

PDL.26D.15

[Pemko - PDL Privacy Door Latch](#)

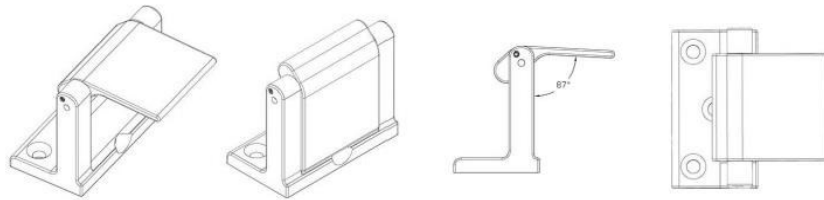

Privacy Door Latch. US26D/US15 Satin Chrome/Satin Nickel

Increase Privacy, Reduce Door and Frame Damage

The Pemko Privacy Door Latch (PDL) is recommended for environments with corridor to interior openings such as hotels or dormitories. This durable accessory allows the door to be opened for identification while providing privacy for the guest or resident. The design of the PDL does not allow the door to be held open, avoiding door and frame damage caused by the door slamming against a traditional flip latch or chain. The PDL's silicone pads provide additional protection for the door.

Applications

- Hospitality/Hotel Bedrooms
- University Accommodation
- Military Barracks
- Apartments
- NHS/Private Sector Hospitals
- Private Residences

Allows for positive visitor identification - The PDL cannot be used to hold the door open and does not interfere with proper door operation.
