

# The Twyford Collection

# The luxury of greater choice and greater service

From market leading, bathroom transforming ideas to the latest on-trend innovations, Twyford can meet every individual taste and every customer budget. In every range, you'll find clever technology to enhance and improve bathroom functionality, and 160 years of ingenuity is your reassurance of unrivalled support.

## Clever thinking

Twyford are constantly introducing innovative, market leading ideas to make the bathroom experience even better - like the first ever Rimfree® toilet, Proclean glass coating and the water saving Flushwise® system.

Clever technology, smart design features.

## Great experience

Twyford have been leaders in bathroom design for over 160 years, with a reputation for guaranteed quality and superb performance along the way.

## Experienced team

Twyford continue delivering - from design and production to marketing and merchandising. From customer service to after sales, we're all dedicated to delivering the very best in products, service and support.

## Good looks

Twyford bathroom ranges don't just perform superbly, they look terrific too. Form and function combine to create style statements for the modern bathroom. Practical and durable, smart and stunning. The perfect solution, every time.

# Contents

**Rimfree**  
A toilet that has no rim meaning there is nowhere for germs to hide and making it easier to clean.  
**Please refer to pages 8 & 9 for more details.**

**flush wise**  
Twyford's water saving dual flush 4/2.6 litre cistern system.  
**Please refer to pages 12 & 13 for more details.**

**ANTIBACTERIAL SURFACE**  
Twyford's E100 and E200 quick release seats include an antibacterial finish that protects against 6 different types of common bacteria.

**TOTAL INSTALL**  
Our unique Total Install® system makes installation of toilets and bathroom fittings quicker and simpler than ever before. Giving a perfect and professional finish to every job.  
**Please refer to pages 10 & 11 for more details.**

**PRO CLEAN**  
Twyford's Proclean is a protective glass coating which aids easy cleaning of shower enclosures by preventing build-up of limescale, soap scum, stains and dirt.  
**Please refer to page 60 for more details.**

The European Water Label (EWL) is designed to help easily identify water efficient products, which when installed and used correctly will use less water and save energy and money, compared to other products available in the market.

# Clean, green & stylish

The revolutionary Rimfree® toilets are available across five best-selling Twyford series. There's no rim so there's nowhere for germs and dirt to hide. Light on cleaning. Light on water usage. Good looking too. Simple. But brilliant.

Visit [www.twyfordbathrooms.com](http://www.twyfordbathrooms.com) for more details on Rimfree®

## Clean

With no concealed rim, there's nowhere for germs to hide, so the toilet is not only hygienic, it's smarter and easier to clean, too.

## Green

The Moda and E100 Rimfree® toilets are available with Twyford's unique Flushwise® 4 and 2.6 litre dual flush technology, using up to 60% less water than a standard toilet.

## Stylish

Rimfree® toilets are available across five best-selling Twyford collections - all with cool, contemporary design and a wide range of options including washbasins, bidets and furniture, co-ordinating to create a complete look for every bathroom environment.

Moda

# Getting your installation spot on

## Total Install® from Twyford

Twyford has invested in extensive research about installation needs with all types of professionals, resulting in an installation system called Total Install®.

The Twyford Total Install® system enables bathrooms to be fitted through an array of ingenious factory-fitted professional fittings. A quick and easy high quality finish, can be achieved using fewer tools, whilst also providing products that can be easily maintained.

Listed here are the Total Install® features that can be found on our products, all of which are designed to make installation quicker and simpler, every time!

### Washbasins - Wall brackets

Factory fitted wall brackets

Twyford Total Install® washbasins are supplied complete with factory fitted wall brackets and wall fixings for use on plaster board walls only. The brackets for the washbasins can be adjusted for easy post-installation tiling without removal. Please note, the brackets are non-load bearing and are for positioning only, therefore must be used in conjunction with a full pedestal.

Available as standard on Moda 550, 600 and 700mm washbasins.

### Bath Panel

View bath panel

View panel magnet located into Galerie bath leg set

Refresh bath panel

View and Refresh bath panels are both available with Total Install®

The full Total Install® feature can only be achieved with the View panel when used with the 1700 x 700mm Galerie bath. Threaded magnets are supplied with the panel which

can be screwed into inserts on the bath leg set. The panel comes pre-assembled with mounting plates which will simply click into place, so there is no need to build your own frame or waste time getting accurate measurements.

The Refresh panel is supplied with a magnetic wooden mounting frame which must be assembled before the panel is fitted. The panel comes pre-assembled with mounting plates which will simply click into place.

### Baths

Galerie bath tap holes are smaller

Galerie flip up leg set

Twyford's Galerie Total Install® baths are supplied with all the necessary screws and fixings which have been standardised to reduce the number of tools required. They come complete with a factory-fitted tubular leg set which simply flips into place.

