

Emergency Assist Alarm Kits

Peace of mind with Timeguard's new Emergency Assist alarm systems.

Timeguard has introduced a range of slimline Emergency Assist product kits specifically designed for simple installation in areas where an emergency call for assistance may be required. Kits and accessories are available in white plastic or stainless steel finishes with optional battery back-up versions. Ideal for the home, shop conversions and small businesses where assistance may be required in WC areas, changing rooms, bedrooms etc.

Emergency Assist products comply with BSEN 60065:2002. They can be used to help comply with BS8300, Care Standards Act, the Disability Act and the English Tourism Council's National Accessibility scheme.

Emergency Assist Alarm Kits

Timeguard has introduced a range of slimline Emergency Assist products specifically designed for simple installation in areas where an emergency call for assistance may be required.

Single zone control panel kits are available for the home, shop conversions and small businesses where assistance may be required in WC areas, changing rooms, bedrooms etc. Emergency Assist is also available with a 4 zone control panel for larger multi-point installations such as residential homes, leisure centres and large commercial buildings.

Emergency Assist kits and accessories are available in plastic or stainless steel finishes and with 2 wire connection between control panel, pull cord, reset button

and overhead door alert flasher, installation couldn't be simpler making it a must have for new installations and existing conversions.

Optional battery back-up kits are also available in the event of a power failure giving the user typically a 4 day back-up in standby mode and 2 hours back-up in a continuous alarm condition.

Emergency Assist products comply with BSEN 60065:2002 and are supplied in kits or individual components to help build the installation you require. They can be used to help comply with BS8300, Care Standards Act, the Disability Act and the English Tourism Council's National Accessibility Scheme.

Typical Areas For Installation

Bedrooms

Hospitals

WCs

Lone Workers & Workshops

Emergency Assist Alarm Kits

Emergency Assist Alarm System Kit - Single Zone consists of:

- 1 x EACP1 - Single Zone Control Panel - 2 gang.
- 1 x EARB1 - Reset Button - single gang.
