

BEAUTIFUL SHOWERING

by

AKW®

Since 1982, we have strived to push the boundaries of design whilst ensuring quality craftsmanship, great value, and unrivalled customer service, and I am proud to say that we have done so with overwhelming success.

Beautiful Showering by AKW is a celebration of everything we have managed to achieve since our founding nearly four decades ago, and expertly showcases how the right bathroom can turn a house into a home.

Following the triumphant launch of our very first collection of contemporary steel baths, **Beautiful Bathrooms**, we are keen to continue promoting not only the importance of functionality and safety, but also the invaluable impact that intelligently designed, beautiful spaces have on our well-being.

We believe that everyone deserves to love the place they call home, no matter their needs, space or budget, and so I do hope you enjoy browsing our latest collection, it was a joy to curate and is our pleasure to share with you.

A BATHROOM FOR LIFE

HERE FOR YOU

PRODUCT CODES

WELCOME TO **BEAUTIFUL SHOWERING**

Quite simply, a bathroom should do two things: enhance quality of life and promote positive well-being. With over 35 years' experience, we know that this can be quickly and easily achieved when a space is designed with both functionality and aesthetic in mind.

An invigorating shower is the perfect way to refresh and feel renewed; it is an opportunity to steal a moment to unwind and recharge. A bathroom should be a sanctuary, somewhere you can relax with dignity, a quiet place to exercise some well-deserved self-care.

With these ideals in mind, we are proud to share with you Beautiful Showering, a collection of intelligently designed and curated bathroom products from AKW that will inspire the imagination, change perceptions, and help bring your vision to life.

Select from our range of contemporary and safe shower trays and wet room formers, then complete your new suite with a choice of stylish brassware, glass screens, electric and mixer showers, fitted furniture, safety flooring, wall panels and tiles, mobility aids and accessories.

We are here to help you create a home to be proud of.

OUR STORY

The AKW story began in 1982 after one of our founders had been trying to find a shower tray to meet his mother's needs without success. In frustration, he produced and patented one of his own design. Since then, AKW has become an international business and the UK's leading manufacturer of accessible bathrooms, kitchens, and daily living products.

Today, we are still driven by the same principles on which the business was founded; to support independent living and develop superior products that are practical, safe, beautifully designed and improve quality of life.

We are proud of our heritage, with *care* and *family* threads that still run through our ethos today; caring for our customers and achieving a family feel throughout our business. The products within in this brochure have been carefully chosen and lovingly designed by us, for you, to underpin the principles we have been striving to achieve for over 35 years; from our family to yours.

QUALITY YOU CAN TRUST

At AKW, we pride ourselves on being able to deliver high-quality, beautiful products, many of which come with a 'made for life' guarantee.

As a company, we are constantly striving to evolve, and as such, we take great care when producing concepts and designs, selecting materials, and working with our network of responsible suppliers to create innovative and stylish solutions.

Life made better is more than just a slogan, it is our mantra, our motivation and it runs through the heart of everything we do, from design to delivery and beyond, which is why we aim to provide exceptional service, from beginning to end.

Our focus on *care and family* means that we take a personable, yet professional approach with all our customers; our dedicated Customer Service colleagues are here to offer assistance and peace of mind, with our Technical Support team who benefit from decades of experience, available to guide and support you during and after installation.

We are here to help and ready to join you on this exciting journey.

A SOLUTION FOR EVERY SPACE

As experienced designers and innovators, we are always thinking of the next step, of ways to create new and exciting solutions that make life better.

We are heavily influenced by current trends and take inspiration from the world around us; we conduct research, engage with, and listen to our customers to ensure we can offer products that help you love your home, no matter its size, your requirements or budget.

AKW was founded upon the need to provide a cost-effective, smart solution to improve quality of life, this still rings true today and drives us when developing aspirational concepts.

We are passionate about proving that you can and should have a bathroom that is not only perfectly tailored to you and your family's physical needs, but you emotional well-being too.

