

TOUPRELEX®

EXTERIOR FAST DRYING LIGHTWEIGHT FILLER

► LIGHT GREY COLOUR

- ► ONE COAT FILL
- ► VERY HARD: RICH IN RESIN
- ► NO STABILISING SOLUTION OR PVA REQUIRED*
- **►WILL NOT FLASH OR GRIN**

PURPOSE

Ready mixed lightweight filler, for exterior use, manual application.

SUBSTRATES

TOUPRELEX® applies on either painted or unpainted substrates:

- Gypsum plaster
- Cement, concrete, breeze blocks, bricks, stones
- Old painted surfaces
- Cellular concrete

OVERCOATING

TOUPRELEX® can be overcoated by all types of paints: mineral paints, waterproofing coatings and **TOUPRET** exterior fillers. Do not cover straight over with polyurethane or solvent-based epoxy paints.

Physical and technical **FEATURES**

TOUPRELEX®: is a filler in paste form, for exterior use, made of lightweight calcium carbonate loads and resins.

- Characterization (NFT 36-005): Family IV-4b
- Codification (EN 16-566): G₃S₂V₀W₀A₀C₀R₀
- Application thickness: no limitation
- Second coat: once the filler is dry
- Overcoat: 1 H average time (once completely dry)
- Colour: light grey
- Adhesion filler/substrate (EN 16-566): > 0.8 Mpa

USE AND STORAGE CONDITIONS

- Application tools: coating knife, trowel or blade.
- Tools cleaning: with water.
- Preservation: product guarranteed 6 months, from the original purchase invoice date as evidence, in its original sealed packaging and stored away from humidity.

PACKAGING

• Tub of 1 and 4 L.

*On hard, cohesive, clean, sound and dry substrates.

RECOMMENDATIONS and care for use

- Do not apply on polystyrene, nor on adhesive coverings.
- Do not apply under a temperature < 5 °C and > 35 °C nor under an hygrometry rate over 80%.
- Do not apply on warm/overheated surfaces nor under sun exposure.
- Do not cover straight over with polyurethane or solvent-based epoxy paints.

SUBSTRATES PREPARATION

- Substrates to be prepared as per the current trade practices.
- Substrates must be hard, cohesive, clean, sound and dry.

NORMATIVE DOCUMENTS to be referred to

- EN 16-566: Coating fillers for interior works and/or exterior.
- NFT 36-005: Characterization of paint products.
- French DTU 59.1 (NFP 74-201): Building paint works.
- French DTU 42.1 (NFP 84-404): façades renovation with polymer-based waterproofing coatings.

HEALTH AND SAFETY

- No danger tag.
- Safety data sheets available on www.toupret.co.uk

The data sheet information, especially the guidelines relevant to the application and final use of **TOUPRELEX®** are provided in good faith and result from the knowledge of the products and experience of **TOUPRET** company.

The product is required to be used as per the trade practices rules book and in reference to our recommendations.

The information provided is relevant to applications processed under a temperature of 20°C, a hygrometry rate of 50 % and on normal-absorbent substrates.

The times mentioned are only indicative and depend on the substrate, the coat thickness, and the ambient conditions.
