

CONNECT + CONTROL

Pegler Yorkshire

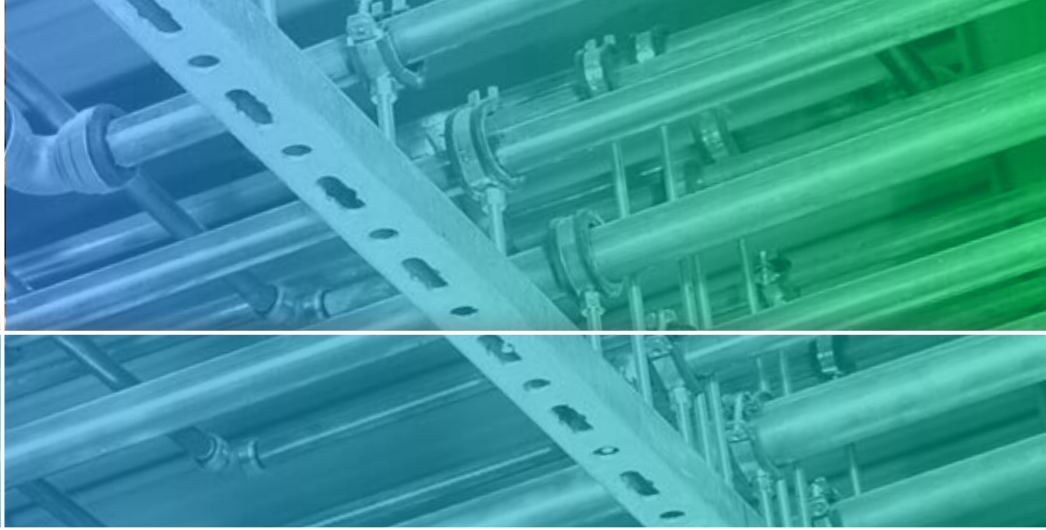

# GREATER THAN THE SUM OF OUR PARTS

INTEGRATED HEATING + PLUMBING SYSTEMS

Pegler Yorkshire

# COMBINED EXPERTISE, HELPING YOU CONNECT + CONTROL

Pegler Yorkshire brings together 100 years of manufacturing & innovation with an unrivalled wealth of experience and expertise, and the broadest range of products and services in the industry, to deliver optimum connect & control products, systems and support that are **greater than the sum of the parts.**

## FUNCTIONALITY + EFFICIENCY

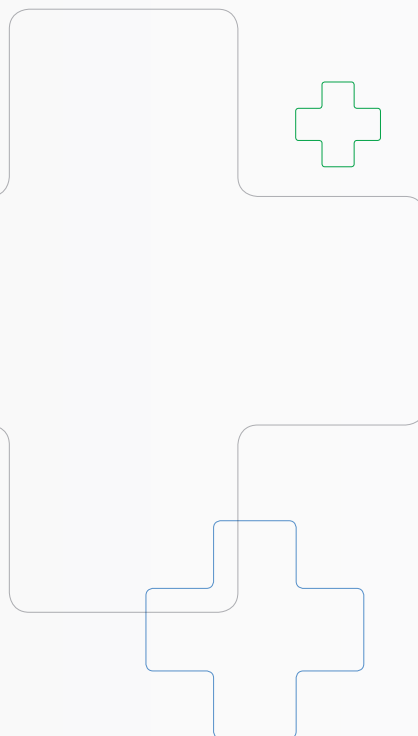

When downtime is wasted time, you need to be sure that the systems you install, and the companies that provide them, deliver what you need today, tomorrow and well into the future.