Our wide range of durable, stylish yet affordable fixtures and fittings not only help to maximise your space and offer solutions to daily challenges, but also reflect your personal taste without breaking the bank.

Together we can create a bathroom that is as individual as you are.

THE MALVERN

Modelled on the bathroom of a designer's close friend, this contemporary suite showcases how to promote independence and positive well-being, whilst meeting the many different needs of a household.

Our Larenco duo glass screens and TriForm wet room former provide future-proofed, stylish showering for all the family, and are complemented by bold black tiles on the floor and 'White Gloss' ceramic wall tiles finished with anthracite grouting.

A bright white steel bath and Navlin sanitaryware feel right at home here, with our Ergonomic Bidet subtly installed atop the WC to provide dignity for those who require a helping hand.

Airy ashen shades on the walls reflect the limited light effortlessly in this suite, with chrome accents featuring throughout, from the Arka Cool Touch Mixer Shower to the AKW Denova® brassware.

Refreshingly simple, this suite manages to exude cool, with wooden fixtures and earthy textiles adding texture and warmth to this beautiful bathroom.

PAMPAS PARADISE

Paying homage to the Danish concept of Hygge, this suite radiates simplicity and practicality, expertly combining industrial styling and natural-effect materials to create a contemporary yet comfortable space to unwind in.

Create a minimalist showering area with a matt black Level Best glass screen and deflector panel which add contrast whilst complementing the white, slate-effect Onyx tray and chic Origins wall panels in 'White Bonito'.

Cleverly conceal plumbing and gain useful storage in a compact space with fitted furniture, seen here in 'Sorano Oak' with a 'White Gloss' countertop, which blend perfectly within this muted masterpiece.

Finishing off our Scandinavian-inspired interior is stripped parquet flooring, pale yet warm tones on the walls, a modest yet striking mirror, and soft pampas grass which tie this whole suite together.

DOWN TO EARTH

We all know the outside world can be chaotic, but our homes are safe spaces for us to feel grounded, to find peace, to be calm. When designing this suite, we were influenced by the rejuvenating effect bathrooms can have on us and our well-being.

We chose a neutral colour palette to bring warmth whilst ensuring limited natural light can stream in and cleanse the room, with off-white walls, 'Ivory' vinyl flooring, and stone-effect 'Crema Dorsia' tiles with dark down grouting that adorns the alcove enclosure with a delicate finesse.

The Sulby 2 shower tray is ideal for unbreachable floors and works perfectly with our Larenco sliding doors which offer a 'barely there' aesthetic that is the essence of this bathroom.

Built-in fitted furniture in 'White Gloss' with 'Everest' countertops, Navlin sanitaryware and subtle yet homely features finish off this space effortlessly, making it an excellent place to spend some time alone.

INTO THE BLUE

Once upon a time, adapted showering used to mean clinical, nowadays, there is little stopping you from having a beautiful space that is tailored to your individual needs.

This ocean-inspired suite intelligently reflects light to create the illusion of space; the cool aqua walls and delicately decorated Origins wall panels in 'Blue Eiger' perfectly complement our slip-resistant vinyl flooring, seen here in 'Dusk'.

Wet floor showering areas are easily constructed using our innovative Tuff Form8 former and can be finished with a Level Best glass screen that allows light to flood the room.

Livenza Plus sanitaryware along with white and chrome fixtures – including a compact shower seat, grab rail and accessories from our Onyx range – gives this room a polished yet modest aesthetic, proving that mobility aids need not look out of place, they can and should feel at ease in our homes.

Bathrooms are places we all should be able to relax and feel comfortable in, no matter our abilities.

TUFF FORM8™

Beautiful showers are built on solid foundations, like Tuff Form8, our most innovative wet room former to date. With its octagonal waste plate that achieves 15 different positions, Tuff Form8 is easy to install, available in nine sizes and suitable for both wooden and concrete floors. Build a level-access wet floor for use now or install Tuff Form8 beneath a bath to create a bathroom for life.

