

Product portfolio

**We know washrooms.**  
For all your design and  
budget requirements.

**Venesta**

# **We know washrooms.**

**After 120 years of innovation in partnership with our customers, we're still passionate about setting new standards of design, value, performance and reliability.**

At Venesta, we live and breathe washrooms. Ever since the early days, innovation has been our inspiration, and product excellence our goal. With a commitment to setting the benchmark for design and performance, we've partnered with our clients in creating solutions that they can rely on to satisfy the most challenging and demanding of briefs.

Today, our expert knowledge and pioneering attitude have inspired our new range of commercial toilet cubicle and washroom systems. On the following pages you'll discover great product choice, value for money and uncompromising quality. As customer care is so important to us, you'll find we're breaking new ground in customer service too.

We invite you to see for yourself.

# We know our customers.

## From tailor-made design excellence to dedicated support and responsive service, everything we do is focused on you and what you need to get the job done.

### **Your guarantee of quality**

At Venesta, quality underscores everything we do. Our design team is dedicated to providing solutions that inspire, delight and perform superbly, even in the most demanding of environments.

All of our fittings are designed to suit our clients' specific requirements. Each component is considered in detail, in terms of both visual appearance and functionality. The same integrity applies in the way we select materials.

Our research and development team is continually raising the design benchmark and no product is launched without extensive testing. In fact, we've been at the forefront of industry invention for many years and have pioneered countless innovations.

### **Durable and fit for purpose to suit your demands**

Everyone expects a product that's fit for purpose but for Venesta, all of our products come with a rock solid 10 year guarantee. We make it our business to really understand your needs before providing the appropriate solution. That way we can be sure you're getting the right product for the job. Fit for purpose also means high standards of durability.

### **Simple to install to make your life easier**

Because we want to make your life as easy as possible, installation is at the forefront of our mind when we're creating new products. With simplicity built into every solution and thorough fixing instructions provided, we can ensure your washroom will be built and ready for use in the shortest of time frames. But don't forget, if you do experience any difficulties, our customer service team is here to resolve any issues quickly and efficiently.

### **A team of experts focused on fulfilling your needs**

At Venesta, we've built a team of people who are genuinely passionate about what they do. Many of us have been with the company for years and have built up a wealth of experience and product knowledge. We have CAD technicians to help with your drawings, project management professionals to ensure everything is on budget and on time, manufacturing experts who have a fine eye for detail and a friendly team that's committed to your total satisfaction.

### **Equality Act 2010 compliant for your reassurance**

At Venesta, we're an authority on Equality Act 2010 compliance. From access, to colours and finishes, we offer products that are fully compliant. What's more, because we understand the Equality Act 2010 inside out, we can provide an unrivalled level of support and advice, should you need it.

### **The UK's first panel manufacturer to achieve 0% board waste to landfill**

In 2019 we were extremely proud to announce that we achieved our target of 0% board waste going to landfill, with the help of our £1M state-of-the-art, 1.75MW, on-site biomass burner.

The heat generated from our burner provides heating to our entire manufacturing facility and office buildings, self-sufficiently, from waste offcuts.

As a manufacturer we're making the most of every portion of the materials that we use and are continually searching for ways to reduce energy consumption across all of our facilities. We know our responsibility and Venesta is totally committed to making a positive impact on the environment.

**01 A friendly team of experts**

We're genuinely passionate about what we do and enjoy sharing our wealth of experience and product knowledge with you.

**02 A fine eye for detail**

Our team is committed to your total job satisfaction, and that means getting every detail right, every time.

**03 Our responsibility to the environment**

The heat generated from our biomass burner provides heating to our entire manufacturing facility and office buildings from waste offcuts.

**04 Quality materials**

No product is launched without extensive testing and all materials are selected for quality and durability.

# We know good service.

## The quality of our products is only half the story. We know that excellent service can make all the difference to your satisfaction.

### Our 7-stage service plan

Whether it's a simple vanity unit or an extensive refit, you'll always find we go the extra mile to ensure you're happy. Here's our 7-stage service plan.

#### Stage 1 Specification

Our dedicated team of Specification Managers will help you choose the most cost effective and suitable products for your project without compromising on aesthetics and quality. To help you, our NBS specification writing service is available free of charge to guide you through all the detail. With our remote specification service, the process is quick and easy. Simply send over your drawings and your local Specification Manager will provide you with a comprehensive specification tailored to your project. Remember, whenever you need advice of any kind, just call our helpful sales team, who can also provide you with product literature and samples.

#### Stage 2 Estimating

Our estimating service levels have never been stronger; it's our aim to never deliver a late quotation. We pride ourselves on our attention to detail, so our comprehensive quotations always give the most detailed breakdowns of materials and prices. Don't forget, our dedicated technical helpline is here to give you technical support on all our products at any stage of the estimating and ordering process.

#### Stage 3 CAD

Once your order is placed, our highly skilled CAD Technicians will prepare layout drawings. At this stage, you'll be given a dedicated CAD Technician to work with you throughout your project. Everything from dimensions, colours and drawings can be sent for your approval prior to manufacture.

#### Stage 4 Manufacture and delivery

We're committed to delivering your order as soon as we possibly can, wherever you are in the World. With that in mind, we've invested £5m in state of the art machinery - allowing us to streamline our manufacturing process to make it more efficient than ever before. 100% on time, in full with no errors is our aim and we monitor our performance closely to ensure we can deliver on this.

#### Stage 5 Installation

Our highly responsive technical helpline is here to give you technical support throughout the installation process. It's worth remembering that although we're a supply only company, if you need fitting too, there are Accredited Installers we can recommend who have vast experience installing our products. Accredited Installers undergo a rigorous training and approval process so you can be assured of a top quality job.

#### Stage 6 After sales support and spares

Once your products have been delivered, we'll give you your own dedicated point of contact to efficiently deal with all your after sales needs. Attentive and highly empathetic to your needs, they'll ensure you're completely happy at all times with our service.

#### Stage 7 Spares website

Our spares website has been created to make it as easy as possible for you to purchase spare items for your Venesta products. Whether it's a toilet cubicle lock, a pedestal leg, headrail end caps, washroom cubicle hinges or door buffers, it's easy to find what you are looking for on our Venesta spare parts website [www.venesta-spares.co.uk](http://www.venesta-spares.co.uk).

One final thing, at Venesta, we appreciate customer feedback; it helps us to ensure we can continue to improve what we do in line with your needs. So, if you have any comments on our products or service, we want to hear them. You can call us on 01474 353333.

01

#### 01 Sample service

Our helpful sales team can provide you with product literature and samples.

02

#### 02 Technical drawings

Everything from dimensions, colours and drawings can be sent for your approval prior to manufacture.

#### 03 Dedicated technical helpline

When you're ready to specify, our dedicated technical helpline offers you all the technical support you need.

03

#### 04 Design team

A specification manager will talk through your washroom requirements to help you choose the most suitable products for your project.

04

# We know choice. We make washrooms to suit all your specification needs, however demanding.

Created by our team of talented designers, the Venesta range brings together toilet cubicles, pre-plumbed washroom systems, panelling, vanity units and washroom accessories. To make specifying easy, we've categorised our products into these key areas:

## V1

### Low-cost cubicles

Affordable style is our V1 signature. We've created each product to give you great value without compromising on quality or functionality.

## V2

### Standard cubicles

With an extensive choice of colours and fittings, our V2 standard range offers unrivalled performance and quality at an affordable price.

## V3

### Premium cubicles

At Venesta, we love design and V3 is our premium range for style-led environments. You can expect superb craftsmanship, the latest finishes and on-trend colours.