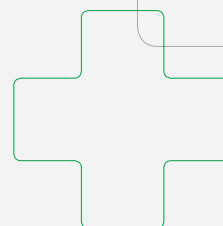

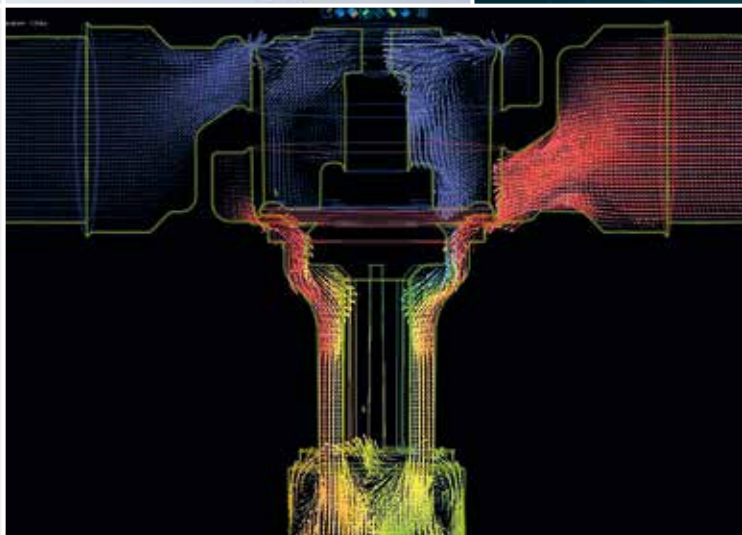

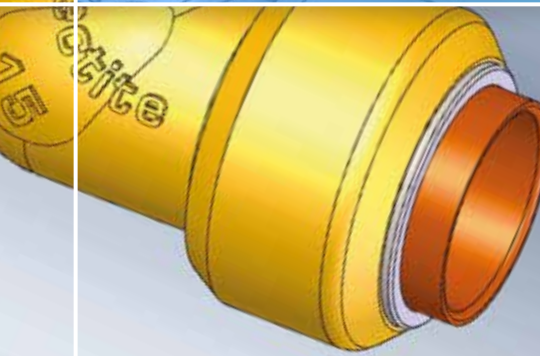

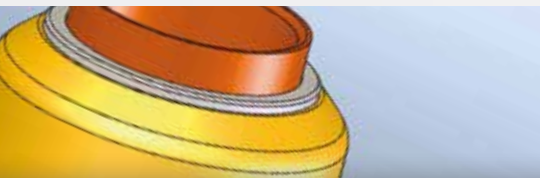

With a wealth of expertise and the broadest range of products and services in the market, Pegler Yorkshire provides the most appropriate solution to get your job done as seamlessly, efficiently and effectively as possible. Our collaborative approach and ongoing support means we're always connected with your needs, providing service assurances and system guarantees that minimise risk of failure and expensive repairs from day one and for the life of the building.

## PERFORMANCE + AESTHETICS

Rising energy costs and pressure to reduce emissions means building efficiency is fundamental now, but will become even more critical in the long term. With know-how derived from the many facets of our connect & control business, Pegler Yorkshire provide the perfect partner to help overcome your unique challenges and meet the most exacting standards in both performance and system aesthetics.

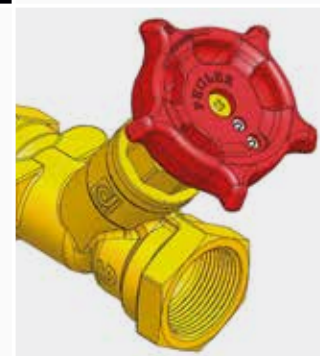

Our expertise and experience ensures on-going performance criteria are met and the resulting building is as easy, efficient and economical to operate as possible.

# OVERCOMING CHALLENGES BY INNOVATING SOLUTIONS

Pegler Yorkshire is behind some of the world's leading connect and control products and systems. Each product is designed to perform faultlessly in specific applications and environments and to solve a particular set of problems.

New challenges are continuously identified through close collaboration with specifiers, engineers and contractors. Our experts work seamlessly together to research, develop, manufacture, test and deliver to market optimised solutions – from a single, innovative product to a complete, engineered system.