TRIFORM®

TriForm performs superbly under pressure and looks even better, helping you to create a truly aspirational yet functional showering experience. Offering complete level access, TriForm can be used with a wide range of tiles and finishes. The linear waste design delivers exceptional drainage with a maximum flow rate of up to 78 litres of water per minute.

ONYX TRAY

The Onyx shower tray combines sleek lines with incredible strength, supporting up to 31.5st and offering low profile (just 26mm) or level-access showering. The discreet waste sits almost invisibly on the slate finish, non-slip surface, providing effortless elegance. Available in up to 19 different sizes and three colours, complete the suite with Onyx shower seats, grab rails and bathroom accessories.

ONYX LINEA

With its art deco inspired linear waste, the Onyx Linea shower tray offers superior strength with a maximum capacity of 39st, and contemporary styling with a luxurious stone-effect, non-slip finish. One our shallowest trays at just 26mm, Onyx Linea can be installed above the floor or recessed to enable level-access showering and is available in 16 sizes.

SULBY 2

Designed for easy installation onto unbreachable floors, the Sulby 2 goes where others cannot. This low entry, step-in tray creates a defined showering area and is a very popular solution for housing association properties due to its form and function. Many flexible features make for simple fitting with no excavation needed; the waste is cleverly concealed within the height of the tray, therefore there is no need to breach the floor.

MULLEN®

The Mullen shower tray offers slip-resistant, level-access showering with a unique, patented integrated edging for quick and easy installation. Available in eight sizes and with a maximum capacity of 30st, Mullen can be surface mounted or recessed into wooden or screeded floors, providing fast drainage with a 25mm fall inside the tray.

LEVEL BEST™

Create a stylish, minimalist design feature in your bathroom with Level Best full-height wall-mounted glass screens. Suitable for use in a wet room or with a shower tray, Level Best screens are available in polished chrome or matt black and are easy to install, with a support rail that rotates for multi-angle connection and a watertight, high-integrity seal.

A fixed glass screen option with a pivoting deflector panel is also available.

LARENCO

Larenco glass screens are the perfect way to create a relaxing refuge of calm for a truly luxurious showering experience. Ideal for wet rooms or low-level shower trays, Larenco chrome-finished screens are suitable for alcove, corner and three-sided enclosures, with a range of door options to suit various needs. All screens feature 6mm crystal-clear glass which is toughened for safety and coated with Stay Clear technology, to keep the glass looking cleaner for longer.

ELECTRIC SHOWERS

Our range of electric showers have been designed with users, specifiers and installers in mind, boasting many innovative care and technical features intended to improve the experience for all. Combining contemporary styling with advanced technology, our range of smart electric showers are perfect for use in a variety of environments, from family homes to care settings.

MIXER SHOWERS

If you enjoy the invigorating experience of a mixer shower, we offer a range of models designed to suit a variety of requirements. You need not choose between style or substance with our mixer showers, which all feature a contemporary chrome finish and can incorporate care accessories if required. As standard, each model is supplied with the necessary kit containing a hose, shower head, riser rail or bracket etc.

Arka® Thermostatic Mixer Shower

Arka® Care Mixer Shower

AKW DIGIPUMP®

Our range of digital waste pumps provide quiet, high-performance waste drainage of between 11-20 litres per minute in areas where gravity drainage is not achievable. Easy to install and connect to a variety of electric showers using the Wireless Pump Module, we offer three models to suit your installation; the M11, ideal for use with electric showers, with the M17 and M20 better suited to the higher flow volumes of mixer showers. Our new Auxiliary Switch turns on the pump independent of the shower to give additional drainage when the water is not running.