## Specialist ranges

Our specialist ranges feature a collection of designs that cater for more specific requirements. With designs for education, healthcare, sports and leisure centres.

## Panelling

We created the very first pre-plumbed system and we've been evolving our range ever since. We can offer you three choices according to your needs and budget: Vepps, Frameduct and Rapiduct.

## Vanities and accessories

Whatever your budget, whatever your environment, we've a great choice of vanity units and accessories to complement your washroom.

# We know washroom solutions.

**We know cubicles.**

V1 delivers highly functional, affordable style that's designed to suit both your budget and your specification needs. What more could you ask for?

## Your low-cost range with quality and style built in.

At Venesta, we believe you shouldn't have to compromise on quality just because you're choosing a low-cost solution.

So, our design team has risen to the challenge, bringing you the best quality finishes and fittings at the best price to suit your budget.

**Unity** Simple and striking: that's Unity. This clean, modern design is the UK's most economical, well designed flush cubicle range. Whatever the environment, Unity's 'floating' flush front always makes a big impact.

# Unity

**01** Dedicated three part headrail in satin anodised aluminium finish.

**02** Satin anodised aluminium pedestals that are fitted to partitions give the range its floating appearance.

## Main image

Unity ColourCoat in Orange (RAL2008) and White (RAL9003), Solid Surface vanity in Vermont with Graphite under panels.

See p24-25 for Unity technical specifications.

See why Unity is our most popular cubicle by visiting our YouTube channel.

# Unity

**ColourCoat**  
ColourCoat is our vibrant range of contemporary spray painted colours. Doors and pilasters are sprayed with a coat of primer and finished with 20% high gloss pigmented lacquer.

**ColourCoat High Gloss**  
ColourCoat High Gloss is our highly reflective, spray painted colour finish. Doors and pilasters are sprayed with a coat of primer and finished with 80% high gloss pigmented lacquer.

Note: for V3 products, any colour from the RAL classic colour chart can be chosen, excluding metallic and fluorescent colours.

**01** Satin anodised aluminium pedestals that are fitted to partitions give the range its floating appearance.

**Main image**  
Unity ColourCoat in Purple (RAL4006), Solid Surface vanity in Krakatoa with Graphite under panels.  
  
See p24-25 for Unity technical specifications.

V1

#### Key features

- Floating appearance
- Stainless steel and satin anodised aluminium fittings
- U-channels for partitions
- E/L-channels for wall end pilasters
- Flush fronted
- Minimal look and clean lines
- 10 RAL or 34 standard laminate colours

## Case study ICON Outlet at The O2

**Venesta were pleased to work alongside ISG and Wren Construction to provide male, female, baby and accessible washroom facilities.**

Spanning an impressive 210,000 square feet, ICON Outlet is The O2's brand new urban outlet shopping centre, bringing together over 60 of the best fashion and lifestyle brands.

Unity cubicles were specified to meet the high demands of this new and exciting shopping centre. Unity's clean, modern and minimal design was the perfect choice, offering a 'floating' flush front that makes a guaranteed impact.

The HPL cubicles supplied have a durable moisture resistant chipboard core, faced with high pressure laminate to accommodate daily cleaning requirements. Unity also offers anti-tamper, concealed stainless steel and satin anodised aluminium fittings, ensuring the strength and security of the cubicles.

ICON Outlet selected our ground-breaking pre-plumbed Vepps system, making regular duct maintenance effortless thanks to its linear-bearing hinge. Our 90 degree hinge removes the need to manually lift off and replace panels when carrying out maintenance work, which is inefficient and could cause the panels to become damaged or misaligned.

Venesta were proud to have been involved in such a significant project, helping to ensure shoppers, diners and visitors of all ages and abilities have the best possible customer experience, even when visiting the washroom.

## Dimensions

### Overall height

MFC	2070mm
HPL	2070mm
SGL	2065mm
ColourCoat	2070mm
High Gloss	2070mm

Bespoke heights available.

Full height available, 20mm minimum ceiling clearance required.

### Floor clearance

50mm

### Maximum depth

MFC	2000mm
HPL	2000mm
SGL	1920mm
ColourCoat	1800mm
High Gloss	1800mm

## Performance

Available in five material options, Unity is suitable for every type of wet or dry environment, allowing you to specify the most appropriate option to meet the site requirements and your budget.

### MFC (partitions only)

Partitions only. For dry environments with low risk of vandalism. Panels are high performance moisture-resistant melamine faced chipboard. Edges lipped with ABS. Partitions are 18mm nominal thickness.

### HPL

For more heavily used washrooms, panels are heat, scratch, impact and cigarette burn resistant. Moisture-resistant chipboard faced with high pressure laminate. Edges lipped with ABS. Doors and pilasters are 35mm nominal thickness with an MDF core, partitions are 18mm nominal thickness.

### SGL

Solid grade laminate is extremely resistant to impact and all surfaces are impervious to water. Panels are 13mm nominal thickness with polished black radiused edges.

### ColourCoat

Panels have an MDF core. Doors and pilasters are sprayed with a coat of primer and finished with 20% high gloss pigmented lacquer. Doors and pilasters are 35mm nominal thickness, partitions are 18mm nominal thickness.

### ColourCoat High Gloss

Panels have an MDF core. Doors and pilasters are sprayed with a coat of primer and finished with 80% high gloss pigmented lacquer. Doors and pilasters are 35mm nominal thickness, partitions are 18mm nominal thickness.

## Detailing

### Panels and doors

Available in MFC, HPL, SGL, ColourCoat & ColourCoat High Gloss.

### Colour finish

#### MFC, HPL and SGL

34 colours.

#### ColourCoat/High Gloss

10 colours.

### Cubicle hardware

Satin anodised aluminium.

### Edge treatment

#### MFC and HPL

Matching ABS lipping.

#### SGL

Rebated black radiused edge.

#### ColourCoat

Edges sprayed with a coat of primer and finished with 20% high gloss pigmented lacquer.

#### ColourCoat High Gloss

Edges are sprayed with a coat of primer and finished with 80% high gloss pigmented lacquer.

### Headrail

Slimline aluminium profile headrail in satin anodised finish. 3 part fixing system which allows cubicles to finish only 20mm below ceiling height.

### Cubicle hardware

#### Hinge

Satin anodised aluminium (for HPL) or stainless steel (for SGL), modular rise and fall butt hinge, fitting whichever handing is needed. Able to be set to fall open or closed.

#### Wall fixing

All channels are aluminium with a satin anodised finish.

#### Indicator bolt

Stainless steel internal mortice lock/keep and flip indicator bolt.

#### Pedestal

Adjustable aluminium pedestal with satin anodised finish.

### Accessories

Coat hooks and toilet roll holders available.

**Fusion** Bringing together cutting edge design, unrivalled performance and surprising affordability, Fusion is an innovation all of its own. With an ultra-strong metal frame and slimline pilasters that fix to the floor for added rigidity, Fusion combines strength and modernity in equal measure.

# Fusion

V2

**We know cubicles.**  
For quality, style and durability, V2 is your promise of innovation at affordable prices. With our trademark attention to detail, stylish good looks and versatility, we've created a range that satisfies time and time again.

**Your choice for colours and fittings.**  
A faultless combination of style and functionality, V2 is our hugely popular mid-range that promises you maximum colour possibilities and a superb selection of the latest fittings.

V2

**System M** A unique, robust cubicle range with patented, simple to operate, rapid release outward opening door system, which provides optimal emergency access.

