## BS 8607:2014

### Mechanically operated push-button locksets - Requirements and test methods

Keylex Digital Locks are the first mechanical digital locks to achieve accreditation to BS 8607:2014. Keylex 2100 and Keylex 800 models have independent test reports stating that they have met the GVA requirements and are accredited to level 3.

The [Keylex 2100](#) and [Keylex 800](#) models have independent test reports stating that they have met the GVA requirements and are accredited to level 3.

### Keylex 2100 Series w. Mortice Double Throw Deadlocking Latch

Use the Keylex 2100 series on all heavy duty, high security external door installations and on any door where heavy traffic or extreme use and abuse can be expected. This includes all military, police and fire service installations. The proven heavy duty design, with its built-in clutch mechanism protecting the lock furniture, will withstand all but the most violent attack and can be expected to give many years' service if specified and maintained correctly.

Certification applies to:

K2100K.76 Keylex Mechanical Digital Lock (Knobs) - 76mm Backset  
Substitute 76mm Backset with 60mm Backset where necessary.

### Keylex 800 Series w. Mortice Double Throw Deadlocking Latch

Use the Keylex 800 series on all standard duty, medium security internal door installations. Always choose the [K2100K](#) option for military, police and fire service installations. The narrow stile Keylex 800 design, with its built-in clutch mechanism protecting the lock furniture, will suit all clear stile widths down to 80mm and is particularly suited for use on timber and composite doors. The Keylex 800 can be expected to give many years' service if specified and maintained correctly.