## COMBINED EXPERTISE DELIVERS EXCELLENCE IN:

- + Research & Development
- + Product Innovation
- + Design & Manufacture
- + System Selection
- + Building Performance
- + Support & Advice
- + Health & Safety ISO9001
- + Environmental Governance ISO14001
- + Installation & Problem Solving
- + Training & Skills Sharing

# BEST SOLUTION BEST OUTCOME

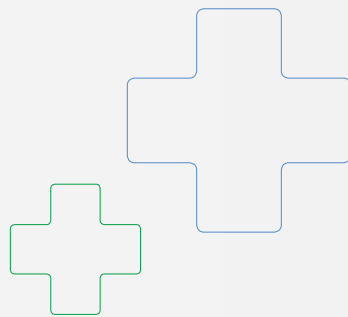

With a long and proven track record in the building industry, a hard-earned reputation for quality and reliability and the widest range of products and solutions on the market, Pegler Yorkshire inspires confidence in its customers.

Unlike single product manufacturers, Pegler Yorkshire can offer truly impartial, ongoing advice and support to the commercial, leisure, industrial heating, plumbing and ventilation markets on a worldwide scale. We work closely with customers across the world, helping them to find their best solution, select the right products, save on installed costs and produce more successful tenders on a diverse range and scale of projects.

## COMBINED EXPERTISE DELIVERS EXCELLENCE IN:

- + Help with Tendering
- + Technical Specification
- + Take Off Lists
- + System Selection
- + Installed Cost Savings
- + Value Engineering
- + Building Information Modelling (BIM) Support

PEGLER YORKSHIRE'S INSIGHT  
TOOL HELPS ME MAKE THE BEST  
DECISIONS RIGHT FROM THE  
START OF A PROJECT

## SIMPLE STEPS ENDLESS POSSIBILITIES

Pegler Yorkshire's bespoke Insight tool helps you select the most relevant, most effective 'connect solution' for your particular project to include pipes, valves and fittings. It provides useful recommendations, suggests the ideal solution drawing and also offers alternative options for an infinite variety of jobs. The user-friendly interface means you get quick, clear access to the full Pegler Yorkshire catalogue, enabling you to compare and contrast products in real time. By listing the pros and cons of each product – including drilling down to such details as fitting time, compatibility and price information – you can trust Insight to offer expert, unbiased and pragmatic advice to help specifiers make the best decisions from the start of the project.

### COMBINED EXPERTISE AT YOUR FINGERTIPS

- + User-friendly interface
- + Select the best 'connect solution' for you
- + Insight & recommendations
- + Compare and contrast in real-time product ranges, compatibility, fitting times and price

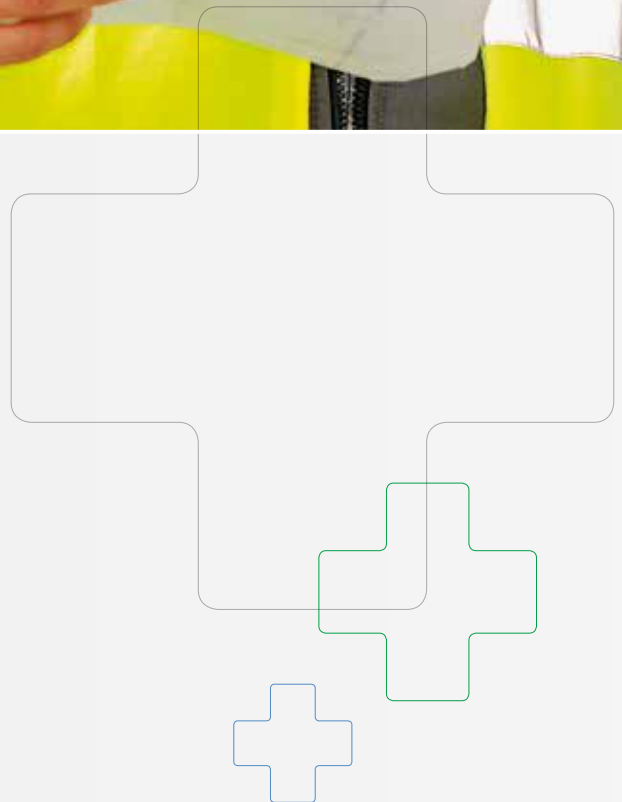

# COMBINED EXPERTISE DELIVERS INTEGRATED SYSTEMS

With a range covering everything from taps and mixers to commercial plumbing and valves, and a comprehensive choice of end connections providing maximum on-site flexibility, Pegler Yorkshire can be relied upon to provide you with exactly what you need day-to-day.

