EASILY REPLACE  
ROTTEN OLD PANELS

BEFORE COMPOSITE FENCING

## TRANSFORM YOUR CUSTOMERS' GARDENS

COMPOSITE FENCING IS QUICK AND EASY

The unique finish of composite fencing will add beauty and complement a gardens' natural surroundings. These incredibly light fencing panels are incredibly strong, making general handling and transportation easy.

### Environmentally friendly

Wood-Grain is manufactured from 75% recycled materials. In using Wood-Grain you can be assured that you are protecting the world's natural resources and helping the environment.

### Use with existing posts

Simply remove the old wooden panels from the concrete posts and then slot the composite fencing gravel boards in place. In an instant you have a maintenance-free fence which not only looks good but is easy to install and never needs treating.

### Looks and feels like wood

Composite fencing's unique finish will add beauty and complement gardens for years to come. Unlike most traditional fencing, Wood-Grain's dual face means you can also share the cost with neighbours.

### 20-year guarantee

All composite fencing products come with a 20-year manufacturing guarantee against rotting. Variations in colour, shade or pigment are **NOT** covered under our guarantee. These variations in no way affect the longevity of the product. (For further information on the product guarantee, please review the full composite fencing terms and conditions). For more

## BENEFITS AT A GLANCE

REQUIRED  
HEIGHT**

## CREATE MAINTENANCE-FREE FENCING

### TRADE TIP

#### Can be cut with a handsaw

Because composite fencing is so easy to cut, gravel boards can be easily trimmed to suit popular European fence panels which are 1.8m wide. Wood-Grain will also accept screws to secure the fence into position.

#### Use with timber panels

Composite fencing posts and gravel boards can also be used in conjunction with wooden panels.

### Composite fencing has strength

In independent testing, Wood-Grain proved that it has a much greater tensile strength than concrete posts, as the combined weight of 56 stones demonstrates! It will even flex in strong winds.

### Replace rotten old panels

Simply remove the old panels from the concrete posts and then slot the composite fencing gravel boards in place. In an instant you have a maintenance free fence which not only looks good but is easy to install and never needs treating.

### Incredibly light

At around 5 kgs, composite fencing is a pleasure to work with. It is incredibly light and strong, making general handling and transportation easy. The health and safety risks ever present with concrete fence posts are eliminated.

### Looks and feels like wood

Composite fencing's unique finish will add beauty and complement the garden for years to come. Unlike concrete, Wood-Grain's dual face means you can also share the cost with neighbours.

# COMPARE THE COSTS

SAVE MONEY

## Old timber panels

£674.86\*

10-year maintenance cost for 10 No 6'x6' timber panels

Composite fencing will work out much cheaper over time compared to timber panels, which would need to be maintained every couple of years. **Compare the facts!**

## New composite fencing

£0.00

10-year maintenance cost for 10 No 6'x6' composite panels

Note: Although composite fencing does not require any maintenance to preserve the life span of the fence, it will weather over time and blend into the surrounding area as a timber fence does.

\* Figures based on a timber panel which would need treating a minimum of four times over a 10-year period, using 14 tins of preserver @ £22.49 each, 50 hours of your customers' time at minimum wage of £7.20 (From 01/04/16).

# MAINTENANCE-FREE FENCING

## FINISH AND ACCESSORIES

### Matte finish

#### Posts\*\*

1.8m  
2.4m  
2.7m

\*Includes Steel Insert

#### Decorative Caps

Flat Cap  
Acorn Cap  
Globe Cap

Note: Acorn & Globe, require a Flat Cap also to sit on.

#### Composite Fencing

1.828m  
2.438m

Fence panels available at a height of 300mm.

**Simply stack the boards to the height required.**

#### 3-Way Utility Strip

Corner/End Attachment 2.1m

#### Anti theft clip

Protect the fencing against theft.

#### Supaspike and Bolt Down

The Supaspike is incredibly easy to install, just drive it into the ground and place the post over the top of the spike. For solid surfaces such as driveways and pavements, use the Supaspike Bolt Down.

#### Shaped Tops

1.828m  
2.438m

**Add a shaped top for a premium look.**

#### Eco Gate

Available in all colours

**Made to measure**

\*\* Eco posts are designed to flex and from our experience over the years, we would advise that for fences over 6ft tall a cement grout is poured down the inside of the posts to reduce excess flex. When fitting a gate, a timber post will need to be fixed to the eco posts to provide a square edge for the hinges and catch.