Shorter bath feet thread into inserts and make for fast adjustment and levelling. The feet of the bath also act as extra protection for the rim of the bath during transit and storage.

Tap holes are smaller making taps & mixers easier to fit and align, removing the risk of seepage and too close a fit to surrounding tiling. Galerie baths also include a self-adhesive upstand kit designed to solve the problem of leakage between tiles and the bath edge.

### Total Install® Pack

Upgrade your E100 round washbasin

If you wish to upgrade your purchase with our Total Install® system, then you can select from the complete pack or the basin pack.

The complete pack consists of, washbasin brackets and fixings, pan to floor fixings and isolation valve for the toilet.

The basin packs can be purchased for either small or large washbasins and consists of washbasin bracket and fixings.

Please ensure you check suitability before you place your order.

# Good looks and great water saving ideas.

Twyford lead the way in water saving innovation throughout the bathroom. With us, it's not an afterthought - everything is designed with water use reduction in mind.

## Outperforming the regulations

The problem of water scarcity is increasing globally. Current usage is unsustainable and water saving is a key element in planning for new developments. At Twyford, we design with this in mind. It's not an afterthought, it's an inspiration. Our innovative, market leading products conform to and outperform regulations, reducing water consumption dramatically, with no compromise on functionality and style.

## The European Water Label

All Twyford toilets and many other Twyford products are registered and therefore listed by the European Water Label (EWL). The European Water Label is designed to help easily identify water efficient products, which when installed and used correctly will use less water and save energy and money, compared to other products available in the market. Please visit the European Water Label website: [www.europeanwaterlabel.eu](http://www.europeanwaterlabel.eu) for more information.

## Waterwise

Twyford were the pioneers of Flushwise®, the dual 4/2.6 litre flush technology for toilets that has since become widely adopted across the UK bathroom industry, it is for this product that Twyford received the Waterwise Marque back in 2007. The Waterwise Marque - the first scheme in the UK to highlight water efficient products. It is awarded annually to products which reduce water wastage or raise awareness of water efficiency. Please visit the Waterwise website: [www.waterwise.org.uk](http://www.waterwise.org.uk) for more information.

The Flushwise® dual flush system is now available on seven out of the company's 11 ranges covering all sectors of the market from entry level to top end with a choice of designs and price points. These are E100, E200 and Moda.

## Toilets

More than half (63%) of our daily water consumption at home originates from the bathroom and toilet. Twyford have been leading the way in reducing toilet flush volumes. We have revolutionised the field by pioneering the unique Flushwise® dual flush push button toilet. Flushwise® toilets use 4 or 2.6 litres each flush, that's 60% less water than a standard toilet and is also available on concealed cisterns.

## Taps & mixers

X50, X52, X60, X62, X70, X120 taps, mixers and shower valves can be fitted with flow regulators to reduce the rate of water flow. Turn off the tap when cleaning your teeth, soaping hands and shaving. A running tap uses up to 9 litres of water per minute.

## Baths

Twyford's Celtic steel bath has a capacity of just **140 litres**, that's an estimated 35% water saving compared to a typical standard size bath. The Opal acrylic 1700 x 700mm bath is also available in a water saving option, with a low volume capacity of only **130 litres** to overflow.

# Moda

Curved and squared forms combine to create stylish, space saving compact shapes and features across the comprehensive Moda range. The toilet options include a combination of our Rimfree® and Flushwise® technologies for easy cleaning and water saving. A selection of the washbasins feature Total Install®.

# Welcome to Twyford Geo showering

The bathroom should be a reflection of both practicality and style. The Twyford Geo series provides a core range of framed shower enclosure products which deliver clear space saving solutions and outstanding value. Excelling with its simple, stylish and practical design flexibility.

Offering quality and practicality in one enhanced solution.

## Profile Handle Design

Minimalistic profile handle design on all sliding partitions, providing easy cleaning and increased stability.

## ProClean Glass Coating

ProClean glass coating creates surface tension, making the glass easier to clean and also reducing the build up of water marks, limescale and soap scum.

## Spring Loaded Buffers

Providing an enhanced cushioning effect for improved acoustics when opening and closing the shower door as well as smoother action when using the shower enclosure.

## Roller System

Enhanced traction across the upper and lower profiles of the shower enclosure, delivering improved acoustic benefits and a smoother door glide.

## Reversibility

Doors and panels can be reversed for both left hand and right hand applications.

## Glass Thickness

6mm glass thickness as standard across all enclosures with 8mm upgrade available on sliding doors

The Pivot Door is ideal where space is available for an outward opening door, and can be used in a recess or with a Side Panel. It features a robust rise and fall pivoting system which adds rigidity and durability to the door opening.

