

Concrete Balcony Structures Sika Systems and Solutions

Concrete Balcony Structures

Typical Exposure Requirements

Weather: UV light, rain, frost, thermal variations

Atmospheric: Carbonation, pollution

Chemicals: De-icing salts, cleaners

Wear and tear: Pedestrian traffic – furniture

Safety: Slip resistance

Aesthetics: Colours/textures

Durability: Long term performance

Maintenance: Cleanability, spot repair

Cost: Value for money

Sika Specialities

Sika® FerroGard® Technology
Surface applied corrosion inhibitors to delay the onset of corrosion and to reduce the rate of any eventual corrosion.

Sika® EpoCem® Technology
Epoxy-Cement moisture barriers and anti-blistering mortar that allows secure application of Sikafloor® and Sikagard® coating systems.

Sika® CarboDur® Technology
Sika® CarboDur® composite strengthening systems. Lightweight, easy to apply, high strength and with minimal thickness.

Sika® Quality and Durability
Major projects repaired and protected with Sika Systems between 1977 and 1986 were inspected by leading independent consultants and testing institutes and their durability and performance assessed in 1997. (Copies available on request.)

Concrete Repair

Sikament®/ViscoCrete®, for high durability, self compacting repair concrete.
SikaTop®/Sika® MonoTop® hand applied or wet spray applied high performance repair mortars.
SikaQuick® universal repair mortar with corrosion inhibitor.

Concrete Protection

Sika® FerroGard®-903, surface applied impregnating corrosion inhibitor.
Sikagard®-700, surface impregnations to prevent water and de-icing salt penetration.
Sikagard®-500/600, coatings to prevent ingress of water and aggressive influences.

Deck Flooring

Sikafloor® EpoCem®, epoxy cement blended mortars that allow application of coatings on new or damp concrete surfaces.
Sikafloor®, epoxy and polyurethane floor coatings to protect and waterproof balconies and decks.

Tile Waterproofing

SikaBond®-T8, flexible and waterproofing adhesive for bonding tiles to old tiles, to concrete and wood.

Structural Strengthening

Sikadur®, structural epoxy resins for injection, bonding and strengthening.
Sika® CarboDur®, composite epoxy and carbon fibre plates for performance defined strengthening.
SikaWrap®, carbon, e-glass and hybrid fabrics with epoxy adhesives for all forms of strengthening.

Joint Sealing

Sikaflex® PRO-3WF, one-component polyurethane sealant for floor joints.
Sikaflex® PRO-2HP, one-component non-sag polyurethane sealant for high movement joints.

Steel Protection

Sika® Icosit® HB 6630, modified acrylic resin combination with active corrosion protection pigments for hand derusted steel and direct application to galvanised steel.
