

TECHNICAL DATA SHEET – HPC 205 BC2 BRICK CLEANER

DESCRIPTION:

BC2 is a strong acidic liquid specifically formulated to remove heavy grime deposits from sandstone and brick.

ADVANTAGES:

Will effectively remove heavy grime deposits from sandstone and brick when used in conjunction with pressure washing.

Will cling to vertical surfaces allowing a longer dwell time.

SURFACE PREPARATION:

Pressure wash the area to be treated to prevent any unnecessary absorption.

It may be necessary to degrease the area prior to being cleaned with MC1- Multiclean.

APPLICATION:

Apply undiluted BC2 with a bristle brush to the affected area, starting at the top and working to natural breaks, cover the area evenly.

Allow to dwell 15-20 minutes before rinsing.

Pressure wash with pumps capable of 1500 psi @ 14 lpm, with a slow even movement keeping lance 15-20cm away from the surface until complete rinsing has been achieved.

COLOUR:

Straw coloured thixotropic liquid.

PACK SIZE:

Supplied in 5 litre jerry cans

COVERAGE RATES:

Should be applied at 2.4 m²/Litre (12m²/ 5 Litres).

STORAGE:

Store away from direct sunlight and sources of heat.
Protect from frost.

SHELF LIFE:

12 months (in original sealed container).

HEALTH & SAFETY:

Refer to MSDS