ONYX CARE POD

Developed alongside local authorities, housing associations, occupational therapists and contractors, the Onyx Care Pod is a stylish yet functional standalone cubicle designed to offer a future-proof showering solution. Installation is possible within two hours where water, waste and power are provided, allowing for a full adaptation to be completed within two days, vastly reducing inconvenience and fulfilling the needs of the end user much faster.

NAVLIN

Designed to feel at home in any 21st century bathroom, our minimalist and modern collection of fully compliant Navlin sanitaryware is the ideal way to refresh your home. Featuring a clever rimless toilet pan which improves hygiene levels by reducing hard to reach areas where germs can thrive, Navlin offers a range of complementary pedestals, seats and flush options to expertly cater to your family's needs.

LIVENZA PLUS®

Our Livenza Plus range of fully compliant sanitaryware has been designed to offer flexibility, choice, and innovative features, including a rimless toilet pan for enhanced hygiene. Livenza Plus boasts a classically contemporary aesthetic and is incredibly versatile, with a variety of stylish pedestal, seat and flush options to suit your unique requirements.

Browse our brassware collection to find the perfect finishing touches and complete your suite.

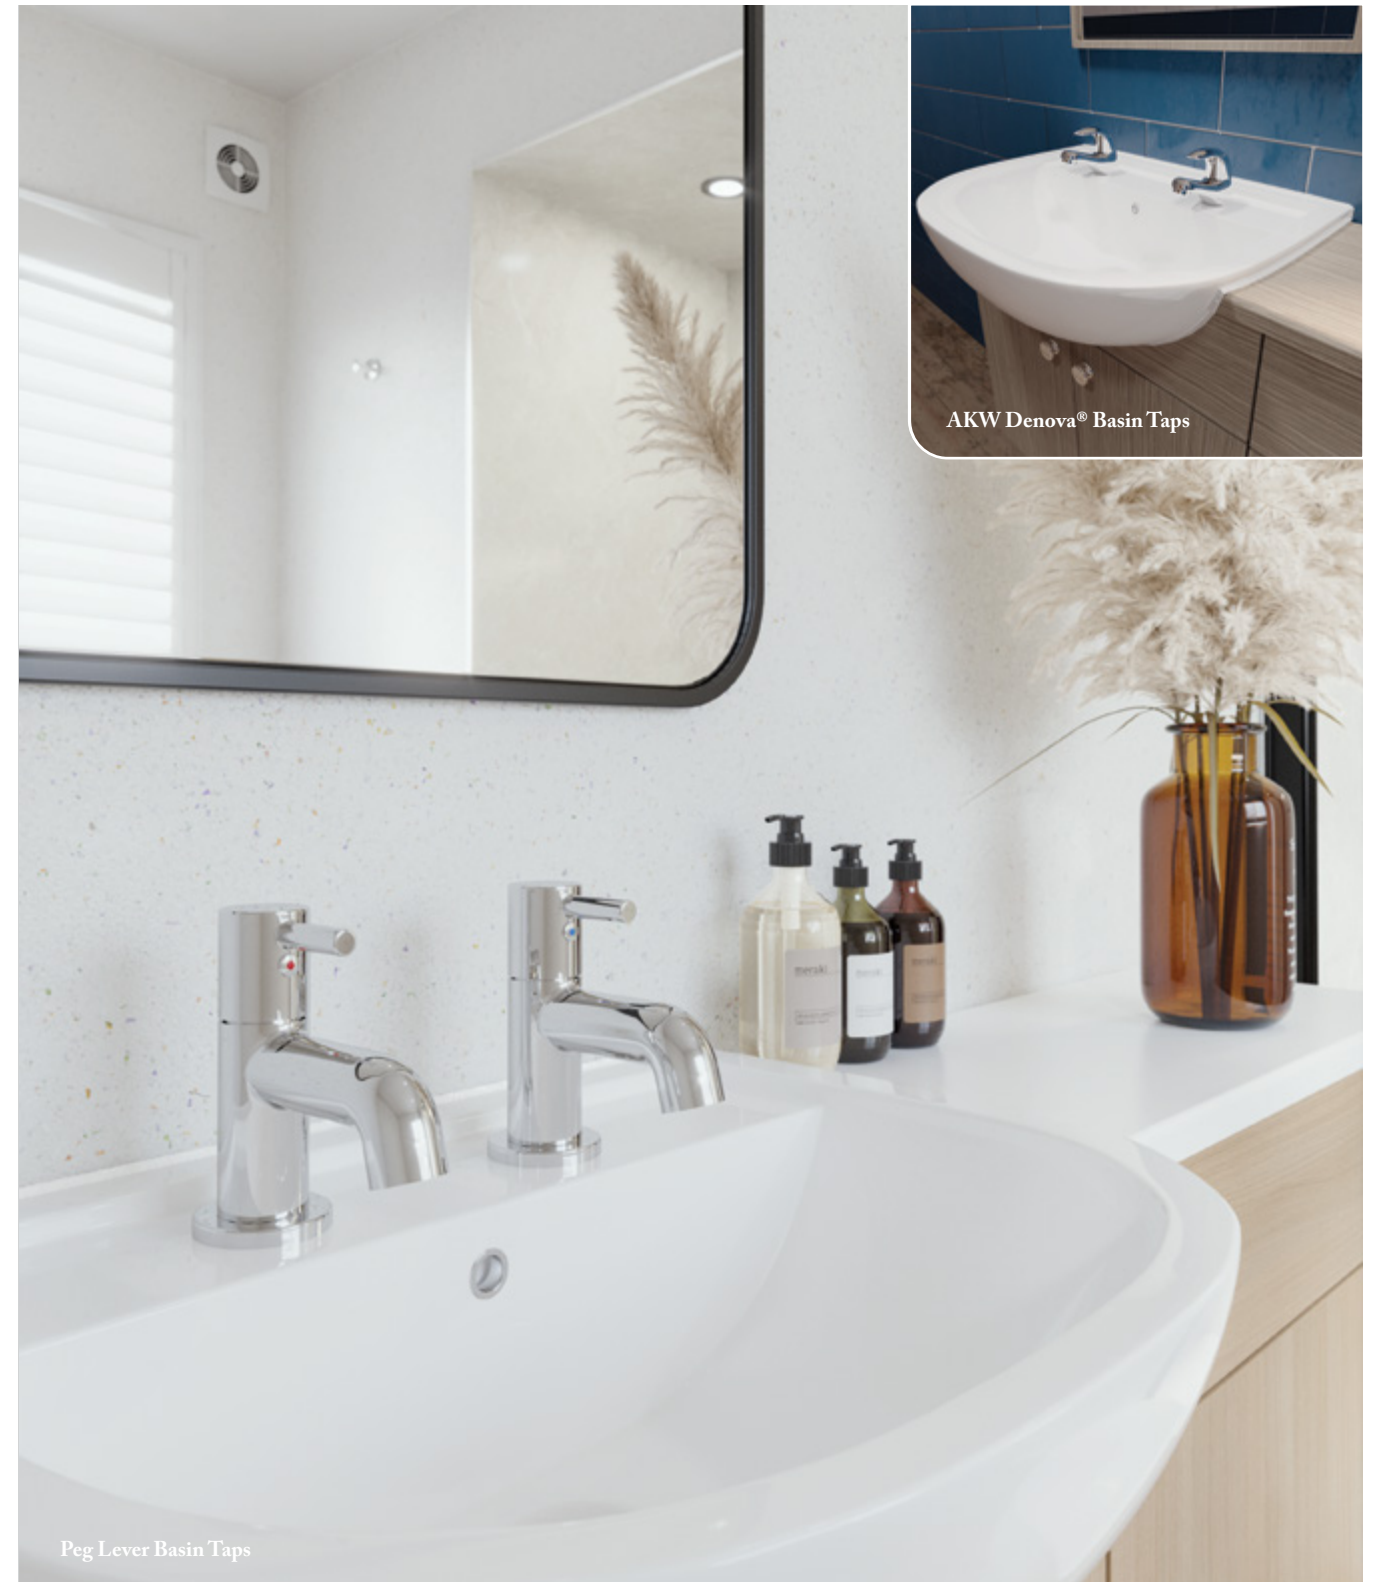

AKW BIDET

Ideal for social care and private installations, the AKW Bidet has been developed to offer an aesthetically pleasing, cost effective, quick to install and easy to use and maintain bidet for those wanting a non-permanent solution. With adjustable spray, temperature and dryer settings that can be tailored to meet specific comfort and cleaning requirements, the AKW Bidet makes intimate care more dignified for those who need a helping hand.

