

A woman with short dark hair, wearing a white long-sleeved shirt and a green vest, is pushing a grey and black stroller. A young child with curly hair, wearing a white sweater and blue jeans, is sitting in the stroller. They are inside a glass-enclosed vertical cabin platform lift. The lift has a digital display showing '0' and safety instructions: 'MAX 4 PERSON / 400kg' and 'NO RUNNING'. The background shows a brightly lit indoor space with wooden floors and glass railings.

Vertical cabin platform lifts

Stannah Midilift SLplus & XLplus

Vertical cabin platform lifts

Our cabin Midilift models combine all the advantages of a conventional platform lift with the features of a traditional passenger lift.

Manufactured by us in the UK our cabin platform lifts are installed in a variety of structures, including their own structure-supported enclosure. A range of finishes and options enable the lift to complement your building interior.

Key benefits

- Up to 12m travel depending on model
- Compact footprint with a choice of entrance configurations
- Minimal builders work required and quick installation time
- Structure-supported enclosure – no lifting beam required
- Fully automatic cabin controls
- Enclosed cabin with full height light ray and safety edge protection, ensuring no encroachment on cabin size
- XLplus with energy efficient traction drive is ideal for medium rise applications
- Our drive system can be fully enclosed within the lift structure for easy incorporation into any building
- Low pit requirement with ramp option where a pit is not possible
- Choice of finishes and ceiling designs, including glazed cabin and structure to complement building design

Midilift helps to meet the requirements of:

- The Equality Act
- Part M of the Building Regulations (England and Wales) and Section 4.2 of the Technical Handbook (Scotland), both of which cover the requirements that many new buildings must meet to ensure ease of access and use
- BS8300:2018 (Parts 1 & 2) Code of practice covering the design of an accessible and inclusive internal and external built environment

All of our Midilifts are UKCA marked and comply with the Supply of Machinery (Safety) Regulations 2008 (2008 No. 1597).

Vertical cabin platform lifts

Installation typically 5-12 days, depending on site conditions and lift travel.

All our lifts are supplied with a 12-month warranty as standard and we offer a range of service options tailored to suit your specific requirements.

Standard features

- Lift enclosure complete with powder coated steel infill panels (White BS22B15)
- Full height cabin (virtual door on entrance/exit sides)
- 900mm clear opening at each entrance
- Panoramic glazed landing doors
- Two tone arrival chime at each landing
- Surface mounted landing controls with automatic push button control
- Keyswitch to isolate lift at lower floor
- Emergency lighting and alarm with back-up battery

Carriage

- Three energy efficient LED cabin ceiling designs
- Choice of cabin walls and flooring to create your own unique lift
- Automatic button controls and car overload indicator
- Audible and visual notification of floor level and travel direction
- Two-way intercom communication system for emergency calls
- Handrail in satin stainless steel
- Full height light ray curtain on entrance edges
- Automatic emergency lowering feature

Vertical cabin platform lifts

Options

- Glass infill panels (clear or tinted)
- Structure framework for placing into existing lift shaft
- Choice of RAL colours for the enclosure or pre-drilled for cladding
- Wooden fire rated doors (30 & 60 minutes) in a choice of finishes – primed, ash, beech, red oak or white oak
- Powered landing door operator
- Flush wall mounted landing controls or pedestal mounted landing controls
- Digital position indicators on each landing
- Key operated locking control at each landing to restrict access to the lift
- Range of lift car mirror arrangements
- Fixed ramp (for when it is not possible to provide a pit)

Carriage

- Emergency telephone
- Autodialler with or without induction loop
- Fold down seat fitted to the carriage

Choice of cabin finishes

Wall colours and options:

Vinyl skin plate:

Wallboards:

Other finishes:

Flooring:

Right: Console, dado rail and handrail in brushed stainless steel; console trim in polished stainless steel.

Far right: Midilift XLplus with glass wall panels and polished stainless steel ceiling.

Samples can be provided on request – please call 01264 339090.

The colours and designs reproduced in this document have been matched as closely as printing will allow. It is recommended you obtain samples prior to specification. We are continually developing and improving our range of products and finishes and we therefore reserve the right to alter or amend the specification without prior notice.

Please note: costs may vary and are dependent on the choice of finishes selected.

Stannah knows how to help people get on with their lives. Whether it is a passenger lift at the station, a dumbwaiter at the coffee shop, an escalator in the shopping centre, or a stairlift at home – we are there quietly helping life happen.

With over 150 years of experience and expertise in the lift industry, we offer customers right across the UK a complete range of lifting solutions to move people and goods efficiently, reliably and safely. We are proud of our reputation for outstanding customer service, delivered from our network of branches.

Whatever your lifting requirements, Stannah can provide a solution.