System

## System M

System M has been designed to comply with the Document M regulation, for Access to and use of buildings, whilst maintaining attractive aesthetics. System M has a proven track record of being able to cope with the demands of constantly used washrooms in some of the busiest airports in the world including; London Heathrow and Gatwick. This optimal emergency access cubicle is suitable for all high traffic environments; in particular airports, retail outlets and public buildings, such as schools and hospitals.

01

**01** Pivoting pilasters allows easy access with quick release system.

02

**02** Release facility allows a normally opening inward door, to be opened outwards.

### Main image

London Stansted Airport featuring System M.

See p70-71 for System M technical specifications.

### Key features

- Award-winning, patented emergency access system
- Quick and easy access within 30 seconds in an emergency
- Simple to release and reset, no damage to the cubicle
- No tools required for emergency release
- Complies with Document M, DDA and SSLD-3 Regulations
- Floating appearance
- Attractive satin anodised aluminium pilasters and headrail

# System M

System M features an innovative pivoting pilaster design with a discreet release facility operated without the use of tools or removable parts, allowing the normally inward opening door to be opened outwards within 30-seconds.

Re-setting is simple with no replacement parts and no visual compromise to this stylish design.

## System M functionality.

### Stage 1.

### Stage 2.

## Emergency release:

**Stage 1:** System M's innovative pivoting pilaster release system is not apparent to the everyday user and therefore retains a standard level of security and privacy.

**Stage 2:** In the event of an emergency, staff can open the lock using a coin, which allows the door to move freely. The pilaster can then be "squeezed" to release the door outwards, providing an emergency response time of less than 30 seconds.

## Case study BAA London Gatwick Airport

London Gatwick is the second largest airport in the UK, flying to more destinations than any other UK airport. Gatwick has more than 280,000 flights across 90 airlines, carrying more than 46 million passengers per year.

Since 2009, Gatwick has undergone ongoing transformation to improve passenger experience through a £2.5 billion investment programme to all areas of the airport, including the washrooms.

With a requirement for a robust washroom to withstand the heavy footfall, System M was recommended for its durable and stylish design with its unique ability to access the cubicles in less than 30 seconds in an emergency. The patented system enables normally inward opening doors to be opened outwards in an emergency, without having to break components or lift off pilasters or doors, the perfect solution for an airport.

To compliment the washrooms, Washwall, a service integrated vanity solution was specified for its discreet and simple access to services for maintenance staff and for its streamlined experience for the users.

The overall finish was completed with Clipclad, the ultimate solution to wall panelling, complete with unique mounted glass cladding.

## Case study Derriford Hospital

**“We decided on the System M cubicle, to aid with manual handling and to assist with a quick access should we need to.”**

Peter Caton, Senior Planning Support Manager, Site Services, Derriford Hospital.

Derriford Hospital forms part of the University Hospitals Plymouth NHS Trust and is the largest hospital in the south west peninsula, providing access to comprehensive secondary and tertiary healthcare for almost 2,000,000 people.

To complement the opening of their new, state-of-the-art Changing Places facility, that will greatly improve the experience of disabled patients and their families, the hospital realised a need to improve the reception foyer washrooms.

With safety a priority for all healthcare facilities around the world, we were asked to design a bespoke cubicle system to meet the specific needs of Derriford Hospital. Above all the washrooms would need to accommodate a high footfall of patients and visitors of all abilities.

As well as allowing rapid access, the washrooms also needed to be strong and durable to support the challenging environment of a major hospital. System M made the ideal choice and was tailored to suit the needs of the environment with doors and partitions manufactured from our strongest material, Solid Grade Laminate; defending against scratches, water and moisture, vandalism and hard impact.

“The overall reaction from users has been that they are delighted with the new facilities, commenting on the extra space, increased number of cubicles, simple but useful accessories such as bag hooks and the colour of the cubicles.”

# Technical Specifying System M

**1 Pedestal****2 Indicator bolt****3 Hinge**

## Dimensions

### Standard height

2120mm

### Standard floor clearance

150mm

### Standard depth

HPL 1800mm

## Performance

System M cubicle partitions are manufactured in 26mm medium density fibreboard (MDF) faced both sides with high pressure laminate (HPL) and lipped with ABS.

Doors are manufactured in 13mm solid grade laminate (SGL) with radiused edges.

### HPL

For more heavily used washrooms, panels are heat, scratch and impact resistant.

### SGL

Solid grade laminate is extremely resistant to impact and all surfaces are impervious to water.

## Detailing

### Panels and doors

Panels HPL and doors SGL.

### Colour finish

#### HPL and SGL

34 colours.

### Cubicle hardware

Stainless steel and satin anodised aluminium.

### Edge treatment

#### HPL

Lipped with ABS edging.

#### SGL

Polished black radiused edge.

### Headrail

Satin anodised aluminium "U" section headrail.

### Pilaster

Unique, patented, pivoting, satin anodised aluminium pilaster, to allow doors to open outwards in an emergency.

### Cubicle hardware

#### Hinge

Satin anodised aluminium lift off rise and fall hinges.

#### Wall fixing

Satin anodised aluminium discreet T-section.

#### Indicator bolt

Stainless steel circular faced indicator bolt with emergency release and nylon keep.

#### Pedestal

Stainless steel, height adjustable for uneven floors with concealed fixings.

### Accessories

Coat hooks and toilet roll holders available.

**Equinox** A true style icon,  
Equinox brings you a modern  
washroom system with a difference.  
Its streamlined, curved pilasters  
and elliptically formed hardware  
are unique design features for this  
cubicle range.

Equinox

specifications.

## Case study St David's Shopping Centre

**“I was delighted with the choice and quality of the product specified for St David's, and from a practical point of view, extremely impressed with the ease in which it has been maintained. The traffic within the first year has been phenomenal – you wouldn't think so by looking at our washrooms.”**

Steven Madeley, Centre Director, St David's Shopping Centre.

In its first week of trading, more than one million shoppers visited the new extension to St David's Shopping Centre in Cardiff. With more than 100,000 square metres of brand new retail space, the centre is home to many iconic, upmarket brands including Apple, Hugo Boss, LK Bennett and Kurt Geiger. Designed by Benoy, the development has rejuvenated the existing St David's Shopping Centre and has created a new landmark retail centre in the heart of the city.

Venesta was approached by Benoy architect, Maria Cannovina, who was looking for a contemporary, streamlined washroom solution to complement the centre's modern aesthetic. We recommended Equinox, not only for its looks but also its remarkable durability; an essential consideration in an environment with such heavy traffic. The client opted for Equinox in Iceberg laminate with polished, elliptically shaped pilaster and a pre-plumbed panelling system\* to feature throughout the whole shopping centre and within the management suite. This was a huge project for Venesta but, we're delighted to say, everything ran perfectly, from start to finish.

**Read the full case study at [www.venesta.co.uk](http://www.venesta.co.uk)**

\* For more information on our pre-plumbed panelling system, Vepps, turn to page 150, or contact our friendly and helpful sales team on 01474 353333.

Spec

**We know specialist ranges.**  
Whether it's a vandalism  
prone environment, or one  
with rigorous health and  
safety considerations, we  
can guide you through our  
range of innovative, fit for  
purpose solutions.

Specialist

## **We know education.**

For over 50 years, we've been the washroom specialist of choice for countless schools and colleges.

We know that performance, practicality and cost-effectiveness are your key considerations. They're ours too.

# Specialist ranges

Specialist ranges

# We know education.

## From nurseries to universities and children's play areas, we're committed to raising the standard of our children's washrooms.

### Safety

Children have a right to be safe at all times. With this in mind, we've introduced a number of important features into our designs. Low level and shaped door options allow adult supervision, where it's needed, while our clever safety hinges mean an end to trapped fingers. We also include door lock options for emergency release, giving you extra peace of mind.