Available in the following sizes: Geo Pivot Door 760mm, 800mm, 900mm

Side Panel 760mm, 800mm, 900mm

Geo Pivot door with side panel and tray

## Geo Pivot Door

Geo Sliding Door

The Sliding Door enclosure provides a very generous showering space. It can be used in a recess or with the addition of a Side Panel it can be positioned in a corner.

Available in the following sizes: Geo Sliding Door 6mm Glass Thickness 1000mm, 1100mm, 1200mm, 1400mm, 1500mm, 1600mm, 1700mm

Geo Sliding Door 8mm Glass Thickness 1200mm, 1400mm, 1500mm

Side Panel 760mm, 800mm, 900mm

Geo sliding door and tray

Geo Quadrant

The Quadrant enclosure provides a distinctive and welcoming corner shape and creates a good size showering area without taking up too much room. Curved glass sliding doors are accessible from the front.

Available in the following sizes: Geo Quadrant 800mm, 900mm

Geo Quadrant and tray

Geo Corner Entry

Sliding corner entry access doors provide extra showering space and makes the corner entry enclosure an excellent alternative to a quadrant.

Available in the following sizes: Geo Corner Entry 800mm, 900mm

Geo corner entry and tray

Geo Bath Screen

Designed for an over bath shower. The single panel bath screen hinges through 180° for easy access and cleaning. It can be fitted onto either a left or right hand wall.

Available in the following sizes: Geo Bath Screen 1500mm

Geo bath screen and Aspect 1700 x 700mm bath with Endurance side panel and end panel

# Twyford Shower Trays

## Key features

- ABS acrylic capped polyconcrete - strong, durable quality and excellent performance
- Low profile, simple and stylish design in-keeping with current trends
- 90mm waste hole (waste to be ordered separately)
- Twyford trays can be installed flat to floor or with legs and panels
- Leg and panel kits to be ordered separately
- All popular sizes available, all Twyford door sizes covered
- Upstand and flat top versions available

### Square - 4 Upstand Trays

Sizes available: 760mm, 800mm and 900mm

### Square - Flat Top Trays

Sizes available: 760mm, 800mm, 900mm and 1000mm

### Rectangle - 4 Upstand Trays

Sizes available: 900 x 760mm, 1000 x 760mm, 1000 x 800mm, 1200 x 760mm, 1200 x 800mm, 1400 x 900mm, 1700 x 750mm

### Rectangle - Flat Top Trays

Sizes available: 900 x 760mm, 1000 x 760mm, 1000 x 800mm, 1100 x 800mm, 1200 x 760mm, 1200 x 800mm, 1200 x 900mm, 1400 x 900mm, 1500 x 800mm, 1600 x 800mm, 1700 x 700mm, 1700 x 750mm and 1700 x 800mm

### Quadrant - 2 Upstand Trays

Sizes available: 800mm and 900mm

### Quadrant - Flat Top Trays

Sizes available: 800mm, 900mm and 1000mm

### 90mm High Flow Waste

Suitable for all Twyford trays, and enabling water to flow away at over 32 litres a minute. An offset elbow assists installation, and there's a quick release inner unit for easy cleaning. Available separately in a chrome finish.

Flexi waste pipe.

Flexi upstand seal kit.

Quadrant legset and panel kit.

## Shower Tray Accessories

# Very useful specifications

The following pages have the full specifications for all the products shown in this brochure. So there's everything you need to plan your installation and make the most of your space.

Making installation quicker and simpler, available as an optional upgrade on all Energy collection washbasins and as standard on all Energy shower enclosures.

Twyford's water saving dual 4/2.6 litre flushing system.

Twyford's Proclean is a protective glass coating which aids easy cleaning of showering enclosures by preventing build-up of limescale, soap scum, stains and dirt.

Twyford's E100 and E200 quick release seats include an antibacterial finish that protects against 6 different types of common bacteria.

A toilet that has no rim meaning there is nowhere for germs to hide and making it easier to clean.

It's all in the planning

When it comes to planning, precision is everything.

Our dedication to your specification ensures that we have every angle covered, from the total flexibility and design freedom we bring to every application to the smart installation features and compact options that transform any bathroom space.

Our technical department constantly monitor changes in legislation and building regulations to ensure our products are fully compliant and meet the Code for Sustainable Homes (CSH).

While our 160 years' experience and unrivalled design heritage is your reassurance that every detail will be right, whether you have special requirements, accessibility issues or unusual room sizes to contend with.

Our exceptionally supportive service also includes useful tools like Specmaster™, our online specification programme created to help with design logistics.

