Why choose Junckers Professional Hardwax oil over "normal" oil?

Junckers Professional Hardwax Oil dries faster than a "normal" oil. Not only do you save time as recoating can be done the same day, the product also offers better water-repellent properties, so spillages can be removed easily.

Another advantage is that Junckers Professional Hardwax Oil is scratch resistant and easier to repair than an oiled surface, as worn areas can be fixed without having to treat the entire floor.

Technical Data

Product: Hard wax and drying oil in solvents.

Package sizes: 2.5 and 5 litres.

Appearance: Light brown liquid. Dries up to a clear film.

Gloss level: Matt to Satin.

Coverage: 20-30 m² per litre.

Application tools: Stainless steel spatula, roller or brush. According to gloss a white or red pad for polishing.

Dilution: Delivered ready for use.

Drying time: Dry to touch approx. 4 hours at 20°C. Recoating approx. 6 hours at 20°C. Buffing approx. 16 hours at 20°C. Full cure after 6 days at 20°C.

Maintenance: Use Junckers Rustic Top Oil for refreshing the surface. For worn surfaces use Junckers Professional Hardwax Oil. Use Junckers Sylva Cleaner for daily cleaning and maintenance.

Product

Junckers Professional Hardwax Oil is a low odour, hard-wearing wax, suitable for sanded and untreated parquet floors, including most exotic wood floors.

The product gives light-coloured woods a light-gold appearance and is used for both priming and top finish.

Junckers Professional Hardwax Oil has several advantages:

Junckers Professional Hardwax Oil has excellent durability and resistance and is very suitable for floors, stairs and most wooden surfaces that are exposed to a high degree of wear.

The product can be used on all kinds of wooden floors, including floors treated with Junckers Rustic Oils and Junckers Soul+Collection oils which can be used to produce a wide range of colours and shades.