BRASSWARE

Complete your wash basin or bath with our stylish collection of chrome-finished brassware. With a wealth of designs available, including vintage-inspired cross head taps, peg lever taps that ooze industrial aesthetic, or contemporary options from the AKW Denova® range, you will be sure to find one to suit your personal taste.

Peg Lever Basin Taps

AKW Denova® Basin Taps

BATHROOM FURNITURE

Hide any unsightly plumbing and create useful storage opportunities with our range of versatile fitted furniture, which is perfectly paired with our semi-recessed wash basins and Navlin back-to-wall WC. Available in several natural-looking styles and designed to fit the smallest of spaces, furniture is a subtly simple way to add those unique, finishing touches to your bathroom.

ONYX ACCESSORIES

An ideal way to complete your suite with modern fixtures in a choice of striking, monochromatic tones, Onyx accessories perfectly complement our range of Onyx shower trays and mobility aids. Clean lines, chrome accents, durable acrylic and stainless-steel finishes, as well as minimalistic hidden fittings make these both practical and desirable additions to your bathroom.

ONYX SHOWER SEAT

From the Onyx range of contemporary mobility aids and accessories comes this ergonomic fold-up shower seat with soft-close mechanism, durable aluminium leg and choice of two stylish colours. For even greater flexibility when installing, the Onyx seat is available with adjustable leg, with the Onyx Compact an ideal solution for when space is limited.

GRAB RAILS

Usually, the first step in achieving safer showering for those with reduced mobility is to install a load-bearing grab rail for support. Although there is often a stigma about their appearance, the clinical look is not compulsory. Onyx grab rails are modern and minimalist yet strong, providing reassurance when you need it. Our mid-grey and dark blue stainless-steel models, feature a more traditional design but revolutionise it with bold, tonal colours.

