012663

VERTISLIDE

VertiSlide is a manual attack resistant, vertical sliding parcel transaction hatch. It is designed to enable transactions of parcels or large objects whilst allowing staff to keep the position closed off when not in use. Typical applications are Post Office, parcel depots, schools and local authorities.

MAIN FEATURES

- Allows transactions of parcels and or/large objects from non-secure to secure areas at the touch of a button
- Manually operated to different heights and locking positions
- The moving pane is spring assisted for ease of use

OPTIONAL

- Supply and installation or supply only are offered
- Bespoke colours and sizes can be offered depending on project requirements