But it's our unique combination of product and service expertise that delivers a totally integrated approach to heating and plumbing systems that is greater than the sum of its component parts.

In every sector and in any application, our collective breadth of expertise and depth of support puts Pegler Yorkshire in a 'category of one'.

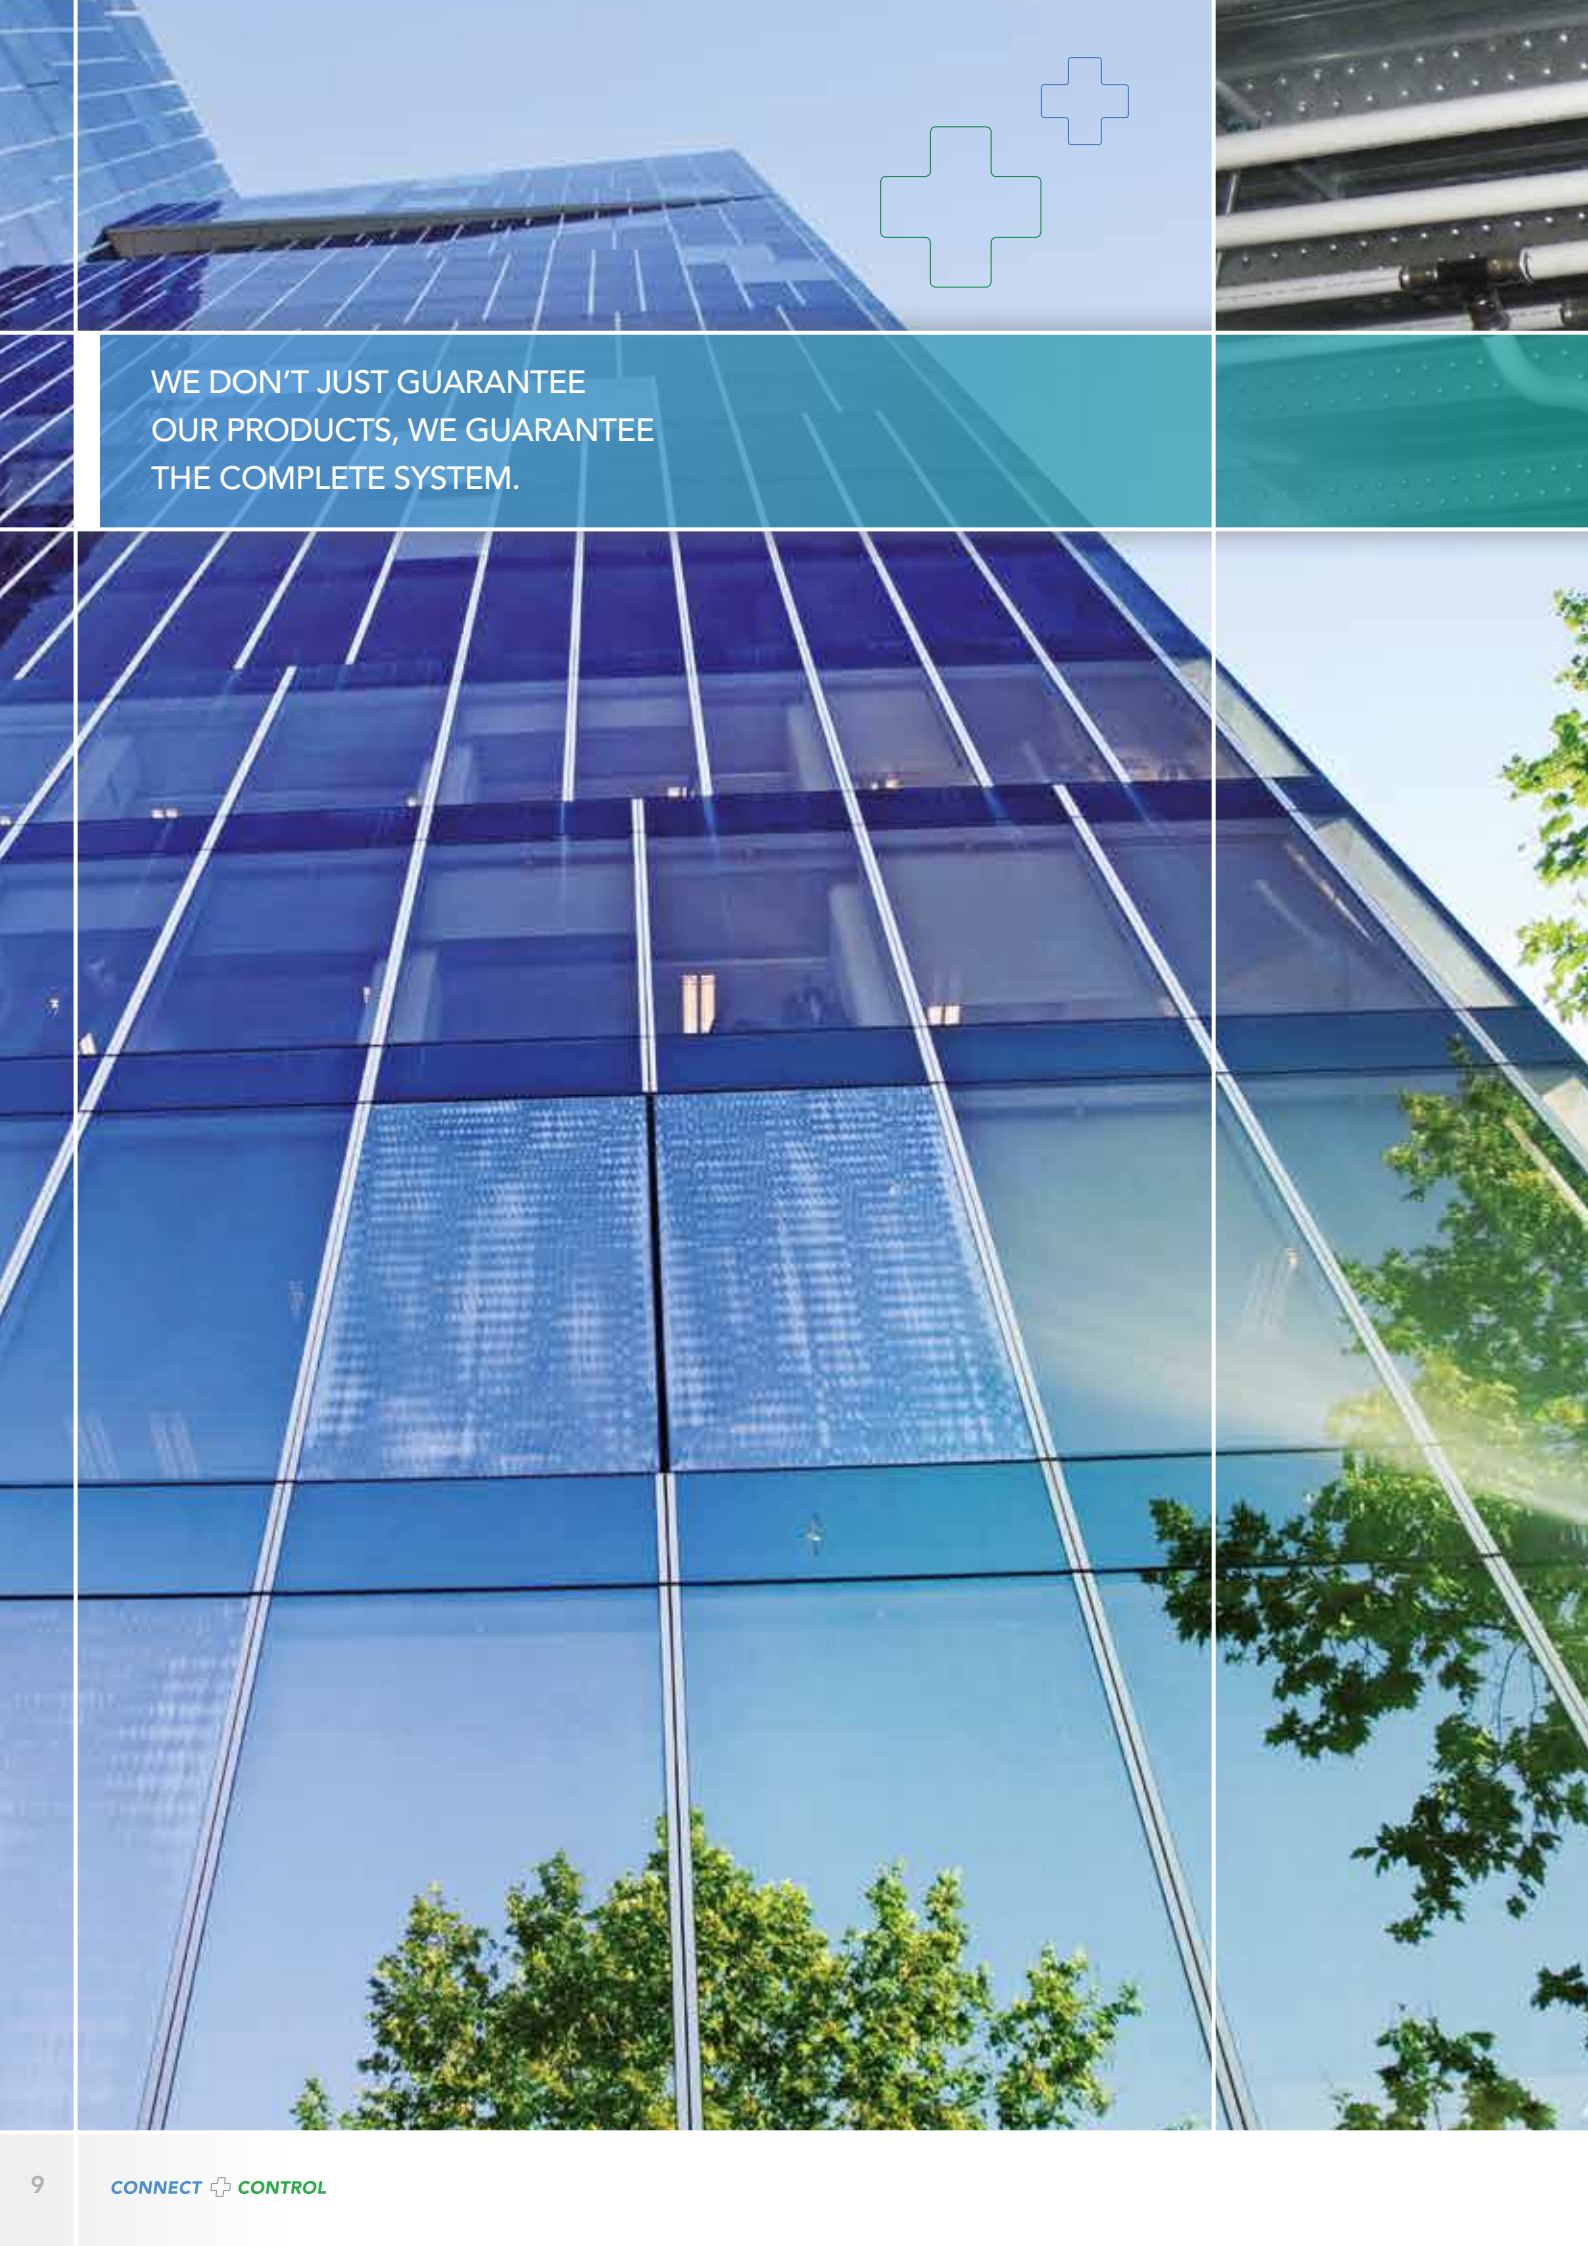

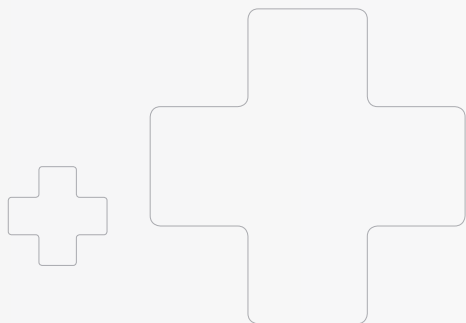

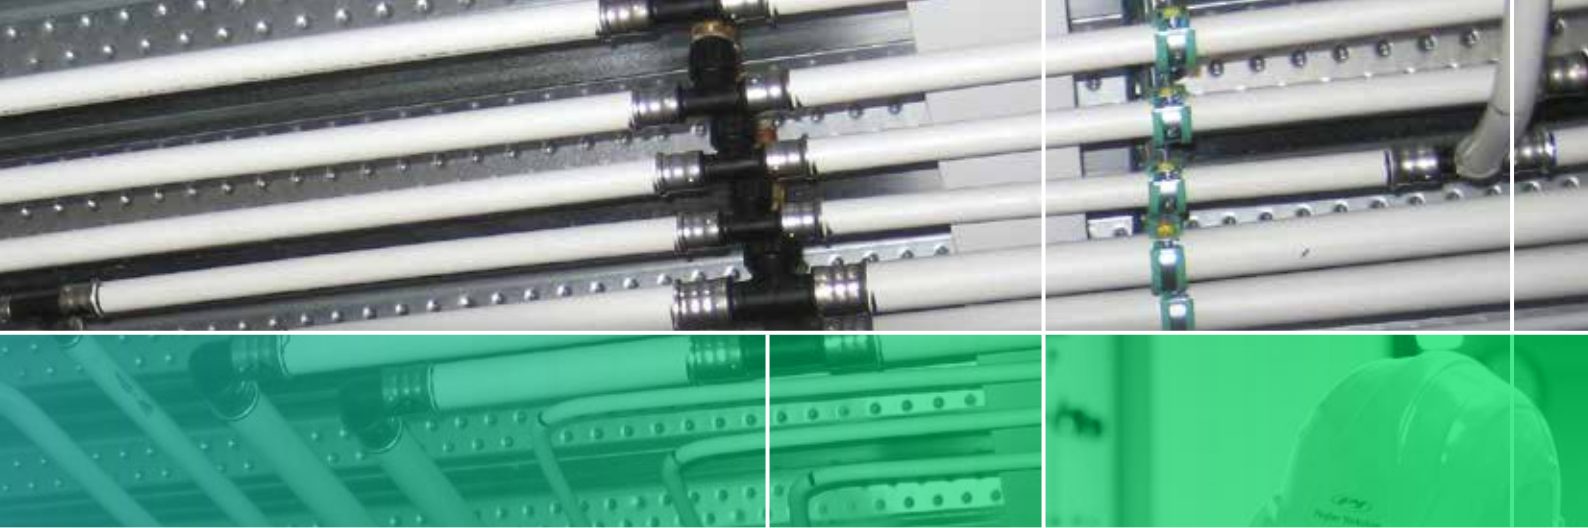

AN INTEGRATED SYSTEM OF ENDED VALVES, FITTINGS AND PIPE WORK  
IN PRESS OR PUSH CONNECTION IN COPPER, CARBON, STAINLESS OR  
MULTILAYER MATERIAL OFFERED WITHOUT PREJUDICE

WE DON'T JUST GUARANTEE  
OUR PRODUCTS, WE GUARANTEE  
THE COMPLETE SYSTEM.

