MAJOR PROJECT SUPPORT

Introducing Major Project Support from Sika.

Sika is a global market leader producing quality solutions for the construction industry. Our success is based on understanding the demands of designing and delivering a large complex project and how to add value to the project.

At Sika we are able to offer a comprehensive range of solutions and services allowing our customers to work with one point of contact and one provider, ensuring guaranteed quality and consistency as well as efficiency through the whole project cycle.

To assist clients when dealing with such projects, Sika have introduced The Major Projects Team.

Due to our wide portfolio of products and systems, including industry leading brands we are able to offer unbiased advice and recommendations based on the most appropriate technical and commercially viable solution(s).

WHO WE ARE

Sika Limited and Sika Ireland Limited are part of the global Sika Group, specialising in the manufacture and supply of chemical based products. Sika have a leading position in the development and production of systems and products for bonding, sealing, damping, reinforcing, and protecting in the building sector and the motor vehicle industry. Sika has subsidiaries in 97 countries around the world and manufactures in over 190 factories. With over 17,000 employees Sika generates annual sales of CHF 5.75 billion (£4.69bn). We are also committed to providing quality, service, safety and environmental care.

In the UK and Ireland, we provide market-leading solutions for concrete, waterproofing, roofing, flooring, refurbishment, sealing & bonding, and industry, and have manufacturing sites in Welwyn Garden City, Preston, Leeds and Dublin with more than 700 employees and a turnover of more than £220 million.

The information, and, in particular, the recommendations relating to the application and end use of Sika® products, are given in good faith based on Sika's current knowledge and experience of the products when properly stored, handled and applied under normal conditions. In practice, the differences in materials, substrates and actual site conditions are such that no warranty in respect of merchantability or of fitness for a particular purpose, nor any liability arising out of any legal relationship whatsoever, can be inferred either from this information, or from any written recommendations, or from any other advice offered. The proprietary rights of third parties must be observed. Please refer to our homepage www.sika.co.uk for our current standard terms & conditions applicable to all orders. Users should always refer to the most recent issue of the Product Data Sheet for the product concerned, copies of which will be supplied on request.