### Privacy

Safety may be one of our top priorities, but we also believe that children have a right to privacy. That's why we give you the option of full height cubicle partitions for secondary and further education. Our solutions also include urinal privacy screens.

### Colours

Children love colour and bold designs. So, we've created the widest and brightest palette featuring 34 fresh and vibrant colours, ensuring you can create a washroom that children will enjoy using. We've not stopped at colour; our screen prints add extra vibrancy, making them a popular choice for younger children.

### Hygiene

A hard-working washroom should also be one that's easy to maintain. That's why our solutions include features that make cleaning really easy. These include our washtrough with individual drainer and minimal joints. Also, the solid grade laminate we use is totally impervious to water, which means it can withstand intensive cleaning.

### Anti-tamper

At Venesta, we work hard to ensure our stylish and robust designs encourage respect and discourage vandalism. So, our solutions for secondary and further education washrooms feature metal frames renowned for strength and rigidity with durable metal fittings.

See our anti-finger trap hinges in action by visiting our YouTube account.

**01 Playful colour**

Our screen prints add extra vibrancy, making them a popular choice.

**02 Total privacy**

Full height designs with low floor clearance for privacy.

**03 Easy cleaning**

The solid grade laminate we use is totally impervious to water.

**04 Right to feel safe**

Low level and shaped door options allow adult supervision.

## Education 2-11 years

Our design team has gone to town creating spaces that challenge and delight young minds. Lollipop and Genesis cubicle ranges are perfect combinations of fun, safety and hygiene. Our colourful screen print designs, available in HPL only, are perfect for schools, crèches and children's play areas.

See our Education brochure for more details.

## Case study Belleville Primary School

Before this project went ahead we stipulated that our suppliers needed, not only to provide highly thought out, stylish systems but also to be hot on the quality of their service too. I'm delighted to say, we got both from Venesta.

Mr Grove, Head Teacher, Belleville Primary School.

Judged 'outstanding' by Ofsted in 2007, Belleville School in Battersea, looks after 730 pupils, aged between 4 and 11. Housed in a classic Victorian building, the school is committed to providing a warm and friendly environment for children to learn and spends a lot of time and effort ensuring its pupils feel safe, secure and stimulated.

Charged with an extensive refurbishment to the whole school, chartered surveyors Wilby and Burnett briefed Venesta to provide a cubicle range that would answer the school's need for a fun, safe and hygienic environment. Genesis was selected for its design and variety of height options making it the natural choice. School head, Mr Grove, was particularly impressed by Venesta's online design studio which allowed him to visualise different colour mixes before making his selection.

A key consideration on this project was timing. Installed by Associated Installations, the refurbishment was planned for the school holidays, meaning it had to be gutted and refitted in just six weeks. Thankfully, the highly efficient Venesta team were able to rise to the challenge and delivered the cubicles on time and ready to install.

**Read the full case study at [www.venesta.co.uk](http://www.venesta.co.uk)**

## Education 11+ years

Cleanliness, ease of maintenance, privacy, vandal resistance. With tough demands like these, you'll be glad to know we build these things into our designs as a matter of course. The results speak for themselves.

See our Education brochure for more details.

## Case study The Royal London Hospital

**“Venesta’s product is both quick and easy to install, this, combined with an experienced CAD and manufacturing team makes them the ideal choice when procuring a washroom package of this size and complexity.”**

Marcus Lynes, Shire Integrated Systems Ltd  
(installers for Skanska)

Part of Barts and The London Hospital Foundation Trust, one of Britain’s leading healthcare providers, The Royal London Hospital at Whitechapel and St Barts Hospital at St Paul’s both have a reputation for making outstanding contributions to modern medicine.

During an extensive new building scheme Venesta was chosen to supply new washroom and shower solutions throughout the two hospitals. These were both huge projects and a challenge that we relished.

To ensure smooth running, we provided a full-time project manager who was responsible for the surveying, scheduling and production drawing of every unit supplied. The Client chose a pre-plumbed panelling system\* and Quantum SGL cubicles. The latter’s solid grade laminate panels are extremely resistant to impact and impervious to water, making it an ideal solution for healthcare environments. Our pre-plumbed panelling system complies with HTM64 (superseded by HTM10) ensuring the very highest levels of hygiene and infection control.

The quality of our service was crucial to the success of this project. We offered a short lead time on all products, ensuring our client had total piece of mind, knowing that deadlines could always be met, even when unforeseen problems arose onsite.

\* For more information on our pre-plumbed panelling system, Vepps, turn to page 150, or contact our friendly and helpful sales team on 01474 353333.

**We know sports and leisure centres.**  
We're passionate about raising the bar for sports and leisure centre washrooms. Your need for practicality, in both wet and dry environments, has prompted us to create a versatile range of safe, durable and innovative solutions, whatever your budget.

# Lockers and benches

For over 30 years, we've been designing and manufacturing benches and lockers for leisure centres and education environments. So, whatever environment you're working in, you can rely on our stylish and flexible, tried and tested locker and bench solutions to seamlessly fit and perfectly enhance your space.

**Main image**

# Technical Specifying lockers and benches

## Lockers

Active locker 304mm width

Opening sizes	
Model 1	1774 x 266mm
Model 2	880 x 266mm
Model 3	583x 266mm
Model 4	434 x 266mm
Model 5	345 x 266mm
Model Z	1457 x 266mm

Active locker 404mm width

Opening sizes	
Model 1	1774 x 366mm
Model 2	880x 366mm
Model 3	583 x 366mm
Model 4	434 x 366mm
Model 5	345 x 366mm
Model Z	1457 x 366mm

Bench locker 304mm width

Opening sizes	
Model 1	1434 x 266mm
Model 2	711 x 266mm
Model 3	469 x 266mm
Model 4	349 x 266mm
Model Z	1025 x 266mm

Bench locker 404mm width

Opening sizes	
Model 1	1434 x 366mm
Model 2	711 x 366mm
Model 3	469 x 366mm
Model 4	349 x 366mm
Model Z	1025x 366mm

**Overall height**

Active lockers	1913mm
Bench lockers	1473mm from bench level

**Widths**

304mm (not applicable to Model Z)  
404mm

**Depth**

510mm  
840mm (including bench)

**Active lockers key features**

- Available in 34 laminate colours
- Robust and hardwearing
- Practical in design and functionality
- High impact resistant
- Totally impervious to water

**Door performance**

High impact resistant 13mm thick Solid Grade Laminate doors with 3mm radius corners.

**Body performance**

Robust, hardwearing and waterproof 3mm SGL carcass in Smoke.

**Dividers**

Hygienic, easy to clean, 3mm thick SGL horizontal shelves.

**Hinge**

Rolled stainless steel self-closing hinge.

**Ventilation**

3mm space between doors and frame allows air to circulate.

**Locks**

- |                     |             |
|---------------------|-------------|
| • Coin retain       | • Digi lock |
| • Coin return       | • RFID lock |
| • Cylinder/cam lock | • Hasp lock |

**Accessories**

- Laser cut numbers for locker doors.
- Nylon coat hooks as standard with Model 1, Model 2 and Model Z lockers.
- Corresponding wristband in red / blue.

**Stands**

Venesta recommends that the lockers be installed on a raised, concrete base in wet areas. Alternatively, the lockers can be mounted on a powder coated cantilevered bench. Please contact our sales team for details.

# Benches

Our benches have been designed to provide strength, safety and flexibility. Available in 2 materials (13mm SGL and 32mm Hardwood), in five profiles. Each benching solution has Light Grey (RAL9006) powder coated steel framework.

