# Weathersafe® & Weathersafe® Extreme VISION

Same Performance ... Clearly Different

Extreme  
Solid Ribbed  
Cover For  
Extra  
Strength

This innovative range of outdoor power sockets and switches offer IP66 protection against the elements of dust and rain, splashing water, hose directed water and ice formations and are therefore more than equal to UK weather conditions. The tough impact resistant polycarbonate housing means you can expect years of good service from even the toughest environments where the occasional impact is only to be expected.

Designed with safety and security in mind Weathersafe outdoor power products are the safest way to take and use power outside with IP66 lid closure protecting the user.

WXT201 illustrated

TGV201 illustrated

A lockable cover facility also allows the user to secure the lid to ensure that only authorised users have access to power, which in these days of rising fuel prices and levies, is no minor concern. All fixing screws are located behind the lockable cover for extra safety and security.

Take a look at our full range and whether you choose from Extreme or Vision, Timeguard is the ideal choice for all outdoor power solutions.

Switched RCD  
Sockets

These two ranges, each with their unique characteristics make the use of outdoor power simple. There is simply no more need to trail an outdoor cable through to an indoor socket, leaving a door or window open. When using various garden equipment it is just a simple matter of opening the lid, unplugging one piece of equipment and replacing it with another – use the double gang versions and you don't even need to do that. Remember... **there's no more need for that indoor lead!**

WXT101

## WXT101 Weathersafe Extreme Single Gang 13A Switched Socket

## TGV101 Weathersafe Vision Single Gang 13A Switched Socket

The safest way to take power outdoors. There is no need for running extension cables outside as it features a fully IP66 weatherproof casing.

The WXT101 features an impact resistant solid ribbed lid.

The TGV101 has a see-through clear plastic cover and a highly visible power ON indicator. It can be safely used with the lid closed, keeping you fully aware of the power status to appliances.

TGV101

- Weathersafe 'Extreme' impact resistant solid ribbed lid.
- Weathersafe 'Vision' see-through clear plastic cover.
- Single gang switched socket – suitable for all 13 amp BS plugs.
- Lockable cover facility.
- Impact resistant housing.
- Easy release lid catch.
- Multiple 20mm knock outs.
- Power 'ON' neon indicator showing switch status.
- Spacious design allowing full closure of lid with plug in position.
- Complies with BS1363.
- IP66 weatherproof rating.

WXT103

TGV103

WXT104

## WXT104 Weathersafe Extreme Single Gang 13A RCD Fused Spur

## TGV104 Weathersafe Vision Single Gang 13A RCD Fused Spur

Weathersafe RCD Fused Spurs give additional protection against electric shocks and fire risk. These units will remain latched if the power supply is tripped.

TGV104

- Weathersafe 'Extreme' impact resistant solid ribbed lid.
- Weathersafe 'Vision' see-through clear plastic cover.
- Extra fast action – trips out within 40 milliseconds (BS7288).
- Contacts remain latched when power supply is temporarily lost.
- Test and reset buttons for safety checks.
- Status flag indicator.
- Complies with BS7288 and BS1363.
- IP66 weatherproof rating.

## WXT103 Weathersafe Extreme Single Gang 13A Fused Spur

## TGV103 Weathersafe Vision Single Gang 13A Fused Spur

Weathersafe Fused Spurs to control pond pumps, fountains and other permanent outdoor installations. As well as an ON/OFF switch they are fitted with a 13A fuse link and comply with BS1363.

- Weathersafe 'Extreme' impact resistant solid ribbed lid.
- Weathersafe 'Vision' see-through clear plastic cover.
- Fitted with 13A fuse link.
- Power 'ON' neon indicator showing switch status.
- Easy release lid catch.
- Lockable cover facility.
- Complies with BS1363.
- IP66 weatherproof rating.

TGV201

## WXT201 Weathersafe Extreme Twin Gang 13A Switched Socket

## TGV201 Weathersafe Vision Twin Gang 13A Switched Socket

Weathersafe Twin Gang Switched Sockets share all the features and benefits of the single gang sockets (WXT101 and TGV101) plus they have two switched sockets, with individual power ON indicators.

- Weathersafe 'Extreme' impact resistant solid ribbed lid.
- Weathersafe 'Vision' see-through clear plastic cover.
- Twin gang switched socket – suitable for all 13 amp BS plugs.
- Lockable cover facility.
- Impact resistant housing.
- Easy release lid catch.
- Multiple 20mm knock outs.
- Power 'ON' neon indicator showing switch status.
- Spacious design allowing full closure of lid with plug in position.
- Complies with BS1363.
- IP66 weatherproof rating.

WXT203

TGV203

## WXT203 Weathersafe Extreme Twin Gang 13A Timer & Socket

## TGV203 Weathersafe Vision Twin Gang 13A Timer & Socket

Combines a single 13A outlet with a 24 hour segment timer for energy saving control of outdoor features such as fountains and garden lighting.

- Weathersafe 'Extreme' impact resistant solid ribbed lid.
- Weathersafe 'Vision' see-through clear plastic cover.
- 24 hour timer switches ON and OFF at preset times.
- Segment setting dial with 15 minute switching interval.
- Up to 48 ON & OFF programmes daily.
- Manual override.
- Easy release lid catch.
- Lockable cover facility.
- Spacious design allowing full closure of lid with plug in position.
- Suitable for all 13 amp BS plugs.
- Complies with BS1363.
- IP66 weatherproof rating.

WXT204/WXT205

TGV204/TGV205

## WXT204 Weathersafe Extreme Twin Gang 13A Switched RCD Socket (Passive)

## TGV204 Weathersafe Vision Twin Gang 13A Switched RCD Socket (Passive)

Weathersafe Switched RCD Sockets give additional protection against the risk of electric shocks at home and in the garden.

- Weathersafe 'Extreme' impact resistant solid ribbed lid.
- Weathersafe 'Vision' see-through clear plastic cover.
- Extra fast action – trips out within 40 milliseconds (BS7288).
- Contacts remain latched when power supply is temporarily lost.
- Test and Reset buttons for safety checks.
- Status flag indicator.
- Complies with BS7288 and BS1363.
- IP66 weatherproof rating.

## WXT205 Weathersafe Extreme Twin Gang 13A Switched RCD Socket (Active)

## TGV205 Weathersafe Vision Twin Gang 13A Switched RCD Socket (Active)

Share all the features of the WXT204/TGV204 but **contacts break when power supply is temporarily lost.**

TGVL01/TGVL03/TGVL05

## TGVL01 Weathersafe Extreme Single Gang 2-Way Switch (SP)

- 10AX (fluorescent rated).
- Backlit neon illuminates switch for dark areas.
- Complies with BSEN60669.
- Multiple 20mm knock outs.
- IP66 weatherproof rating.

## TGVL03 Weathersafe Extreme Single Gang Bell Push Switch (SP)

- 10AX (fluorescent rated).

## TGVL05 Weathersafe Extreme Single Gang 2-Way Switch (DP)

- 20AX (fluorescent rated).
