers have to keep this in mind when contracting the work.

- On green masonry or mixed substrates

- For vanities and shelving

- On stud frame structures

- A prefabricated shower niche

- ▲ Waterproof and temperature resistant
- ▲ Suitable for use on any kind of background
- ▲ Fleece webbing for anchoring in thin-bed mortar
- ▲ functional bonded waterproofing assembly

- ▲ Dust free and easy to install
- ▲ Printed gridlines for precise cutting
- ▲ Lightweight and easy to transport
- ▲ Easy to handle

- ▲ Even, impact resistant, and rigid
- ▲ Vapour retardant
- ▲ Thermally insulating
- ▲ Free of cement/fibreglass

- For partition walls

- For concealing pipes

- For panelling bathtub surrounds

- For creating curved wall surfaces