Box section construction is tubular with adjustable feet and hidden fixings

These bench systems are ideal for any of our washroom or cubicle systems, in both wet and dry environments.

## Perimeter

## Benching key features

- Hardwearing SGL and hardwood benching options available
- Available in five profiles, each with tested tubular framework
- Ideal for wet and dry environments
- Designed for high level use
- Adjustable feet to suit uneven floors
- Optional shoe rack detail available
- Optional cubicle anti-peep rail detail available to complement benching / coat hook style

## Profiles

- Perimeter benching
- Perimeter cantilever benching
- Freestanding bench
- Island benching with integral coat hooks
- Locker benching

## Dimensions

440 / 460mm bench height

## Performance

- Hardwood slats in beech or SGL solid / pocket benches with double corrosion protected, powder coated steel frame in Light Grey only.

## Wall mounted coat hooks

13mm SGL coat rail or 20mm hardwood coat rails in beech, with satin anodised aluminium coat hooks.

## Perimeter cantilever benching

## Freestanding benching

## Island benching

## Locker benching

## SGL wall mounted coat hooks

## Hardwood wall mounted coat hooks

**Cubicle Express** Designed to meet your demands for the quickest and simplest washroom installation, this off-the-shelf solution is supplied to you within 48 hours. Supplied in oversized formats for onsite flexibility, this really is the hassle-free washroom solution.

# Cubicle Express

# The quickest and simplest installation is ready and waiting.

Promising you the winning combination of best value and uncompromising design quality, the Cubicle Express range includes cubicles, duct panels and vanities. All suitable for dry environments, the range features enlarged and ambulant cubicles with all the components and fixing instructions you need for a speedy build.

Available in oversized formats for onsite flexibility, Cubicle Express has a range of innovative features including channels that replace cleats and a new universal hinge. You can choose from a selection of colours and shaped low height doors, plus you have the option of our post-formed pilaster.

The fittings are available in ABS Graphite.

# Technical Specifying Cubicle Express

## Dimensions

**Overall height**

1950mm

**Floor clearance**

100mm

**Maximum depth**

1800mm

## Performance

Available in MFC, Cubicle Express is suitable for dry environments, allowing you to specify with confidence.

**MFC**

For dry environments with low risk of vandalism. Panels are manufactured from 18mm nominal thickness high performance moisture-resistant melamine faced chipboard. Edges lipped with ABS.

## Detailing

**Panels and doors**

18mm nominal thickness melamine faced chipboard (MFC).

Post-formed pilaster option:

18mm nominal overall thickness high pressure laminate (HPL) faced chipboard.

**Vanities**

18mm nominal thickness high pressure laminate (HPL) faced chipboard with 100mm front downstand and 75mm rear upstand.

**Flashgaps**

18mm nominal thickness melamine faced chipboard (MFC) in a choice of six colours.

**Colour finish**
**Panels, doors and vanities**

Six colours.

**Cubicle hardware**

ABS Graphite.

**Edge treatment**

Matching ABS lipping.

**Headrail**

Graphite U-section aluminium.

**Pedestal**

ABS Graphite.

**Accessories**

Accessories are in pack C1F. See p142.

**1 Pedestal**

**2 Indicator bolt**

**3 Hinge**

# Duct panel packs

## Duct panels

All framework by others. The installer needs to provide an appropriate timber-frame. (Typically ex 50 x 50mm treated softwood.)

### P1 Washbasin and WC panel pack

- 1 bottom panel 405 x 700mm
- 1 middle panel 670 x 700mm
- 1 top panel 1125 x 700mm
- 1 ABS re-edging strip 2500mm
- 16 plastic clips and screws

### P2 Urinal panel pack

- 1 bottom panel 225 x 700mm
- 1 middle panel 850 x 700mm
- 1 top panel 1125 x 700mm
- 1 ABS re-edging strip 2500mm
- 16 plastic clips and screws

### P3 Plain panel pack

- 1 plain panel 2250 x 700mm
- 1 ABS re-edging strip 2500mm
- 10 plastic clips and screws

### P4 Plain panel pack

- 1 plain 2250 x 300mm
- 1 ABS re-edging strip 2500mm
- 10 plastic clips and screws

### F1 Flashgap pack

- 2 flashgaps - unedged 2600 x 200mm
- 1 flashgap - edged 2600 x 201mm
- 16 shrinkage plates and screws

## Duct panels – standard height

## Duct panels – shelf height

# Technical Specifying Cubicle Express

## Cubicle packs

### Cubicles

Wall channels accommodate out of line walls.

Door and wall channels allow for cutting without the need to re-edge.

Adjustments can be made to cubicles by reducing doors and partitions and fitting into full length door channels or wall channels as appropriate.

#### Please note:

Floor to ceiling post will be required when ordering free-standing cubicles.

#### C1 Door pack

Outward opening/inward opening wheelchair, ambulant and enlarged.

- 1 door 1800 x 900mm
- 1 square edge pilaster 1800 x 220mm
- 1 square edge pilaster hinged 1800 x 115mm
- 1 square edge pilaster no hinge 1800 x 115mm
- 1 square edge pilaster for enlarged cubicle drilled for hinge 1800 x 400mm
- 3 ABS door cap/wall channels 1800mm
- 1 aluminium headrail – Graphite 1800mm

(Door pack also available with post-formed pilasters – C1P)

#### C1F Fittings pack

- 1 indicator bolt
- 1 outward keep
- 3 hinges
- 1 toilet roll holder
- 1 coat hook
- 2 pedestals
- 2 buffers
- Screws, plugs and channel through fixings

### Cubicles

#### C2 Partition pack

- 2 partition 'halves' 900 x 1800mm
- 1 ABS H-section
- 1 ABS door cap/wall channel 1800mm

#### C3 Inline pack

- 1 large pilaster 1800 x 900mm
- 1 square edge pilaster drilled hinge 1800 x 550mm
- 1 aluminium headrail – Graphite 1800mm

(Inline pack also available with post-formed pilasters – C3P)

#### C4 Floor to ceiling post

- 1 floor to ceiling post 3750mm
- 2 flanges
- Screws, plugs and channel through bolt fixings

#### GR1 Ambulant/enlarged grab rail pack

- 3 grab rails, White powder coated 600mm
- 2 door opening handles Dark Grey powder coated
- 1 fixing pack complete

# Children's door and vanity unit pack

## Children's doors

### **C1C** Children's door pack

- 1 door 1800 x 900mm
- 1 square edge pilaster 1800 x 220mm
- 1 square edge pilaster hinged 1800 x 115mm
- 1 square edge pilaster no hinge 1800 x 115mm
- 1 square edge pilaster for enlarged cubicle drilled for hinge 1800 x 400mm
- 3 ABS door cap/wall channels 1800mm
- 1 aluminium headrail – Graphite 1800mm

(Children's door pack also available with post-formed pilasters – C1CP)

## Children's doors

## Vanities

## Children's doors

## Vanities

All framework by others.

The installer needs to provide an appropriate timber-frame to support vanity units (typically ex 50 x 50mm treated softwood).

The return end panel for vanity units will be supplied oversized to enable the installer to make onsite adjustments.