# COMPLETE ASSURANCE & TOTAL RELIABILITY AS STANDARD

Because we design and oversee manufacture of our products ourselves, test them beyond normal parameters and prove they perform in the most demanding environments, we fully guarantee each and every individual product we sell.

But, as well as product guarantees, Pegler Yorkshire provides valuable warranties for complete integrated systems. Our services include commissioning, water treatment dosing and flushing and total system testing and sign-off.

We don't just guarantee our products, we guarantee the complete system.

Ultimately, the combined expertise of Pegler Yorkshire provides complete reassurance that the system will perform, and go on performing, exactly as intended.

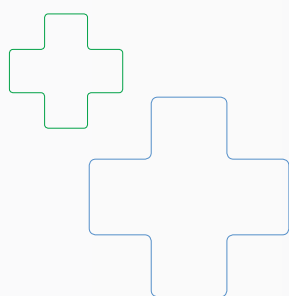

## COMBINED EXPERTISE DELIVERS GUARANTEED PERFORMANCE

- + Product Guarantees
- + Complete Integrated System Warranties
- + Commissioning
- + Water Treatment Dosing and Flushing
- + Total System Testing and Sign-off

# OPTIMISING BUILDING PERFORMANCE

Our combination of expertise, experience and innovation means we offer complete climate solutions that deliver ongoing performance benefits in domestic, industrial and commercial buildings – and across all components within the installed system.

With highly efficient heat and water distribution, communication-enabled measurement and control systems available with intelligent energy management and distribution systems, savings of up to 30% can be made on overall energy costs with reduced emissions and considerable reductions in installation time.

Pegler Yorkshire optimises building performance by delivering precision control, energy saving comfort, increased productivity, maximised efficiency and best value for those that make use of working and living environments every day.

## COMBINED EXPERTISE DELIVERS:

- + Precision Control
- + Maximised Efficiency
- + Greater Productivity
- + More Comfortable Environments
- + Intelligent Energy Management and Distribution
- + Energy Savings up to 30%

AS PRESSURE INCREASES TO SAVE ENERGY, CUT COSTS  
AND REDUCE WASTE, PEGLER YORKSHIRE IS CONTINUALLY  
DEVELOPING NEW WAYS TO ENSURE BUILDINGS PERFORM  
AT THEIR BEST NOW AND INTO THE FUTURE

# COMBINED EXPERTISE: TRIED, TESTED, TRUSTED.

Pegler Yorkshire's combined expertise has been proven to deliver operational and commercial benefits in some of the world's most prestigious buildings:

## THE SHARD LONDON BRIDGE QUARTER, LONDON, UNITED KINGDOM

Standing over 309m high with 72 occupiable floors and easily visible across the capital, The Shard is Europe's tallest building and London's newest landmark. Pegler Yorkshire worked to develop an ultra-efficient plumbing system for the Shangri-La Hotel at the heart of this impressive structure.

**110,000**

**45,265**  
PIPES (m)

**2,327**  
BALL VALVES

**3,974**  
VALVES (m)

**935**  
TAPS

## EMIRATES PALACE

ABU DHABI,  
UNITED ARAB EMIRATES

The Emirates Palace occupies 850,000m<sup>2</sup> of floor space. Underground parking allows housing for 2,500 vehicles. There are two swimming pools and spas. The hotel has its own marina and helipad. The Emirates Palace is the second most expensive hotel ever built.

## TITANIC BELFAST

TITANIC QUARTER, BELFAST,  
NORTHERN IRELAND

This ambitious 14,000 sq m structure has rapidly become a Belfast icon. Pegler Yorkshire played a central role in developing the fully integrated plumbing solution, manufacturing, supplying and fitting the entire system with XPress and Tectite fittings.