MARLBROOK WALL PANELS™

Marlbrook wall panels offer a complete bathroom solution that does not compromise on style, with a scuff and water-resistant surface and choice of four attractive designs. Fulfilling all the requirements of tiles but without the stress and long-term maintenance, wall panels are incredibly versatile, lending themselves beautifully to any bathroom, whatever the colour scheme or configuration, leaving you free to design and create your ideal space.

ORIGINS WALL PANELS

Add a touch of sophistication to your bathroom with our contemporary range of Origins wall panels. Featuring subtle yet complex textures in a range of colours, these highly durable and easy to install wall panels ensure perfect results every time. Available in 16 stylish decors inspired by the latest interior design trends, Origins offers ultimate flexibility, with straight-edged panels ideal for uneven surfaces, and tongue & groove panels for a seamless finish.

SAFETY FLOORING

Comfortable underfoot and 100% watertight, our range of vinyl safety flooring is available in eight contemporary styles and is safe for the whole family, with the highest slip-resistance rating for barefoot users in wet and soapy environments. With five colours suitable for those with dementia, our flooring does not feature any large speckles which can cause confusion.

Slate	LRV 18	Anthracite	LRV 10	Wedgewood	LRV 26	Dusk	LRV 13
							

HEATING

With our selection of wall-mounted, low surface temperature heated towel warmers, and easy-to-install electric underfloor heating kits available in 15 different sizes, it has never been easier to transform your bathroom into the cosy and warm oasis you deserve.

