

## Coronavirus (COVID-19) Update

In response to the market and to support the building industry as requested by the government, we are pleased to confirm that both our **Burton Latimer** and **Halstead** sites will partially reopen on Monday 27th April. Our **Dover** site continues to stay fully operational.

This is a phased reopen, initially with smaller teams in our manufacturing, technical & estimating and customer service departments. We continue to monitor the situation and are focused on providing the most comprehensive technical and service support for our customers.

The safety of our staff remains our main priority, so we will be operating with a small team on site supported by other staff working from home. At all times we will observe social distancing guidelines as outlined by the government in the latest guidance on operating safely in the workplace.

Where possible, we kindly ask if you could please email the relevant departments with your enquiries as listed on the contact sheet. Alternatively, if you do need to speak to a member of our team please use the general site numbers.

This is a challenging time for all, we appreciate your patience and understanding, and we look forward to working with you all again.

Further updates will be posted on the [www.alumascwms.co.uk](http://www.alumascwms.co.uk) website.