### **V1** Vanity unit pack

- 1500 x 555mm top post-formed into a 100mm downstand and a 75mm high upstand blocked both ends
- 1 1400 x 645mm under panel
- Clips and screws
- 3 unedged flashgaps 1300 x 200mm
- Fixing brackets and screws
- 2 loose return ends

# Panelling

**We know panelling.**

At Venesta, we're renowned for our innovations in panelling. From our Venesta Engineered Pre-Plumbed System Vepps, to our cost-effective Rapiduct system, we have a fit for purpose solution to suit your needs.

panelling

**You're assured of the right solution.** We know that every design scheme is different, so we've created three different solutions, each one carefully designed and manufactured with you in mind. Whether you need a made to measure, ready to install integrated system, or a basic, excellent value alternative, you can find it here.

# Vepps

## Pre-plumbed

With over 100 years of washroom innovation, we introduce Vepps. Our revolutionary, fully engineered metal framed pre-plumbed system offers even faster installation, even easier ongoing maintenance and a much wider range of factory fitted sanitaryware, all at a lower cost. What makes Vepps unique is its linear-bearing hinges and support ratchets, offering easy access to duct space and effortless, smooth movement. A Venesta dowel dock ensures perfect panel alignment whilst zinc plated steel tie backs offer improved stability to the whole system. Plus it of course comes with Venesta's rock solid 10 year product guarantee.

# Frameduct

## Non-plumbed

If you're looking for a sturdy, metal-framed panelling system but want the choice of specifying your own sanitaryware, then Frameduct is the ideal solution. It's made to measure and features a click-fix mechanism so it's quick and easy to install. Frameduct can be specified with any Venesta cubicle or vanity system.

# Rapiduct

## Timber-framed

Simple, functional and highly cost-effective, this panelling system is flexible enough to suit any cubicle range. Unlike the other panelling options, Rapiduct is constructed onto a timber-frame, not supplied by Venesta, and is designed for your own build and installation. You can specify Rapiduct with any Venesta cubicle or vanity system.

**Your checklist to make specifying easy.**  
From education to retail, healthcare to industrial, Venesta has a proven track record of supplying high quality panelling systems for the most demanding environments.

To help you choose the right system for you, we've put together this at-a-glance benefits checklist.

Benefits	Vepps	Frameduct	Rapiduct
To help you choose the right system for you, we've put together this at-a-glance benefits checklist.			
Factory fitted sanitaryware	•		
Choice of pre-plumbed WC suites, urinals, basins and vanity units	•		
Fully tested sanitaryware	•		
Speedy installation	•	•	•
Factory assembled, guaranteeing a quality product and finish	•	•	
Unique click-fix metal frame	•	•	
Metal framework, impervious to water	•	•	
Product longevity	•	•	•
Suitable for use with all types of sanitaryware		•	•
Lockable duct panel option	•	•	•
Conceals plumbing and services (wastes and traps)	•	•	•
Provides easy access for maintenance	•	•	•
Choice of board types and edge details, providing an offering to suit any application	•	•	•
Universal – it complements any cubicle range	•	•	•
10-year product guarantee	•	•	•
Venesta linear-bearing hinge and panel support ratchets for easy maintenance	•	•	

As the best quality, low-cost choice, Rapiduct offers you a well-crafted, functional system and the flexibility to choose your own sanitaryware.

**Vepps** gives you a ground-breaking pre-plumbed system that ticks all the boxes. It's simple, flexible and compatible with all products. Plus, it's adaptable enough to work across any sector.

**You need simplicity.**

**Vepps is the industry's first precision engineered pre-plumbed panelling system with a click-fix assembly into an aluminium frame.**

**That means installation is efficient and cost-effective. Perfect.**

**Simplicity.**

**With 7 unbeatable benefits...**

**Cost.**

Proven to be more cost effective over the whole project lifecycle.

**Onsite-speed.**

Onsite installation 50% faster than traditional plain panel method systems.

**Quality.**

Perfect factory finish and panel alignment as well as a 10-year guarantee.

**Maintenance.**

No manual handling with our linear-bearing hinged panels.

### Key features

Metal-framed, pre-plumbed system  
 Factory fitted sanitaryware  
 Ultra strong aluminium frame  
 Industry leading design  
 Unique Venesta linear-bearing hinge™  
 Complete onsite flexibility  
 Provides a cost-effective, quick installation  
 Reduces the need for onsite specialist skills  
 Suitable for wet and dry environments  
 Bespoke system ready to install  
 Suitable for all board types  
 Increased product longevity

# Speed.

See how quick and easy it is to operate Vepps by visiting our video website page.

**You need speedy installation.**  
 Our design team created Vepps to ensure that's what you get. There are four easy steps to installation, so you can be up and running in the shortest possible time frame, with a guaranteed quality finish.

**01** Once the site has been prepared, fix the aluminium docking frame to the wall, ceiling and floor.

 20 minute installation

**02** Click-fix the first Vepps unit onto the frame and slide into position. Open the mid panel to a fully hinged position. Attach a vertical flashgap to the frame on either side of the unit, screw-fixing to the frame from the face. Fix tie back to the wall. Repeat until all units are in place.

 30 minute installation

**03** Once all the units are in position, connect the plumbing and services.

 10 minute installation\*

**04** Simply close the hinged panel and attach the top and bottom panels of the unit. Installation complete.

 5 minute installation

The comparisons given between Vepps, Frameduct and Rapiduct are a guide and are designed to help you choose the right product for your project.

\* Dependent on brassware.

# Technical Specifying Vepps

## Dimensions

### Maximum ceiling height

<b>MFC</b>	3000mm
<b>HPL</b>	3000mm
<b>SGL</b>	3000mm

Maximum heights subject to change with woodgrain colours.

Bespoke heights available.

### Skirting/baserail height

100mm (other skirting heights achievable by site packing the baserail).

### Top flashgap

50mm

Panel shelf heights are 1200mm as standard, excluding shower units.

### Hinged panels

Hinged and lockable panels available up to 850mm width.

## Sanitaryware

Fitted sanitaryware has been specially engineered to give you the highest quality finish.

### WCs

### Basins

### Urinals

### Showers

### Wash troughs

### Baths

### Squat pans

### Cleaners sinks

### Healthcare items

## Performance

Available in six material options, Vepps is suitable for every type of wet or dry environment, allowing you to specify the most appropriate panel option to meet the site requirements and your budget.

### MFC

For dry environments with low risk of vandalism. Panels are manufactured from 18mm nominal thickness high performance moisture-resistant melamine faced chipboard. Edges lipped with ABS.

### HPL

For more heavily used washrooms, panels are heat, scratch and impact resistant. Manufactured from moisture-resistant chipboard faced with high pressure laminate, panels are 18mm nominal thickness. Edges lipped with ABS. Post-formed vertical edge option available.

### SGL

Solid grade laminate is extremely resistant to impact and all surfaces are impervious to water. Panels are 13mm nominal thickness with polished black radiused edges.

### ColourCoat

Panels are 18mm nominal thickness MDF sprayed with a coat of primer and finished with 20% high gloss pigmented lacquer.

### ColourCoat High Gloss

Panels are 18mm nominal thickness MDF sprayed with a coat of primer and finished with 20% high gloss pigmented lacquer.

### Veneer

Manufactured from moisture resistant chipboard faced with real wood veneer, panels are 18mm nominal thickness. Edges lipped with matching ABS lipping.

## Detailing

### Panels

Available in MFC, HPL, SGL, ColourCoat, ColourCoat High Gloss and Veneer.

### Flashgaps

MFC, SGL, ColourCoat, ColourCoat High Gloss and Veneer.

### Colour finish

#### MFC, HPL and SGL

34 colours.

#### ColourCoat & ColourCoat High Gloss

10 ColourCoat and ColourCoat High Gloss colours available when specifying Vepps with selected V1 and V2 cubicle ranges. Unlimited ColourCoat and ColourCoat High Gloss options (any classic RAL) when specifying Vepps with selected V3 cubicle ranges.