LIGHTING

Brighten up your bathroom with our range of lighting accessories, suitable for a variety of installations. Our eco-friendly, long-life LED lights help to illuminate your space and are available with an adjustable daylight sensor, timer and pull cord. For a more discreet look, our LED task-focused spotlights are ideal as they are resistant to low pressure jets and vapour in the showering area.

A BATHROOM FOR LIFE

Updating your bathroom to make it more functional can be expensive and disruptive, given our decades of experience adapting homes to improve quality of life, at AKW we have considered how your requirements might change over time and have developed a solution to future-proof your space.

Creating a bathroom for life involves fitting and plumbing a wet room former beneath the bath, so that if you are unable to safely use this in the future and would instead benefit from a wet floor shower, the components are already installed, making the switch that much simpler, cheaper, and faster for everyone involved.

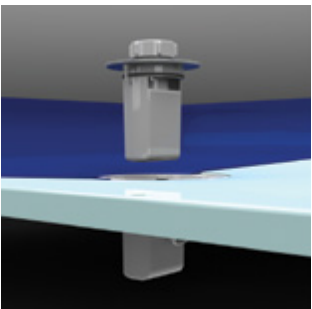

Our Tuff Form8® wet room former offers superior strength which can support a full bath and bather. Installed with a unique adaptor*, this enables you to easily convert a traditional bathroom to a wet room, should this be needed to address a decrease in mobility, or even if your showering preferences change.

HERE FOR YOU

We know that at the heart of every successful renovation is careful planning, trust and teamwork, that’s why we are here to help you, every step of the way.

Our experienced network of regional Sales representatives can provide advice on selecting the best products for you, and are contactable via phone, email, LinkedIn, or even over video conference with AKW Virtual Meetings.

If you’re in need of assistance with the design or specification of your project, our team of nationwide specialist Surveyors are on hand to visit, measure your space, supply drawings, and advise on the best fixtures and fittings for your bathroom, giving you peace of mind and an expert to chat things through with face-to-face.

Our dedicated Customer Service colleagues are here to help with placing your order and arranging a contact-free delivery that suits you. Should you have any installation or operational queries, our fantastic Technical Support team – many of whom have previously worked as plumbers – are available to discuss these with you, or organise a home visit from our Engineers, should this be required.

Naturally, we put safety and security first, so all our Surveyors and Engineers carry AKW ID cards, which have braille stickers for visually impaired customers. They are also equipped with PPE and adhere to increased health & safety protocols to ensure the welfare of everyone.

To find out how we can help, get in touch using the details below.

WARRANTY INFORMATION

At AKW we offer a wide variety of warranties for our products, many of which have a made for life guarantee. Please be aware that all our product warranties exclude damage, misuse, limescale build up, and wear and tear.

FOR MORE INFORMATION

Browse our full range of bathing and showering products by visiting our website and downloading our latest catalogue. Visit: akw-ltd.co.uk

The Dementia Services Development Centre at the University of Stirling have undertaken a review of this product and have rated its design in relation to dementia design principles and its usability within a dementia-inclusive environment. For ease of identification, the suitability of the product is classified by number with corresponding explanation of use, within the ratings key provided.

The DSDC Accredited Product logo is awarded on the merit of the individual product and colour-way. This accreditation does not merit the manufacture or final application of the product. Whilst every endeavour has made to ensure the ratings are reflective of the products suitability and applied use at the time of print, DSDC cannot be held responsible for the application of the final product, its performance or its interface with other products or finishes. For an environment to be considered ‘dementia-inclusive’ or ‘dementia-friendly’ careful consideration must be given to the specification of adjoining finishes, their performance specification (for example Light Reflectance Value (LRV) slip resistance and use of pattern) and their suitability for their intended use.