For product codes and pricing, please refer to the corresponding Price List (RRP)

Call 0800 007 5133 or email [twyford@web-response.co.uk](mailto:twyford@web-response.co.uk) to order a price list/brochure.

# Cleaning and Maintenance

## Baths

Acrylic or enamelled bath surfaces should be cleaned regularly with warm soapy water, then rinsed with cold water and ideally dried and polished with a soft cloth. It's best to do this after every use as some bathroom products can damage or discolour surfaces. Avoid abrasive products and scouring powders. Bleach is a complete no-no with enamelled baths.

## Ceramics

Ceramic products should be cleaned regularly with warm soapy water, then rinsed with clean water and ideally polished with a soft cloth. Regular cleaning will prevent a build-up of soluble salts. Please don't leave strong cleaners or bleach on ceramic products overnight since the glazed surface may be damaged.

## Plastic toilet seats

Plastic toilet seats should be cleaned regularly with warm soapy water. Avoid abrasive cleaning agents or scouring powders as they may damage the surface. We strongly recommend that you carefully follow the instructions on the bottle of any cleaner you use.

## Chrome plated products

Clean regularly with warm soapy water, then rinse and dry with a soft cloth. Specialist chrome cleaners can also be used, but they are abrasive so always follow the instructions carefully. Avoid contact with disinfectants, denture cleaners and hair dyes as they can cause irreparable damage to chrome surfaces.

## Shower enclosures (excluding Proclean)

Shower enclosures should be cleaned after every use with a squeegee, soft cloth or chamois leather - but not cleaning agents - to wipe off any water droplets. Residue left by bodycare products (liquid soap, shampoo, shower gel) can also accumulate so please rinse them off. Follow the same routine with sliding door track fittings.

Don't allow limescale to build up - especially in hard water areas. If a stubborn limescale build up can be cleaned with a mixture of 50:50 vinegar and water - but make sure all vinegar is rinsed off completely. Never use strong detergents or cleaning agents.

## Proclean glass

Cleaning Proclean glass could not be easier, simply use a damp cloth.

## Shower trays

Clean with warm soapy water or mild detergent after each use, and wipe dry with a clean cloth - not gritty abrasive cleaners. If limescale or fine scratches become a problem, apply T-cut with a damp cloth, then polish it off. The waste trap should be removed and cleaned regularly, ensuring that any debris is removed.

## Varnished wooden surfaces

These surfaces should be dried immediately after use with a soft cloth - water should not be allowed to pool on them for a long period. To clean, use a soft damp cloth but never use scouring powder, scourers or abrasive cleaners. The polished surface can be maintained with a specialist wax polish.

- 5 years** Taps and mixers from the following ranges: X50, X52, X60, X62, X70 and X120.
- 2 years** Accessories and fittings, all wooden products, bath panels, plastic and metal fittings including seats, taps (excluding those listed under 5 year guarantee), cistern fittings, electronic components and ceramic bathroom accessories.

This guarantee covers products manufactured or supplied by Twyford Bathrooms under the Twyford brand name and installed in the United Kingdom and the Republic of Ireland. Should a claim be made, under the guarantee, we ask that the following conditions are met:

- Proof of purchase should be supplied at the time of the claim, if there is no proof of purchase supplied then the claim will be refused.
- Product should have been fitted in accordance with our installation instructions, UK Water Regulations 1999 and general good plumbing practice.
- We need to ensure that the product has been maintained and cared for in accordance with our Cleaning and Maintenance Instructions. Note mildew, limescale effects and corrosion are not covered under the guarantee.
- We cannot accept responsibility for the failure of a product if it has been modified, misused, neglected or wilfully or accidentally damaged. This also includes the general effects of wear and tear through usage.

- We must be given reasonable opportunity to inspect the product in the installed situation, if removed the product must not be destroyed but should be retained for inspection. Photographic evidence of the product in the installed situation may be requested.
- If our on-site investigation determines the reported issue is not a manufacturing fault or a materials defect, a call out charge may be applied. This will be advised at the time of your claim.
- Our policy is one of continuous improvement. If the product has failed under the terms of the guarantee and a replacement is offered, but identical goods are no longer available, a mutual agreement will be sought.
- This guarantee applies only to the single product in question and not to the whole bathroom suite. This guarantee does not extend to cover consequential loss or damage which could not be reasonably foreseen at the time the product was purchased.

For further information contact our Customer Services Team on:

**T: 01926 516 800**

**E: [enquiries@geberit.co.uk](mailto:enquiries@geberit.co.uk)**

**F: 01926 400 101**

This guarantee is effective for all our products under the aforementioned parameters and is non-transferable. It is offered to customers acquiring our products as consumers, not in the course of a trade or business. This guarantee does not in any way affect the statutory or other rights of a consumer.
