

CLEARlight

Simply the strongest entrance canopies with extra design options

Setting the Standards

CLEARlight

Self-supported floating effect canopies

What if you could meet planning requirements without compromising on design? Squeeze much more from your budget. Discover lightweight products that are unbelievably strong and built to last. If you could ensure fabrication to ISO standards, too... you'd have something special up your sleeve.

Flat, arched or lean-to styles, **CLEARlight's** polycarbonate roof is specially engineered to withstand all types of dead loads. Our portfolio of contemporary styles and finishes afford you real design flexibility. Requiring just one person, **CLEARlight** installation is so simple there's little room for error – meaning perfect aesthetics and long-term safety.

- ▀ All component parts are hand-checked for quality
- ▀ Powder coated mild steel frame for rust prevention
- ▀ No maintenance costs for CDM regulations ensuring long-term safety
- ▀ Engineered to withstand any building requirements
- ▀ 4-step installation, dry fit and easy handling
- ▀ One person installation. No specialist trades or supervision required

Robust, Shatter-proof, UV stable.

CLEARlight simple one person, 4-step installation

CLEARlight ideal for domestic use

Need something bigger?

Extra-large canopies are available with all the unrivalled benefits of our standard-sized models. For commercial or domestic application, you can specify canopies up to 3 metres long, with a 1 metre projection. If you need something bigger still, we'll engineer a giant canopy that's perfect for your project.

Call to specify extra-large canopies: +44 1827 311100

Modern factory with highly skilled technicians and cutting-edge fabrication. Including over half a million square feet of manufacturing capacity.

Regional support and on-site training

Technical Advisors are on-hand for comprehensive support that doesn't end once you've signed the cheque. Our people can be on-site within 48hrs to help overcome any challenges and to train your team in correct product installation (for speed, safety and waste reduction). From specification and ordering, to installation and beyond, you can draw on our specialist experience since 1985.

Production capacity and tracked delivery

No matter how big or small your order, we have the capacity to produce the volume you need to ISO standards. Ensuring that products are delivered to your building schedule is paramount - our fleet of tracked-vehicles are charged with the task and can meet your exact delivery requirements.

In-house Architects to share the workload

Work with our in-house Architects early in the design process to allow you to focus where you're needed. We'll supply detailed CAD drawings for your convenience, as well as all documents to support your planning application.

Doing the right things and doing things right:

- /// Special colour options
- /// Flat, Arched and Lean-to
- /// ISO 14001 Environmental Management Systems
- /// ISO 9001 Management Systems
- /// Made in the United Kingdom
- /// Includes all fittings and template

Simply the strongest entrance canopies with extra design options

CLEARlight
