

## Wheelchair-accessible unisex toilets design considerations

Wheelchair users should be able to approach, transfer to, and use the sanitary facilities provided within a building. This requires the provision of a wheelchair-accessible unisex toilet. The relationship of the WC to the finger rinse basin and other accessories should allow a person to wash and dry hands while seated on the WC.

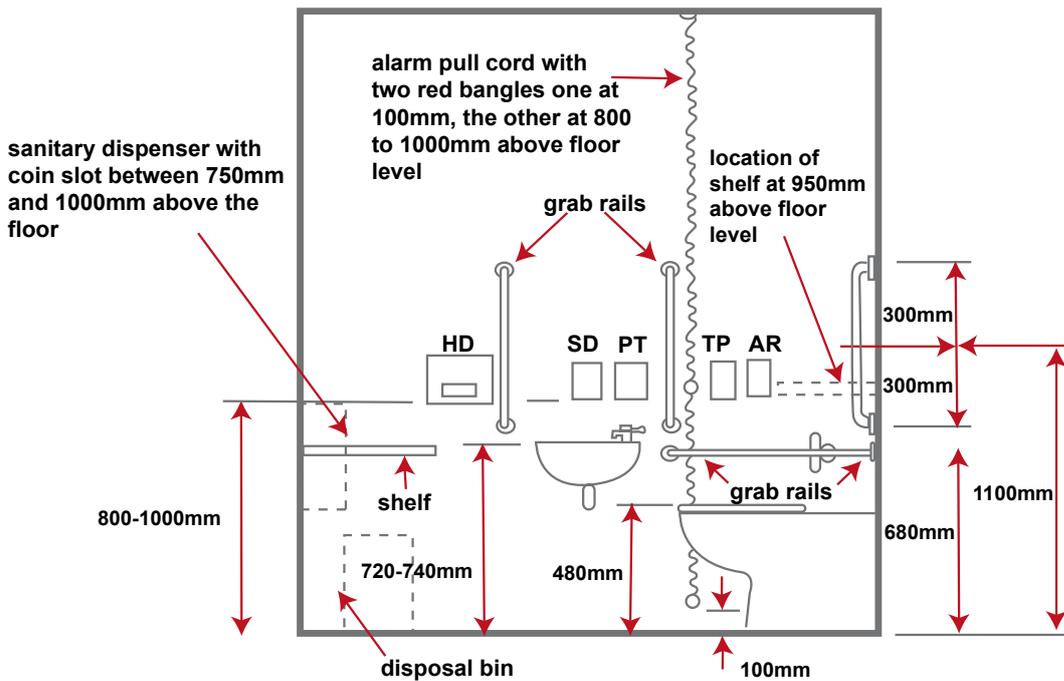

The space provided for manoeuvring, should enable wheelchair users to adopt various transfer techniques that allow independent or assisted use.

# Typical Doc M Layout

NOTE:  
Layout for right hand transfer to WC

HD: Position for automatic hand drier  
 SD: Soap dispenser  
 PT: Paper towel dispenser  
 AR: Alarm reset button  
 TP: Toilet paper dispenser

## Further Doc M Product Information

**Option 1 & 2** : fully compliant to BS8300:2009 guidelines for a unisex accessible WC

**2 Tap hole wall mounted finger rinse basin** to allow a mixer tap to be fitted left or right handed and without plug

**Thermostatic sequential mixer tap** TMV3 approved to prevent scalding. The thermostat is within the mixer (not separate as with other suppliers) which reduces the risk of legionella bacteria forming between separate parts

**Easy operational flush handle** for flushing with elbow or hand in a non-reflective stain chrome finish and can be fitted left or right handed. Full and half flush operation for water saving to EN 997

**Raised height WC** set at 460mm high for wheel chair access with 4 fixing points to the floor

**Ergonomic toilet seat with lid** with metal hinges and lugs to secure pan suitable for side transfer. Available in high visibility blue for users with impaired vision in some Doc M options

**Cistern** with screw down lid for security and safety

**Natural grip grab rails** - 4 x 600mm long with concealed fixings (tested up to 190kg / 33 stone weight). Available in high visibility blue for users with impaired vision in some Doc M options

**Fold up grab rail** - tested to 190kg / 33 stone weight. Available in high visibility blue for users with impaired vision in some Doc M options

**Liquid soap dispenser** with high contrast extended lever for elbow or closed fist operation

**Hand dryer** – 2kW with a heavy duty steel cover and a white powder coated finish

**Large paper towel dispenser** - uses standard size towels

**Toilet tissue dispenser** with contrasting colours uses standard tissue

**Large white polypropylene shelf** 530mm wide x 230mm deep with rounded edges and a hole for drainage. Shelf can be easily removed for cleaning

**Small white polypropylene shelf** 215mm wide x 185mm deep with rounded edges and a hole for drainage. Shelf can be easily removed for cleaning

**Alarm and pull cord** to CE requirements 90dbA, mains fed and easy to install

**Clothes hooks** - blue for colour contrast. Can be easily removed for cleaning

**Swing bin** in grey plastic with contrasting blue swing top

**Heavy duty padded back rest** to aid side transfer, made from PU foam for easy cleaning. Available in grey or blue for visually impaired in some Doc M options

Because we operate a constant improvement policy our products are subject to change without notice
