

# THE PAVERS RANGE

**Project:** Hotel Grounds, Lyndhurst, Hampshire

**Client:** Lime Wood Hotel

**Products:** Chailey Multi Stock Paver

Hard landscaping can be enhanced with either contrasting or complementary clay pavers. Istock clay pavers are available in rigid and flexible formats. The range includes the first stock brick pavers that meet the requirements of Sustainable Urban Drainage Systems (SUDS).

At Limewood, the luxury hideaway hotel retreat in the New Forest, Hampshire, Chailey Multi Stock pavers sit perfectly around the ornamental ponds whilst providing a soothing contrast with the white weatherboarding of The Crescent Suites, further accentuating the traditional "New England" theme.
