

DORMERS

Simply the easiest and safest dormer to install

GRP DORMERS

Pre-tiled, lightweight and safe

What if you could guard against the dangers of falling from height by eliminating weight and scaffolding? Truly rely on regulated fabrication to ISO standards and more. Choose products that are preferred on-site and environmentally responsible.... you'd keep everyone happy, finally.

The **StormKing Dormer** is an all-in-one solution that cuts costs without compromising quality. Extra specialist engineering goes into each dormer's inner structural support, so you can rely on a safe and sound product that still boasts a refined profile.

- BBA certified for full testing and auditing to ISO standards
- All flashings and lead apron incorporated into **StormKing Dormers**
- Easy handling and one-lift site installation
- No need for independent scaffolding
- Properly structured internal framework for solid stability
- Anti-cold bridging, fully compliant insulation
- Consistently perfect aesthetics, to the last detail

NEW! WARMA Dormer meets higher thermal requirements

Enhanced insulation enables you to meet requirements for higher code level developments.

Our in-house architects will supply all bespoke designs, as well as independent 'U' and Psi values for your assessments and certificates. Plus, WARMA Dormers still look great - despite the added insulation materials, WARMA Dormers maintain the same slim profile as any standard dormer.

Once fitted are virtually maintenance free

Regional support and on-site training

Technical Advisors are on-hand for friendly support that doesn't end once you've signed the cheque. Our people can be on-site within 48 hours to train your team in correct product installation (for speed, safety and waste reduction). From specification and ordering to installation and beyond, you're welcome to draw on our specialist experience.

In-house Architects to share the workload

Work with our in-house architects early in the design process to allow you to focus where you're needed. We'll supply detailed CAD drawings for your convenience, as well as all documents to support your specification and planning application.

Production capacity and tracked delivery

No matter how big or small your order, we have the capacity to produce the volume you need, to ISO standards. Ensuring that products are delivered to your building schedule is paramount, and our fleet of tracked-vehicles are primed to meet your exact delivery requirements.

STORM KING

Doing the right things and doing things right:
