

YOUR QUERIES – OUR ANSWERS

FAQs about GEZE door closers

Q Can we replace TS 5000 with TS 5000 ECLine?

A Yes, you can replace it without additional drill holes or similar.
(The height of the guide rail must be taken into account while doing so)

Q Which door closer sizes can be covered with TS 5000?

A Sizes 2-6 can be infinitely implemented with TS 5000.

Q The door has a functional fault, it can be opened only with a lot of effort?

A Check whether the closing force has been correctly set. Alternatively, you can also use TS 5000 ECLine for barrier-free, easy-to-open doors.

Q Which door closers can we use for all installation types?

A TS 3000 V can be installed using all four installation types.

Q Can I install TS 5000 on a fire protection door?

A Yes, TS 5000 can be installed at doors with fire protection requirements up to a width of 1,400 mm using a mounting plate.

Q How do I set the closing force of TS 5000?

A The door closer size (closing force) can be conveniently set and read from the front side of the TS 5000.
