

A male technician with a beard, wearing a dark blue long-sleeved shirt and orange work gloves, is focused on adjusting a mechanical component of a lift system. He is using a screwdriver. The background is dark and industrial, with a wooden handrail visible. The lighting is dramatic, highlighting the technician and his work.

IMPORTANCE OF MAINTENANCE

We strongly recommend that your lift is serviced at least twice a year, depending on usage. We have a range of ongoing servicing packages available to help guarantee the reliability and good working order of your lift. If we didn't install your lift, don't let that stop you, enquire now to find out how we can help with lift maintenance and servicing.

Having a care plan in place with Cibes Lift UK guarantees two service visits per year, carried out by one of our Cibes Lift Group qualified engineers. All essential lift functions will be tested, lubricated, and a full safety check performed.

**WE STRONGLY
RECOMMEND THAT
YOUR LIFT IS
SERVICED AT LEAST
TWICE A YEAR,**

A close-up photograph of a technician's hands, wearing orange and black safety gloves, working on a mechanical component of a lift. The technician is using a small screwdriver. The background shows a dark, industrial setting with a wooden shelf and a window with blinds.
