

# The Conservation Rooflight® - Protecting our nation's heritage

A RIBA Approved CPD Seminar from the Rooflight Company.

## A brand new CPD Seminar from the Rooflight Company.

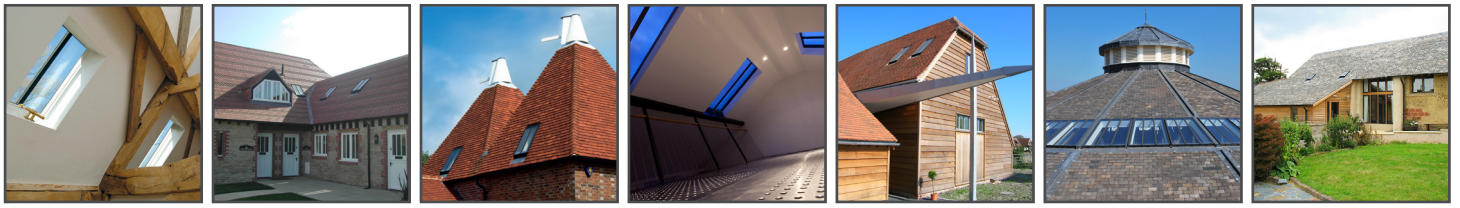

Designed for those who believe in the importance of preserving the nations heritage buildings with materials that are in context with the original architectural design.

A one hour programme including Q&A which can be presented at your premises at a time in the day to suit your schedules\*

CPD Delegate packs and RIBA approved attendance certificates are provided to all attendees.

\*Minimum delagete numbers apply so please call us for details.

## Who should attend?

- Architects
- Architectural Technicians
- Conservation & Planning Officers
- Those responsible for specifying rooflighting products
- Those concerned with the external and internal aesthetics of buildings
- Those who believe architectural design and interventions should be in context

The aims and outcomes of the seminar are summarised as follows:

## Aims

- Understand our heritage buildings and their importance
- Improve knowledge of conservation rooflights

## Learning Outcomes

- Understand the modern conservation rooflight
- Understand Planning and Conservation Officers needs
- Identify which rooflight design is an appropriate solution for your project