### Veneer

Wide range of Alpi veneer options (varying price points).

### Edge treatment

#### MFC and HPL

Matching ABS lipping.

Post-formed vertical edge option available with HPL.

#### SGL

Polished black radiused edge.

#### ColourCoat & ColourCoat High Gloss

Edges are sprayed with a coat of primer and finished with high gloss pigmented lacquer.

### Veneer

ABS lipping to match.

### Flashgaps

Flashgaps have unfinished edges except return end flashgaps which will be ABS lipped (or polished if solid grade laminate).

### Docking frame

Headrail, baserail manufactured from extruded aluminium section.

### Subframes

Manufactured from rolled galvanised steel section with aluminium cross brace bars. Subframe installed within aluminium docking frame by click-fix nylon location brackets. Back panels fixed to steel section by metal brackets.

### 90° linear-bearing hinge™

Manufactured from zinc plated steel with chrome plated rivets and black glass filled nylon linear-bearing, set at fixed height of 1950mm.

### Panel lock

Manufactured from stainless steel with a polished finish in set positions.

# Technical Specifying Vepps

# Secrets of Vepps

## 1. Venesta linear-bearing hinge™

Our precision engineered, high strength linear-bearing hinges and panel support ratchets offer smooth movement and allow panels to be positioned at 10 different heights, all without any gaps between panels.

Patent approved.

## 2. Venesta dowel-dock

Designed for strength and perfect panel alignment, our dowel-dock system ensures panels return to their correct position every time.

Patent approved.

## 3. Tie backs

Adjustable zinc plated steel tie backs offer a bracing system for improved stability and allow for easier, speedier installation.

## 4. Baserail

Designed in a smooth, modern light Grey powder coated aluminium finish, the Vepps baserail, ensures compatibility with all cubicle ranges and washroom designs.

## 5. Panel lock

We understand the need for added safety without compromised aesthetics. In stainless steel with a tamper proof security key opening, our panel locks are discreet and ensure maximum security.

## 6. Wall hung WC carrier

Our wall hung WC carrier is made from virtually indestructible Solid Grade Laminate. It simply locates into the baserail and is fixed back to the building structure without the need for floor bolts. The assembly has been load tested to 400kgs and complies with BSEN 997.

## 7. Fittings

We understand the need for products that last. That's why all of our metal components are non-ferrous or coated to protect against rusting and corrosion.

## Case study Tudor Grange Academy

**“To meet the rigorous demands of this type of environment, all facilities in our Academy have to be robust, efficient and fit for purpose. Centurion has fulfilled these requirements, and has given an excellent finished appearance in all washroom areas.”**

Graham Turner, Facilities Manager, Tudor Grange Academy.

Tudor Grange in Solihull is a mixed academy, catering for 11-16 year olds, formed in 1974 from the combination of well established boys' and girls' grammar schools on the same site.

The academy has a reputation for excellence and academic achievement and is popular with parents and students alike. In fact, it's always over subscribed. When it came to refurbishment, Facilities Manager, Graham Turner, was looking for a highly robust, high specification cubicle that would be able to withstand the many rigours of this large and busy academy.

Solihull Council, having specified Venesta in the past, chose our Centurion range for the six male and female toilet facilities situated throughout the campus.

Centurion combines strength and rigidity with wall channels and pilasters that extend to the floor, obviating the need for pedestals. This gave the academy the long-lasting quality that they were looking for.

**Read the full case study at [www.venesta.co.uk](http://www.venesta.co.uk)**

**Frameduct** is our made to measure, ready to install metal-framed non-plumbed system. It has all the cutting edge features you need but gives you the flexibility to choose your own sanitaryware.

# Frameduct Easy installation

Frameduct's superbly crafted, metal-framed panelling has been created to give you quick and easy installation. Its clever click-fix mechanism is simplicity itself. Not only that, Frameduct gives you the opportunity to choose your own sanitaryware.

- 01** Once the site has been prepared, fix the aluminium docking frame to the wall, ceiling and floor.

 20 minute installation

- 02** Click-fix the first Frameduct unit onto the frame and slide into position. Open the mid panel to a fully hinged position. Attach a vertical flashgap to the frame on either side of the unit, screw-fixing to the frame from the face. Fix tie back to the wall. Repeat until all units are in place.

 30 minute installation

- 03** Drill or cut out for sanitaryware.

 10 minute installation

## You need easy installation.

Frameduct brings you an intelligent, great looking system that's easy to install but with an added bonus - you get to choose your own sanitaryware.

**04** Mount sanitaryware and brassware.

 20 minute installation

**05** Once all the units are in position, connect the plumbing and services and apply silicone sealant to sanitaryware.

 10 minute installation\*

**06** Simply close the hinged panel and attach the top and bottom panels of the units. Installation is complete.

 5 minute installation

**Rapiduct** is a low-cost bespoke duct panelling system specially created by our panelling experts to give you easy installation and a functional finish, perfect for any wet or dry washroom environment.

# Rapiduct Easy installation

The best value for function, finish and easy installation, Rapiduct's clever construction means it can be put together in the shortest time.

**01** Install timber-frame (supplied by others).

 30 minute installation

**02** Fit base flashgaps to the site frame followed by vertical, horizontal and top flashgaps.

 20 minute installation

**03** Attach fixing clips to the inside edge of the vertical flashgaps, repeat process on back face of panels.

 30 minute installation

## You need easy installation.

Simple, functional and highly cost-effective, this timber-framed panelling system is flexible enough to suit any washroom and is designed for your own installation. You can specify Rapiduct with any Venesta cubicle or vanity system.

**04** Drill or cut out for sanitaryware.

 10 minute installation

**05** Mount combined panel, sanitaryware and brassware onto flashgaps before completing pipework.

 20 minute installation

**06** Once all the units are in position, connect the plumbing and services.

 10 minute installation\*

**07** Simply attach the top and bottom panels to the units. Installation complete.

 5 minute installation

# Vanities accessories

**We know vanities  
and accessories.**

To meet your demands,  
our range of vanities and  
accessories bring form  
and function together in  
one extraordinary collection.

es and  
sories

**Vanities** At Venesta, we've created a vanities collection that's contemporary in style and highly functional. Whether you're looking to create a prestigious, luxury finish or something simple and understated, the Venesta collection has everything you need.

# Vanities Granite

Step into the rare and distinctive world of natural stone with Granite. The perfect solution for your most exclusive and prestigious design solutions, Granite comes with a choice of basins and brassware.

## Key features

Granite offers exclusivity and individuality

Choice of seven finishes

Extremely durable and hardwearing

A choice of designer basins and brassware

**01** Granite vanity in Ivory Pink with Cherwell basins and Jasper Morrison mixer taps.

**02** Granite vanity in Emerald Pearl with Jasper Morrison vessel basins and Jasper Morrison mixer taps.

**Main image**  
Granite vanity in African Black with Concept semi-recessed basin and Silver monoblock mixer taps.

To view the range of Granite vanity profiles please turn to p211.

## Vanities Quartz

Dramatic and durable - that's Quartz. This natural finish vanity surface combines the high-class look and feel of natural quartz with a resin composite for maximum durability. In short, a fabulous choice for maximum impact.

### Key features

- Natural quartz with resin composite for maximum durability
- Stunning visual impact
- Choice of eight finishes
- Available with complementary basins and cantilever support brackets

**01** Quartz vanity in Grey with Jasper Morrison vessel basin and Jasper Morrison mixer tap.

**02** Quartz vanity in Astro Black with Marlow basins and Jasper Morrison mixer taps.

# Accessories

Contemporary designs that do the job perfectly - that's our accessory range. To make your life easier, we have everything from soap dispensers to bins and door signs to coat hooks. It's all here ready for your selection.

#### Liquid soap dispenser

White metal

Wall mounted white metal liquid soap dispenser with key lock and 900ml refillable reservoir.

H251 x W108 x D91mm

**Code: 0302521**

#### Liquid soap dispenser

Stainless steel

Wall mounted stainless steel liquid soap dispenser with brushed satin finish, key lock and 900ml refillable reservoir.

H251 x W108 x D91mm

**Code: 0302525**

#### Liquid soap dispenser

Grey plastic

Wall mounted dispenser for liquid soap with with Grey ABS case and stainless steel cover with 900ml refillable reservoir.

H255 x W130 x D120mm

**Code: 0302513**

#### Foam soap dispenser

Grey plastic

Wall mounted dispenser for foam soap with with Grey ABS case and stainless steel cover with 900ml refillable reservoir.

H255 x W130 x D120mm

**Code: 0302514**

#### Liquid soap dispenser

White plastic

Wall mounted dispenser for liquid soap with white ABS case and 900ml refillable reservoir.

H250 x W115 x D115mm

**Code: 0302540**

#### Liquid soap dispenser

Polished chrome

Basin or vanity mounted liquid soap dispenser with polished chrome finish and 900ml refillable soap bottle.

H85 x Ø44 x L140mm

**Code: 0302532**

#### Under mounted basin liquid soap dispenser

Polished chrome

Polished chrome liquid soap dispenser with 500ml soap bottle for basins mounted under vanity top.

H60 x W105 x Ø50mm

**Code: 0302014**

#### Top mounted basin liquid soap dispenser

Polished chrome

Polished chrome liquid soap dispenser with 500ml soap bottle and spacer ring for basins mounted on vanity top.

H80 x W105 x Ø50mm

**Code: 0302015**

#### Duct wall soap dispenser

Polished chrome

Duct wall push button liquid soap dispenser with polished chrome finish.

W125 x Ø50mm x Ø25mm

**Code: 0362006**

#### Cylindrical liquid soap dispenser

Stainless steel

Wall mounted stainless steel cylindrical soap dispenser with brushed satin finish.

H193 x Ø63 x D88mm

**Code: 0302508**

#### Plastic multi-feed soap dispensing system

Multi-feed liquid soap dispenser for use with basin/vanity top, vessel basin or duct wall mounted soap dispensers with 5 litre refillable soap bottle.

H283 x W190 x D130mm

**Code: 0362007**

#### Toilet seat sanitiser

Stainless steel

A compact sanitiser unit with a high quality brushed stainless steel finish.

H196 x W98 x D97mm

**Code: 0302501**

#### Paper towel dispenser

White plastic

Wall mounted white ABS towel dispenser for C-fold or interfold paper towels.

H425 x W290 x D145mm

**Code: 0302537**

#### Paper towel dispenser

White metal

Wall mounted white metal paper towel dispenser for C-fold or interfold towels with white powder coated finish and key lock.

H300 x W262 x D128mm

**Code: 0302522**

#### Paper towel dispenser

Stainless steel

Wall mounted stainless steel paper towel dispenser for C-fold or interfold towels with brushed satin finish and key lock.

H300 x W262 x D128mm

**Code: 0302526**

#### Paper towel dispenser

Black plastic

Wall mounted towel dispenser for C-fold or interfold paper towels made from Black ABS with stainless steel cover.

H325 x W325 x D150mm

**Code: 0302519**

# Accessories

## Behind mirror paper towel dispenser

Stainless steel

Stainless steel paper towel dispenser mounted behind mirror with hinged dispensing flaps for interfold towels. H464 x W292 x D107mm

**Code: 0302531**

## Elite paper towel dispenser

Stainless steel

Recessed mounted dispenser for C-fold or interfold paper towels with brushed satin stainless steel door and key lock. H510 x W340 x D118mm

**Code: 0302045**

## Elite paper towel waste bin

Stainless steel

Recessed mounted stainless steel paper towel waste bin with brushed satin finish, door latch and integral plastic liner. H835 x W340 x D118mm

**Code: 0302046**

## Paper towel 50 litre waste bin

Stainless steel

Floor standing stainless steel paper towel waste bin without lid. H602 x W301 x D301mm

**Code: 0302529**

## Paper towel 30 litre waste bin

Stainless steel

Stainless steel paper towel waste bin with brushed satin finish, bag holder and wall fixings. H527 x W344 x D161mm

**Code: 0302528**

## Lockable toilet roll holder

Stainless steel  
Stainless steel, self adhesive  
Disabled WC door sign.  
Ø76mm

**Code: 0302506**

# We know our responsibility.

## Your world is our world. At Venesta, we treat the environment the way we treat our customers, with care and commitment.

### Managing our waste

#### Targeting zero waste

Waste is an inevitable part of any manufacturing process, but there are ways to ensure it doesn't become an environmental headache. In 2016 we set ourselves a challenge to reduce and if possible, totally eliminate our waste.

We are incredibly proud to say that in 2019 we became the first UK washroom manufacturer to achieve our target of 0% board waste to landfill.

A £1M investment into a new, state-of-the-art 1.75MW biomass burner has enabled us to eliminate MDF and HPL board waste; our smaller burner incinerates non-biomass waste like Solid Grade Laminate.

The cost of energy and the issue of carbon emissions are high on our environmental agenda and we are continually searching for ways to reduce energy consumption. Our biomass facility generates enough renewable energy to independently heat our entire manufacturing facility and office buildings.

We know our responsibility and Venesta is totally committed to making a positive impact on the environment. We treat the environment the way we treat our customers, with care and commitment.

### FSC® certification

#### Take care of the forest

As our customer, you can be confident that our materials and products have been checked at every stage of processing to ensure we are sourcing from sustainable and ethical sources.

We only purchase wood-based panel products from suppliers who are independently certified from either FSC (Forest Stewardship Council) or PEFC (Programme for the Endorsement of Forest Certification).

Our V3 Veneer range is FSC MIX certified with a full chain of custody available for our customers.

Laminate product materials are supplied to us as an FSC accredited product under 'FSC Controlled Wood'. Certificates are available to our customers upon request to demonstrate this.

Learn about our biomass burner which has helped us achieve 0% board waste to landfill by visiting our YouTube channel.

### Reducing our travel

#### Decreasing carbon emissions

As part of our ongoing commitment to improve our carbon footprint, we've tasked ourselves with reducing employees' travelling time. All staff are encouraged to use public transport wherever possible and we've installed video conferencing facilities on all of our sites to allow meetings to be held without the need for travel.

The mark of  
responsible forestry  
FSC® C137315

#### 01-02 Waste management

Biomass burner turns production waste into factory and office heating.

#### 03 Recycling

Wherever possible, all off-cuts are worked back into production for smaller product components.

#### 04 Boilers

Our biomass burner has helped us achieve our 0% waste to landfill target.

#### 05 Efficiency

Robotic handling systems ensure maximum board utilisation is achieved.

# We know washrooms. Your partner, every step of the way.

Venesta is passionate about ensuring you get the very best product and service, whatever the size of the project. That's why, from your first enquiry through to installation and beyond, you'll have a team of talented and committed experts working tirelessly to ensure you're happy and satisfied.

At Venesta, we believe it's our people that make the real difference to our business success. Everyone is an expert in their field, from our highly creative CAD team to our efficient and responsive Project Managers and our dedicated manufacturing team. Their experience and professionalism is what underpins the quality of our customer relationships.

## How can we help you?
