LEADING ACCESS  
SOLUTIONS

**Bridging The Gap ...**

## **Access Ramps For PRM Persons with Reduced Mobility**

Portaramp manufacture a range of Portable Ramps designed to be stowed aboard trains, or located on station platforms. Manufactured In accordance with Directive 2008/57/EC of 17 June 2008 on the interoperability of the trans-European conventional rail system, amended by the Directive 2009/131/EC of 16 October 2009 and 2011/18/EU of 1 March 2011 and 2013/9/EU of 11 March 2013

Portaramp™ is recognised throughout the UK and Europe as a market leader for Rail Ramp solutions. We supply direct to all the UK Train Operating Companies, plus many Train Builders and Operators within Europe.

### **Manufacturing**

We specialise in the design and manufacture of lightweight portable ramps designed to give safe passage for both user and operator. Considerable investment and diversification over the recent years have seen the company's growth surpass all market trends. Today, Portaramp is a leading OEM to the Rail, Automotive and Build Sectors, designing and manufacturing tailor-made products to suit client's specific requirements. All manufacturing processes are carried out in house, from cutting, assembly, paint shop to final finish. An experienced and qualified team that always deliver a quality product which provides safety, durability and long lasting value.

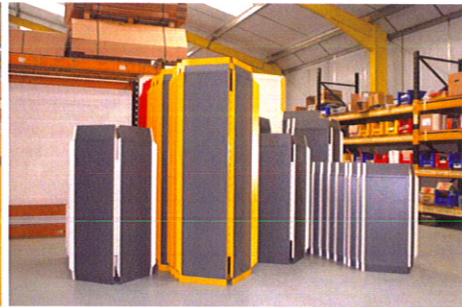

### **Design**

Incorporating the latest CAD software, we are continually looking at product development. We offer a range of possibilities, from initial concept through to design with full manufacturing detail

LEADING ACCESS  
SOLUTIONS

All products are manufactured from an Aluminium high-strength, lightweight composite panel with aluminium honeycomb core. Aluminium's high strength-to-weight ratio, corrosion resistance, thermal conductivity, and recyclability make it well-suited for applications in transportation industries. The light-weight ramp is easy to position, handle and transport. Features include carry handle, safety side up stands and a unique slip resistant surface. Quick and easy to deploy, perfect for wheelchair and scooters giving safe passage for both user and operator.

Contact us for more information on how we can provide you with a fully compliant and certificated product to meet the latest TSI PRM
